St. Petersburg Science Festival Exhibitor Survey 2017 Report

Compiled by Kaya van Beynen

Total responses

32

Q1: Did you exhibit during the Friday Sneak Peek School Day?

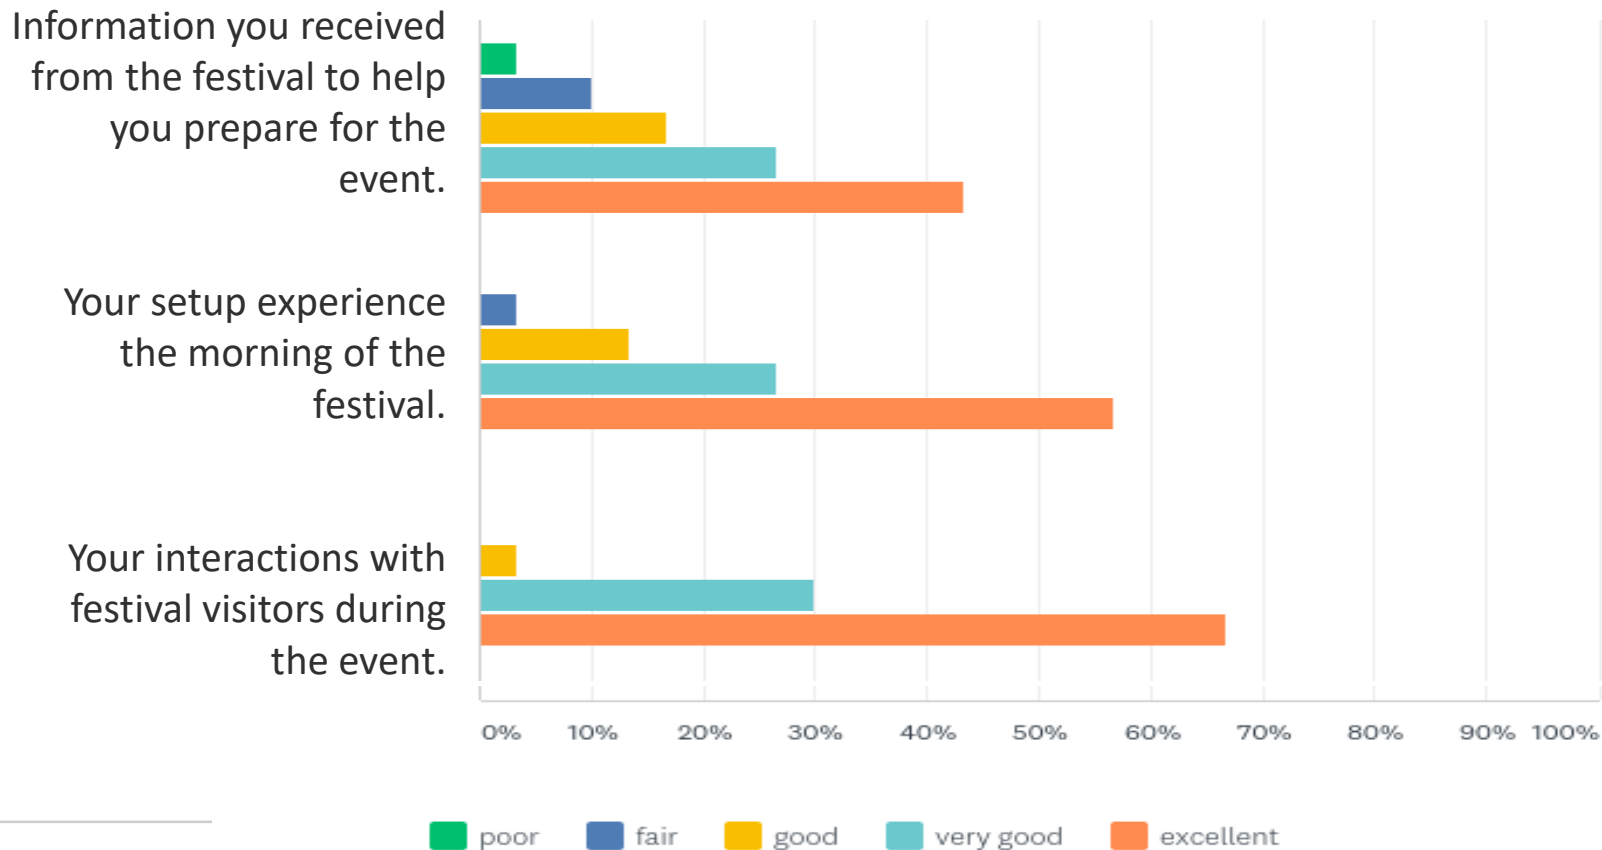

Q2: Please rate these six aspects of your experience with Friday Sneak Peek School Day.

