DISCOVERY SUPPORT
Digital Scholarship Services

DIGITAL SCHOLARSHIP SERVICES

1. Collaborative outreach in the form of a DSS Roadshow that offers departments a choice between Scholarly Communication or Copyright Instruction

2. An early focus in the planning stages is sourcing copyright free or openly licensed content

© (Copyright)

1. Locating rights holders begins after necessary content is identified

2. This is the time to begin collecting metadata descriptors for data sets

3. We can provide assistance on the variety of ways to obtain permissions

CC (Creative Commons)

1. Author rights agreements on all open access journals were crafted for clarity and author empowerment

2. We have tools to assist in negotiating author publication contracts

3. We can provide assistance on the selection of a CC license for your work

4. Publish with us: OA Journals, OA textbooks, Open Educational Resources

Scholar Commons

1. We can help you figure out what you can do with your article after publication and we can archive your accepted manuscript in the institutional repository, Scholar Commons

2. We can host your open access project, textbook, or collection in Scholar Commons , backed up regularly

3. Scholar Commons hosting includes access to discovery metrics that can help you track your impact
