November 2014 Monthly Report Executive Summary: DL/IMS

- The data below is based on 952 allocated man-hours for the month of November. This is based on 17 workdays and includes seven staff members. In this calculation, we are not counting off time (holidays, sick days, vacation days, or lunches).
- We had a new employee start in the month of November, bringing our team back to full strength.
- This month we implemented a new software tracking system called Toggl. This software provides more details in our monthly reports and reduces staff time producing reports. We also dropped Initiatives and website services from our reports. It will take a couple of months to work out all the fine details that the software offers and to establish a new baseline for reporting.
- Search committee is now meeting for the new director and staff has been asked to serve on other library committees. As a result, we saw an increase of 81% in committee work being reported for the month of November.
- We now have five courses under QM internal review. As a result, we had an increase of 154% of staff time supporting Quality Matters.

SERVICES	HOURS	Percent change
