# Spring Concert Features Soloists

The combined University of South Florida Chorus and Choir will present their spring concert on Tuesday, May 29. The concert, to be presented at 8:30 p.m. in the Teaching Auditorium-Theater, will be composed of two works: Pachelbel's "Magnificat" and Thompson's "Ode To The Virginian Voyage." The Magnificat is from the Baroque Era.

Randall Thompson's "Ode To The Virginian Voyage" is taken from the poem written by Michael Drayton in farewell to the settlers leaving for the New World. Although Thompson is a contemporary composer, the work shows an interesting integration of older musical forms—gregorian chant and the madrigal—into contemporary styles.

The concert, to be presented under the direction of R. Wayne Hugoboom, will be accompanied by the full University Orchestra. Vocal soloists to be presented are: Priscilla Salemi, soprano; Anne Wright, alto; Jim Leininger, tenor; and Robert Burt, bass. Robert Gower, the choir accompanist,

will play the harpsichord with the orchestra in the Magnificat. The University Orchestra is under the direction of Professor Edward Preodor.

Free tickets are available at University Center information desk prior to the concert, and at the box office the evening of the concert. The public is invited to attend.

## FOURTH DEATH IN THREE WEEKS

## Tampa Boy Drowns In Sulphur Springs

Tampa has recorded its fourth drowning in three weeks with the death of a six-year-old Tampa boy in the Sulphur Springs swimming pool.

Jeffrey Griffin, son of Mr. and Mrs. Walter Griffin Sr. of 9302 17th St., was pronounced dead yesterday 90 minutes after lifeguard Howard B. Thompson, 22, found him lying face down in the children's area of the pool.

Thompson said he spotted the boy floating several inches below the surface of the water and pulled him ashore. He immediately began mouth-to-mouth resuscitation and continued until a fire rescue unit arrived.

The rescue unit worked over the boy for 30 minutes before taking him to Tampa General Hospital where he was pronounced dead.

The boy had been swimming at the pool with his two brothers, Walter Griffin Jr., 13, and Leslie Griffin, 9.

Dr. J. B. Hutchenson, medical examiner at the hospital, said the boy had apparently eaten shortly before entering the water and had a cramp under the water causing him to drown.

Earlier this month a woman and her grandfather drowned in Lake Magdalene trying to rescue the woman's daughter and another child who were in distress. The children survived.

Last week, a Pensacola boy drowned while with his family at Sunset Beach on Lake Carroll.

## X15 Rocketship Flight Slated

EDWARDS AIR FORCE BASE, Calif., May 28 (UPI)—Air Force Maj. Robert White was scheduled to pilot the X15 rocket ship today on a flight designed to test a second emergency pilot backup system.

The flight, programmed for an altitude of 162,000 feet and a speed of 3,900 miles an hour, has been cancelled twice.

Last Thursday, Scott Carpenter's orbital flight in the Mercury space capsule pre-empted the test, and Friday the flight was cancelled minutes before drop time because of mechanical difficulties.

The X15 holds both speed and altitude records for winged, manned aircraft in excess of 4,000 miles an hour and 46 miles high.

## 'Sota Enters Final Week of Dog Racing

Mrs. G. M. Lillie holds a wide lead as the race for kennel honors at the Sarasota Kennel Club heads into the final week of the season.

Mrs. Lillie's greyhounds posted eight wins last week for a total of 73, opening a wide gap over runnerup Cecil Austin.

Following Austin, who has had 66 winners, are Circus City Ranch Kennel with 59, Orville Moses and Huron Kennels with 57 each and H. B. Williams with 56.

Mrs. Lillie's eight wins were the best mark last week with Marlow Kennels and James Gallagher taking runnerup honors with seven winners each.

A special matinee was scheduled at 2 p.m. today, opening the final week's program, and more afternoon performances are scheduled Wednesday, Friday and Saturday. Racing continues nightly through Saturday.

Tonight's feature matches such sparkling sprinters as Orville Moses's Native, R. M. White's Rocket Syd, Deep Rock Kennel's Deposit Rock and James Gallagher's Silver Skiff.

Also scheduled are a pair of the popular three-eighths-mile races.

**WINNERS AND THE SPOILS**

Sheriff Ed Blackburn holds the winner's trophy and flag yesterday at the Golden Gate Speedway. Actually, Philip Crooke (left) won the jalopy feature, and Henry Montgomery placed second. But the Sheriff's Boys Ranch was the real victor in the benefit. The races were preceded by a softball game in which the Wrestling All-Stars were edged 5-4 by the West Coast Caterers.

## When King's Away Gang Will Play

**INDIANAPOLIS, (AP)** — When the king of golf is away, the gang will play—and profitably, too.

In the absence of Arnold Palmer, priming for the U.S. Open, Billy Casper yesterday won the \$50,000 "500" Festival Open with a record-smashing 264 total, 20 whopping strokes under par.

Along with Casper, runner-up to Palmer in the year's

PGA money-winning list, no fewer than five other golfers — scattered as far down as 48th on that same list — shattered the speedway tourney record of 270 set by Doug Ford in 1960.

Ford, seeking a third straight Speedway title, didn't do so well. His 277 put him in a six-way tie for 29th and earned him only \$291, compared with \$9,000 he grabbed in each of his two previous wins.

