February 2015 Monthly Report Executive Summary: DL/IMS

- The data below is based on 800 allocated staff hours for the month of February.
This is based on 20 work days and includes five (out of six) staff members. In this calculation, we are not counting off time (holidays, sick days, vacation days, or lunches).
- OLITS is still down one instructional designer. Therefore, we are missing 160 staff hours for the month of February. PAR paperwork has been submitted.
- A member of our staff had trouble with our tacking software, Toggl. As a result, all of our baseline numbers are off and therefore our percentage of change will not accurately reflect our service hours.
- OLITS staff has been working hard to support faculty and departments with professional development training and course support. As a result, we did see a 39% increase in the number of meetings scheduled and 29% increase in the number of service requests asking for design support during the month of February.
