Collection Assessment : Education, USFSP, 2009 : Library Reference, Research, and Instruction Support for the College of Education : NCATE Accreditation Library Education Collection Report

The Nelson Poynter Library provides a variety of means for students and faculty to access research and reference assistance in person at the reference desk, through phone assistance, email support, online reference chats, and through a librarian embedded into the blackboard component of distance education classes. Education students receive research instruction during 1 hour bibliographic instruction classes and through our one-on-one research assistance program (RAP). Class library research sessions highlight library resources and services for Education students and research instruction is tailored to the specific course assignments and needs of the education students. In addition to contacting library support through the previously mentioned means, distance education students can access a variety of Education *specific online study guides through the Nelson Poynter Memorial website or through the main USF Libraries webpage.*

	2006/2007	2007/2008	2008/2009	2009/2010