The hot-shooting Casper's

### ★ ★ ★ Ruth Jessen Wins Dallas Civitan Open

**DALLAS, Tex. (AP)** — Ruth Jessen, the Seattle blonde with golf's widest putting stance and an awakened power off the tee, came from far back yesterday to win the \$10,000 Dallas Civitan Open.

She accomplished several important things—she won her first tournament of the year, she outdove everybody and that eye-catching putting stance whereby she spreads her feet by four feet for better balance and uses only her shoulders and arms in the swing was just beginning to pay off.

Miss Jessen shot a closing par 71 over the 6,235-yard Glen Lakes Country Club course while Mary Lena Faulk of Sea Island, Ga., who had started the final round with a 5-stroke lead—six over Miss Jessen—blew to a 77.

\$9,000 take swelled his 1962 purse to \$41,208, still leaving him \$18,100 behind Palmer, who swings back into the circuit with this week's Memphis Open.

Casper, however, will skip the Memphis meet to brush up for the June 14-16 National Open which he won in 1959.

It seemed for a few minutes in the speedway gloaming last evening that a sudden death playoff — such as in 1961 when Ford killed off Palmer on a second extra hole — might be in order.

Jerry Steelsmith, 48th in the PGA cash list, and husky George Bayer, 37th in the money standings, each stormed to a 19-under-par finish with closing eagle threes just ahead of Casper, last to play.

#### TRAFFIC STOPPERS, WILD WEST STYLE

Tourists stop their automobiles and unlimber cameras as a string of heavy-headed bison lumber across the highway in Yellowstone National Park, Wyo. Two calves are visible in the line. The park has about 900 bison among other wild animals of which motoring and hiking visitors may catch glimpses.

### New Cities Attract Retirees

By ROBERT PETERSON  
CAPE CORAL — I'm fascinated by the big thinking of real estate developers. Most of us haven't the imagination and gumption to start a hot dog stand. But there are dozens of developers around the nation who think nothing of buying and optioning thousands of acres and creating bold new cities.

Five years ago this area was a lonesome expanse of earth, scrub pines, and palmettos along the Gulf of Mexico. But a group headed by Leonard and Jack Rosen of Baltimore, Md.—both well past 40—decided it would be a good place for a new city.

Presto! A budding city is here today with a master plan for a metropolis which may someday be bigger than Fort Myers just a few miles away. They've sold 40,000 homesites, some 800 new homes have already sprouted into reality, and

#### Life Begins At Forty

all the facilities of a small town are here, including a doctor, lawyer, merchants, and police chief.

Most of the residents are from the North. Don Graf, 40, is typical of the younger set. He went to work at 18 in a Milwaukee lumber yard which he owned two decades later. Having fulfilled his dream of early solvency he sold the business, loaded his family into the car, and came here to start a new chapter in the Graf family history.

"My wife and I feel 20 years is enough to spend in one area," said Graf, a genial, husky character with flashing white teeth. "We hope to spend our next 20 years in Florida. Then when we're 60 we'll start another chapter—maybe in the Bahamas or Hawaii."

Although he wasn't under any great financial pressure to resume breadwinning, Graf couldn't curb his capitalistic tendencies. Today he's nursing three new businesses—this town's first laundromat, its first rent-a-car agency, and an embryo variety store.

Typical of the senior set are Tom Corbetta, formerly of Urbana, Ill. This ex-paving contractor and his wife retired here two years ago.

"Folks who retire and stay put enjoy saying they can't bear to leave old friends," said Corbetta, a lean, ruddy man who runs the fishing tackle supply store here. "But I think most of them just plain lack courage."

"They are afraid to leave their familiar setting, so they remain and suffer one emotional blow after another. They grieve as old friends depart. They can't bear to see changes made in streets and buildings they know intimately. They dwell on how things used to be."

"We think it's much wiser to light out for a new, up-and-coming locale where you're forced to make new friends and contemplate the future rather than the past."

Many such as the Grafs and Corbetta are discovering that the old hometown isn't necessarily the best locale for the rest of their lives. With an expanding population, earlier retirement, and easier mobility, the next few decades will likely see great migrations from the North and East, to the milder climates of the South and West.

#### Biologist Tells Of Luminous Ocean Life

By The Associated Press  
Life in the oceans has evolved three distinct methods of lighting its way with luminescence.

The first and most significant is through special cells or organs which are provided with reflectors, lenses, and sometimes, shutters. Shrimp, squid and some fish are examples, says Dr. J. A. C. Nicol of the Marine Biological Laboratory, Plymouth, England.

A second form is discharging a cloud of luminous matter into sea water. This is used by some clams, shrimps, squids again, and bristleworms and some fish.

Third is a cooperative method with luminous bacteria. An animal can harbor these bacteria within several glandlike organs, and supports them there. In return, the bacteria produce light for their host. The luminous bacteria take up abode in certain squids and fish, Dr. Nicol says.

### Memorial Day Toll Estimated Between 80 and 120

CHICAGO, May 28 (UPI)—The National Safety Council estimates that between 80 and 120 persons will die in Memorial Day traffic accidents in

the United States.

"If drivers obey the rules and take proper precautions, the toll will be 80, but if they disregard safety warnings, the

toll will go to 120," the council said.

The council also estimated that 15 to 25 lives would be saved Memorial Day if every motorist wore a safety belt.
