No longer offer CCJ 3024 on-line	ALC data indicated that students were successfully meeting the outcomes in both in-class session and on-line sections of this course; however, the main professor expressed concern over whether on-line delivery was the best delivery for this course. Given it was already on the schedule for the fall, this change was instituted in the spring of 2016.	Faculty discussion.
CCJ 3117: Changes to assignments, book, etc...	ALC data indicated that students were struggling to meet the outcomes related to this course. This particular year was only based on one-semester of data, but changes were made to the course structure (not the material) based on these findings.	One professor teaches this course; therefore, given the changes were at the course level no discussion or research was utilized.