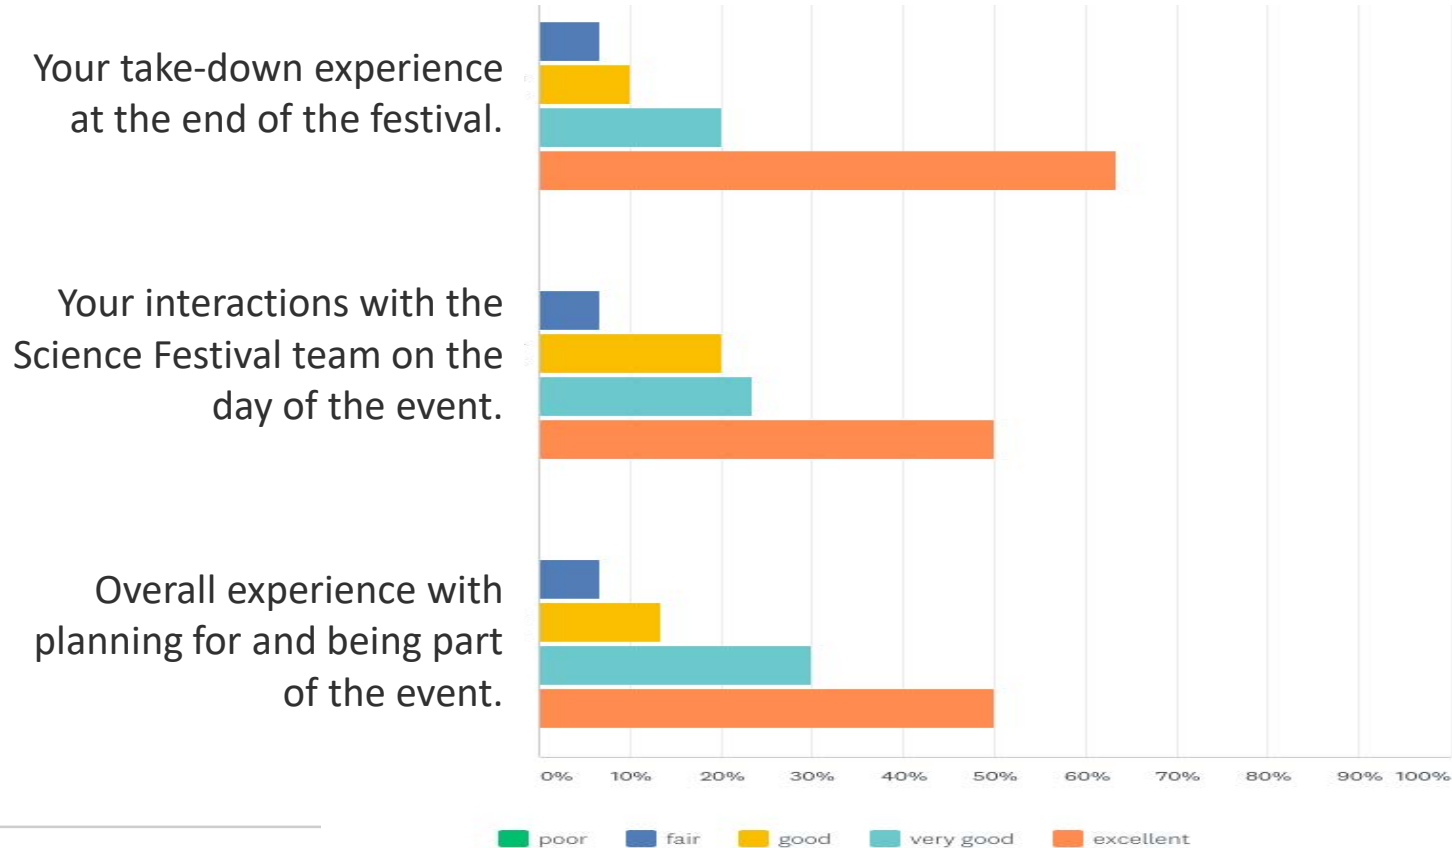

Q2: Please rate these six aspects of your experience with Friday Sneak Peek School Day.

Q3: Please rate these six aspects of your experience with the 2017 St. Petersburg Science Festival on Saturday.

Q3: Please rate these six aspects of your experience with the 2017 St. Petersburg Science Festival on Saturday.

Q4: As a whole, how do you rate the 2017 St. Petersburg Science Festival?

Q5: Did you meet your organization's goals by taking part in the Science Festival?

Q6. Please briefly describe your organization's goals for the Science Festival.

organizations event resources program
educate reach community kids
science Also students part goals help
marine promote

Q7: Was it worth your time to come to the Science Festival?

Q10: Please estimate the following to the best of your knowledge. How many people visited your exhibit?

Q11: Did you bring supplies so visitors could engage in an activity?

Answered: 28 Skipped: 4

Q12: With those supplies...

Q13: Did you run out of these supplies before the end of the event?

Q14: Please indicate your level of disagreement/agreement with the following statements:

Q15: In the future, would you like to work with someone to help align your exhibit with the Florida Science Standards?

Q17: Do you have any specific suggestions for improving the festival experience for exhibitors?

- More information prior to the event especially on the website Confirmation email upon registration (we did not receive one when we registered, although when we submitted the information the system confirmed the submission) Contact information (other than email) which includes contact person and phone number (to verify any electronic transactions or in case a possible problem arises)
 - My only suggestion to distribute volunteers to an assigned area during set up to have them available for assistance or to answer questions quickly. Have those volunteers greet us at the tables and let us know where to find them. '
 - Seemingly no help available Saturday for breakdown. Close to 4:45 pm before gave up on help from festival team. Perhaps have a few wagons or carts at the registration site so people who don't necessarily need a golf cart can transport their own items. This would relieve some of the burden on your limited staff.
 - Check with St. Pete College to make sure they don't do a STEM event the same day next year. Their event may have hurt attendance on Saturday.
 - It would be nice to have the sneak peak schedule a head of time and be allowed to set up closer to the time the first group arrives. I was set up by 8:00 but my first school group didn't arrive until 10:30, then I had 12 in a row. That was intense. By 2:00 the kids were hot and tired and I'm not sure they got anything out of my activity.
 - I felt that the requirement to be set up and ready for students 2 hours before any students were scheduled to be at our exhibit was unnecessary. Next year I will know not to come so early if I know no one will be coming to my tent until after 10:00.
 - Recycling, recycling, recycling. The Festival should be a MODEL for sustainability practices and this includes recycling.
-
