DEAN COOPER

Education Goal: Mature Judgment

By KAY KEATING

"The essential job of higher education is to help students develop maturity of judgment. This involves a blending of knowledge, reasoning abilities, and well formulated values." This is the philosophy of education which Dean Russell M. Cooper, dean of the Liberal Arts

Dr. Russell M. Cooper, Dean of the College of Liberal Arts, USF.

"Surfing" Fun Even On Land

By TOM EURE

The "funniest things" have been happening on the University of South Florida sidewalks lately.

Students walking along beside Alpha Hall are being sent surfing onto the grass to keep from being run down by advocates of the latest USF mania—skateboard riding.

This new sport consists of racing down a slanted pavement while balanced upright on a small wooden platform attached to four roller skate wheels.

According to some of the more accomplished surfers, the trick is to keep your feet firmly planted, your body low to the ground, and your arms outstretched for balance. A few inches out of position and your board would wobble out from under you.

The origin of skate-board riding, at least at USF, is attributed to Harry Dickinson, sophomore from Jacksonville, who brought the first board on campus at the beginning of this trimester.

Dickinson, who is an avid surfboard enthusiast, found the roller skate version of the surfboard a good way to keep in practice while away from the beach.

He says, "At first it was slow catching on here, but now students are beginning to see how much fun it really is."

When most of the "land surfers" started out, they were satisfied at just being able to stay up on the board. Now, however, they are turning corners, riding backwards, balancing on one leg, and weaving in and out between obstacles.

A special double-length board has even been built, upon which two people speed down the hilly slopes.

Although an official "land-surfing" team or club has not yet been organized, several of the skaters expressed hopes that their hobby would become an established competitive sport at USF, rather than just a passing fad.

Yearbook Survey To Be Made

A survey to determine student body interest in a yearbook will be taken within the next two weeks.

Dr. Albert T. Scroggins, adviser to campus publications, said that a real effort will be made to reduce the cost of such a publication so that all interested students can buy one.

"We are particularly anxious that the charter class have a yearbook," Scroggins said. "If we find that as many as 1,200 students are willing to commit themselves to paying a reasonable amount for an annual, then we can produce a book by December 1963, or the beginning of 1964. In case the book is not published until early 1964, it would be mailed to graduating seniors."

If the results of the survey are satisfactory, a staff will be organized immediately and work on the yearbook will be started before the end of this year, Scroggins added.

200 Educators Meet at USF

Approximately 200 educators representing virtually every institution of higher learning in Florida attended a conference on "The Changing Disciplines in Higher Education" Friday and Saturday, Nov. 24 and 25, at the University of South Florida.

Featured speakers were Dr. Ralph G. Ross, chairman of the

dean of a Liberal Arts College works closely with the dean of the College of Basic Studies. They act as co-chairmen of the Basic Studies-Liberal Arts Council. Dean Cooper's position is one that is both supervisory and judicial—as regards hiring, firing and salaries. In these matters he works with the president and the board of control.

Dean Cooper is also a member of the Academic Council of Deans which meets weekly to discuss matters of importance to all of the colleges.

The four L.A. department chairmen are responsible to Dean Cooper as are the members of their departments. There is a great deal of work involved for the dean in coordinating the work of all of these administrators and faculty members.

Dean Cooper feels that the people who are most desirable as deans are those who have had some experience as a faculty member first. Then, usually there is some work in administration before the honor of "deanship" may be conferred. "Dean Cooper spent 15 years as the assistant dean of arts and sciences at the University of Minnesota before he came to USF."

Dean Cooper has had a wide and varied educational career as is fitting to the position, dean of the Liberal Arts College. He received his Ph.D. in International Law from Columbia University and did graduate work at the Institute of International Studies in Geneva. He has served on the faculties of the University of Minnesota and Cornell College. After World War II he spent some time in Japan as a consultant on higher education.

Dr. Cooper is the past president of the Association for Higher Education and at the present time he is chairman of the committee, which coordinates the Sunday afternoon program on ABC, "Meet the Professor." He is also the chairman of the A.H.E. Committee on Teaching in Colleges and Universities. He is a member of the American Council in Education's Committee on Relationship of Higher Education to Business and Industry.

Dr. Cooper has written numerous articles for professional journals dealing with general and higher education and is the author of several books as well. Among these are American Consultation in World Affairs and The Preparation of College Teachers.

Dean Cooper is married and has four children, two of whom have already graduated from college, one who is in college now and one who is in high school. The Coopers live on a lake and derive much pleasure from water sports. Dean Cooper's particular favorites are swimming and canoeing.

His duties as dean, however, it is evident, demand a large part of his time. Though the student has little opportunity to come in direct contact with this dean, it is important that all students know about and appreciate the efforts of the deans of their respective colleges.

