This Newsletter is brought to you for free and open access by the CUTR Publications at Digital Commons @ University of South Florida. It has been accepted for inclusion in CUTR Newsletters by an authorized administrator of Digital Commons @ University of South Florida. For more information, please contact digitalcommons@usf.edu.
The Center for Urban Transportation Research (CUTR) at the University of South Florida is pleased to partner with Women's Transportation Seminar (WTS), the Central Florida Chapter of the Conference of Minority Transportation Officials (COMTO), and the Institute of Transportation Engineers (ITE) to present the third annual **New Voice in Transportation Award**.

This award recognizes an individual at an earlier stage in their career who is demonstrating leadership in the transportation profession with significant potential for making an impact on transportation in Florida. We hope to celebrate the diversity within our profession and that the recipient will inspire others to achieve excellence.

We look forward to your nominations, and we look forward to seeing you at the 2021 Transportation Achievement Awards on Tuesday, November 9, 2021!

Application available online 🌐
CuTR was established in 1988 in the College of Engineering at the University of South Florida, in Tampa, Florida. CuTR’s mission is to proactively support implementation of innovative multimodal transportation solutions and develop leaders through research, education and action. Our work supports transportation agencies, the transportation profession and community, policymakers, and the public. CuTR provides high quality, objective expertise in the form of insightful research, comprehensive training and education, effective technical assistance and in-depth policy analysis, that translates directly into benefits for CuTR’s project sponsors. CuTR’s 45 research faculty, 60 students and post-docs combine academic knowledge and extensive “real world” experience in developing innovative, implementable solutions for all modes of transportation. The multidisciplinary research faculty includes experts in engineering, planning, computer science, economics, public policy, public health, and geography. CuTR logs nearly $20 million per year in expenditures through contracts and grants to support its research, education, training and technical assistance missions.
