

The Grouper

We've moved!

- The Leadership Development & Programming Office has moved from the CAC to PRW 102 & 103. Stop by and say hello!

Submissions from your organization must be received by 5pm on Sunday to be included in Monday's GROUPER.

Submissions may include calendar items, awards, or anything else newsworthy.

To submit an item for inclusion in the newsletter, simply go to:
<http://tiny.cc/thegrouper>
and complete the form.

Marrow Registry Info Session

USFSP Leadership Development and Programming is helping the National Marrow Donor Program find donors. Your donation can save a life. A simple form, questionnaire, and cheek swab is all it takes to join! The whole process takes less than 15 minutes and is completely painless.

Stop by and save a life on Tuesday, October 25th from 10:00 am to 2:00 pm in the Davis Breezeway.

LeaderSpeak: Mayor Bill Foster

The LeaderSpeak Series is designed to introduce students to the variety and complexity of leadership needs in today's society. Presenters from a wide variety of expertise and experience will be invited to articulate a critical need in a particular area and providing reflections on the role of leadership in meeting that need.

Join us for a conversation with St. Petersburg Mayor Bill Foster. Foster was elected in 2009 to lead Florida's 4th largest city. His term expires on January 2, 2014. LeaderSpeak is this Thursday, October 27th from 6:00 pm to 7:00 pm in Davis Memorial Hall (DAV) 130. See you there

Career Exploration Day 2011

The Career Center is hosting a Career Exploration Day on November 2 in Harbor Hall from 1-5pm. This is an opportunity for students to learn about majors offered at USFSP & careers related to majors along with student organizations and professional associations related to majors. Additionally, alumni will be in attendance to answer questions and share their career experiences. We have reached out to the contacts listed on the student club directory with some response. We are eager for student clubs to have this exposure and look forward to your participation. Please contact Barb Higel at 727-873-4114 or at oliverb@mail.usf.edu to coordinate your club's involvement.

Discover Secrets to being a Happier, More Positive Person!

Read the October Issue of Student Health 101 and take charge of your emotional and mental health

This week's catch....

Week of October 24th

Tuesday, October 25, 2011 from 10:00 am to 2:00 pm at Davis Memorial Hall (DAV) Breezeway

Marrow Registry Info Session

USFSP Leadership Development and Programming is helping the National Marrow Donor Program find donors. Your donation can save a life. A simple form, questionnaire, and cheek swab is all it takes to join! The whole process takes less than 15 minutes and is completely painless.

Wednesday, October 26, 2011 starting at 7:00 pm in Snell House (SNL) Courtyard

Workshop with the AI Downing Jazz Allstars

Come learn and listen to some amazing jazz talent.

Thursday, October 27, 2011 starting at 6:00 pm in Nelson Poynter Library (POY)

FESTIVAL OF THE GENOME: Dali and Science: A Paranoiac Universe

The Festival of the Genome will feature a series of five public lectures by nationally and internationally renowned speakers to explore the impact of DNA and the genomics revolution on science and society from a variety of perspectives.

Ten years ago this year, a scientific breakthrough of enormous significance occurred. In February 2001, two major scientific journals simultaneously provided the first detailed look at the human genome: a string of some 3 billion chemical building blocks, nucleotides, whose unique sequence forms the genetic blueprint for each individual. This momentous occasion made headlines around the world. In the intervening 10 years, many other important genomes have been sequenced, including the dog (*Canis familiaris*) and cat (*Felis catus*), important crops such as corn (*Zea mays*), rice (*Oryza sativa*), and soybeans (*Glycine max*), and numerous human and animal pathogens.

All lectures begin at 7 p.m. A reception prior to each lecture will begin at 6 p.m.

Thursday, October 27, 2011 from 6:00 pm to 7:00 pm at Davis Memorial Hall (DAV) 130