Speech Club To Sponsor Tournament

The second all-campus speech tournament is coming up Jan. 14-18. Student organizations may sponsor entries, and individual students may enter. The tournament will include four activities; oral interpretation of poetry, extemporaneous speaking, manuscript speaking and radio speaking.

Sponsors of the event, the speech association, will award the Lew Saret Sweepstakes trophy to the organization earning the most points. This trophy was presented to the association as a memorial to Lew Saret, who was a poet, a professional lecturer and oral reader and a teacher of speech. The individual winners in each of the four events will be awarded plaques.

Organizations and individuals wishing to participate must register in the English and Speech office (UC 252) by Thursday, Dec. 20. Organizations may enter two participants in each of the events, but no student may participate in more than one event.

HERE'S THE "GOLDEN BRAHMA(N)"

A highlight of the All-University Weekend was the appearance on campus of "Pi-pi" as the mascot. He was lent for the occasion by his owner, Clyde Keys. The bull's brief visit during "Autumn Antics," capped the long months of balloting to determine USF's mascot. The university will not get a permanent bull for a mascot until facilities can be provided for him. With the mascot at his debut are, on the left, a handler employed by Keys and Jim "Tiny" Moffitt, USF student. (More pix page 8.)

BICKEL-MONEY REPRESENT USF

Oxford Team Featured In Special Tournament Debate

David Madel and John McDonnell, members of the Oxford Union Society, will be featured in a parliamentary debate, to be held Thursday, Dec. 4, at 7 p.m., in the University Center Ballroom. This engagement is sponsored jointly by the Speech Association and the Forensic League. Bob Bickel and Charles Money will represent

what they need rather than what they want." Debating for the affirmative are Bickel and McDonnell debating for the negative are Madel and Money. The Oxford Union Society and the Institute of International Education yearly sponsor this annual debate tournament between the Oxford team, and forensic organizations across

swan Society, College Sports Club Committee, and is on the editorial staff of the "Mesopotamia." Madel attended Uppingham and Kable colleges. At Oxford, he holds membership in the University Conservative Association, hockey and cricket teams.

Bickel and Money are both juniors here at USF, and serve respectively, as president and vice president of the Forensic League.

Honored At Tea

The debate is to be conducted in a parliamentary style. Those supporting the resolution will be seated on the chairman's right; those against, on his left. Principal speakers will not be interrupted during their seven-minute speech. However, a discussion and general debate will follow at which time all students are invited to ask questions and develop their own arguments.

A tea will be held at 4 p.m. to honor the members of the Oxford team in the University Center.

ON ART

Winners Announced In Photo-Graphics

By JIM FELTER

The winners of the Arts and Exhibits Committee Photo and Graphic Contest have been announced by the judges: Dr. Sy Kahn, assistant professor of English; Ernest Cox, art instructor and Thomas O'Kelley, professional photographer now student. The committee was pleased with the interest shown in the contest and the number of entries.

Susan Barnes is the recipient of the \$25 over-all purchase prize. Her entry was a monochrome titled "Epoch" and becomes the property of the University Center.

The winner of the photo division \$10 prize is Gene Whitney with his photograph titled "Blacklight on a Cloud," and the graphic division winner is Edith Williamson with her linoleum block print titled "Terry."

The Committee opens its "USF Student Painting Contest" today in the U. C. Gallery Lounge. It will be on display for two weeks. This contest was open to all full time or part time students. Judging of the contest will take place behind locked doors in the lounge to day at 4:30 p.m. Winners will be posted in the gallery as soon as possible. First prize is a purchase award of \$50. This painting will become the property of the University Center.

The second place prize is \$15 and the third place prize is \$10. One thing to be considered when viewing this exhibition is the fact that art students are not attempting to create masterpieces but to learn the uses of paint, how to apply paint and what happens to paint when applied in a certain manner. I encourage everyone to view the show and not only look but

study, ask themselves why this was done and to what extent this idea was carried out.

A new exhibition will open shortly in the Library Gallery. It will be a faculty exhibition including sculpture, prints and paintings.

Booklets are still available on the Swedish Art Exhibit and the history of that country's art. They may be purchased at the gallery or from a member of Botega.

Rally Results

The University of South Florida Sports Car Club recently completed its second annual "rally"—Eccentric Concentrics. Anyone who was on the rally discovered that the circles were not just eccentric; they were downright wacky, and for the most part on a dirt road or through cattle ranges if possible.

The cars started out within two minutes of each other and were to traverse between the checkpoints at definite average speeds at a designated length of time.

First-place winner was car number 4 with the driver/navigator team of Monica Harty and Dick Schoenborn, Sab, 656 points/seconds off schedule. Second place went to Ron Harrell and Barrett, Renault Dauphine, 714 points/seconds off; and Bob Nall with Bob Wozniak, Hillman Minx, 734 points/seconds off. Of the only two larger cars, both Corvairs, in the rally, one placed fourth and the other ninth.

Social Clubs Will Attend National Meets

Research Projects On Business World

USF Gets High Score On Exam

A group of 94 University of South Florida students who took the National Teacher Examination in September scored well above the national average for the examination, according to figures received by the University's College of Education and Basic Studies.

The students, most of whom will intern next trimester, achieved an average score of 631 on the exam, giving them a percentile score of 71. This percentile figure means that, as a group, the average score of the USF students was higher than 71 per cent of the score achieved by students throughout the nation. A percentile score of 50 is average.

Exam Divided Into Fifties
Seventy per cent of the USF students scored over 600, the minimum set by the state in determining eligibility for merit pay.

The examination is divided into five parts, and the USF group scored highest in the "professional information," Education category, with a percentile of 73. They were also well above the national average in science and math, with a percentile of 70, and were above the national average in the other categories which were: nonverbal reasoning, and social studies, literature and fine arts.

Battle Praises Results
The scores also revealed that the 14 students who are currently interning had a percentile of 80 on their average overall scores, and a percentile of 92 on the "professional information" category.

Dean Jean A. Battle of the College of Education said he was highly pleased with the test results. He stated that the test showed that USF students have advanced and are continuing to do so at a rate not matched by many other colleges in the country. The Dean said that he was certain this trend would continue in the future.

USF Student Soloist With Philharmonic

Averill Vanderpie, of 211 15th St. W., Bradenton, was the first University of South Florida student to perform as soloist with the Tampa Philharmonic when the orchestra presented its annual youth concert at Tampa's McKay Auditorium Tuesday, Nov. 20.

Miss Vanderpie, a sophomore, and Armin J. Watkins, associate professor of music at USF, were piano soloists in performances of Camille St. Saens' "Carnival of Animals" at 9:45 and 11:15 a.m. and 1:15 p.m. The Bradenton student is currently studying piano under Watkins at the University.

Professors Probe Current Problems

By KAY KEATING

From the USF College of Business Administration flows a steady stream of successfully completed research projects and reports. One of the most recently completed studies was done by Dr. D. S. Wakefield and Dr. R. E. Neel last summer. Their work consisted of an analysis of historical data pertaining to incomes, sales, and population of the Plant City area; determination of consumer attitudes and spending patterns; and an evaluation of the Plant City retail complex. The findings of the study were beneficial to the sponsor organization, the East Hillsborough Chamber of Commerce.

New Policy On Admission Applications

The following new policies have been approved by the Council on Academic Affairs and the Executive Committee. They go into effect in December, 1962.

1. The deadline for application for admission the fall trimester will be approximately thirty days before the opening of the trimester.

2. For Trimester II, III, IIIA and IIIB, the deadline will be approximately two weeks before the opening of the trimester.

3. Applications will not be processed for new degree-seeking students who apply after these deadlines.

4. Qualified students in the following categories may be admitted after the deadline upon payment of a non-refundable late fee of \$5.00.

A. Special students not matriculating for degrees, including part-time students in day or evening classes.

B. Former students returning to the university and former applicants who have not previously registered.

Under this policy which goes into effect in December, 1962, advisers must bear in mind and it should be explained to late applicants—that some students may have to register without previous transcript evaluations.

All members of the university staff are urged to emphasize the advantages of early application.

Deadline dates for the current academic year are: Dec. 15, April 6 and June 1. For the fall trimester (I) 1963 the application deadline is Aug. 10.

Bentley Discusses Chaucer at Miami

A University of South Florida English instructor was among the speakers at the South Atlantic Modern Language Association annual meeting in Miami Beach, Nov. 23.

Dr. Joseph G. Bentley talked about the Miller's Tale, one of the more familiar stories in Chaucer's Canterbury Tales. More than 200 English and modern language professors from southeastern colleges and universities attended the meeting.

Dr. Bentley's paper is a structural analysis of the Miller's Tale, showing a subtle philosophical theme in the work which is closely related to some of Chaucer's earlier writings.

The other project recently completed was one involving possible patterns of unemployment rates in the United States. Dr. Gordon Brunhild, working at a Ford Foundation Regional Faculty Research Seminar, finished the analysis this past summer. He was one of the few southern college professors chosen to participate in the seminar.

New projects under way range from methodology in economics to a criticism of the redevelopment program. Dean Charles Millican's current project involves the co-editorship of a study to be published by the State Board of Control concerning a setting study for higher education in Florida.

Dr. G. E. McClung is studying new methods of teaching accounting at the elementary level. Dr. James Jackson has designed an entirely new course in finance area. This will be a two semester course and will take the place of the four semester program now offered. Dr. Cal Miller has designed a new program which will offer shorthand by tape in the Teaching Lab.

In co-operation with the Florida Institute of Continuing University Studies, the College of Business is offering the nationally televised economics course, "The American Economy." This will be available for about 75 public school teachers in Pinellas County.

Also the College of Business is sponsoring the First Florida Clergy Conference on Economic Education in cooperation with the Clergy Economic Education Foundation of the United States.

An addition to the equipment of the College of Business will be the valuable IBM 1410 which will be useful in all of the major fields of study.

Two new majors are being offered in the near future. These are International Business-Economic and Production and Quantitative Analysis. The latter promises to be one of the most important fields of business in the future. This program will make good use of the new IBM equipment.

The USF College of Business has no official national rating, an unofficial visit from the Southern Association accrediting team brought favorable remarks and the comment that the College of Business standards are far above the national standards set.

Also a nation-wide test administered to USF accounting students resulted in scores being above the national mean.

Vandy Law Man Here To Speak

Professor Thomas G. Roady Jr. of the School of Law, Vanderbilt University, will visit the USF campus today. He will meet with students interested in pursuing careers in law.

Roady will speak on the subject "Career Planning in the Law" at 7:30 p.m. in UC202. Students interested in applying for admission to Vanderbilt School of Law may meet with Roady between 2-4 p.m. today in UC 167.

Dr. F. J. Horrigan, assistant professor of political science, stated that a short organizational meeting of the pre-law club will be held at 7 p.m. today. The meeting shall be brief, and will precede Professor Roady's address in UC 202. "All students who have an interest in the law are urged to attend both the organizational meeting, and Roady's address," commented Horrigan.

Sculpture Donated To Foundation

A rare piece of porcelain sculpture, one of a series done by an English sculptress in 1940, has been donated to the University of South Florida Foundation by Mr. and Mrs. Currie Witt of Tampa.

The work, titled "Mockingbirds in Peach Blossom Sprays," is of Royal Worcester porcelain and was created by Dorothy Doughty, who is famed for her bird sculptures. Her pre-World War II works were produced in limited quantities and Witt estimated that only a dozen museums have a complete collection of her bird series.

President and Mrs. John S. Allen accepted the Witts' gift on behalf of the university.

Stops Asthmatic Choking Quickly

Asthma comes from allergic, toxic and nervous disorders, etc., but the cause of the asthmatic choking or attack is the inflammation of the bronchial tubes. This inflammation reduces the diameter of the bronchial tubes and prevents the free and normal passage of air. A formula has been perfected that quickly stops the inflammation of the bronchial tubes, lets you expel phlegm and breathe freely. NEOASMA is the name of this wonderful product that comes in easy to take tablets, individually cellophane wrapped for your convenience. Ask for NEOASMA . . . it quickly stops Asthma choking. NEOASMA Against asthma attacks. N-3

Guaranteed Continuable for Life!

Here's a fine new policy you can own all your life to insure against the ever-rising cost of hospitalization. With payments for extended stays and more serious treatments emphasized as shown here, it is possible to offer benefits that would cover a substantial part of the cost of a typical serious siege in a hospital at a cost that most people could comfortably afford.

Hospital Room

Policy pays for hospital room and board up to 60 days for each sickness or injury while continuously confined:

For first 10 days.....\$8 a day
For 11th through 60th day.....\$16 a day

Surgery

Policy pays for surgical operations as scheduled in amounts ranging up to \$255, total amount for all operations performed during any one continuous period of treatment for the same or related causes not to exceed \$450.

Other Expense

Policy pays up to \$150 after a \$50 deductible, for all other medically necessary hospital charges, except hospital room and board and nursing care. You pay the first \$50; the Association pays the next \$150 of covered expenses.

Broad Coverage

summarized above is for each continuous hospital confinement necessitated by accident or any kind of sickness commencing while the policy is in force, excepting only suicide, military conflict or conditions for which the expense is borne

by Workmen's Compensation or similar law. There is no limit to the number of confinements covered.

Current Quarterly Cost

Only \$23 for either man or woman; can be changed only if there is a general adjustment up or down. This is based solely on the full cost of insurance protection, necessary reserves and operating expenses.

No Age Limit for Continuing!

You must be at least age 60 to join unless your husband or wife is 60 or over and also insures under this policy. ONLY YOU CAN CANCEL THE COVERAGE. Benefits can be pro-rated only in the event of over-insurance or introduction of a compulsory government plan, and in either event you would be entitled to premium adjustment.

Sound Protection, Direct at Cost

is provided by a strong old company that has paid more than \$145,000,000 to generations of prudent people since 1883. We are licensed by the Insurance Departments of both the State of New York and the Government of Canada. Our record for claim service is unexcelled.
