## Work Plan

**University of South Florida - Tampa**

*Work Plan Presentation for 2014-15 Board of Governors Review*

STATE UNIVERSITY SYSTEM *of* FLORIDA | **Board of Governors**

## INTRODUCTION

*The State University System of Florida has developed three tools that aid in guiding the System's future.*

- 1) The Board of Governors' new Strategic Plan 2012-2025 is driven by goals and associated metrics that stake out where the System is headed;*
- 2) The Board's Annual Accountability Report provides yearly tracking for how the System is progressing toward its goals;*
- 3) Institutional Work Plans connect the two and create an opportunity for greater dialogue relative to how each institution contributes to the System's overall vision.*

*These three documents assist the Board with strategic planning and with setting short-, mid- and long-term goals. They also enhance the System's commitment to accountability and driving improvements in three primary areas of focus: 1) academic quality, 2) operational efficiency, and 3) return on investment.*

*The Board will use these documents to help advocate for all System institutions and foster even greater coordination with the institutions and their Boards of Trustees.*

*Once a Work Plan is approved by each institution's respective Boards of Trustees, the Board of Governors will review and consider the plan for potential acceptance of 2014-15 components. Longer-term components will inform future agendas of the Board's Strategic Planning Committee. The Board's acceptance of a work plan does not constitute approval of any particular component, nor does it supersede any necessary approval processes that may be required for each component.*

## MISSION STATEMENT (What is your purpose?)

The University of South Florida's mission is to deliver competitive undergraduate, graduate, and professional programs, to generate knowledge, foster intellectual development, and ensure student success in a global environment.

## VISION STATEMENT (What do you aspire to?)

The University of South Florida is a global research university dedicated to student success and positioned for membership in the Association of American Universities (AAU).

As Florida's leading metropolitan research university, USF is dedicated to:

- Student access, learning, and success through a vibrant, interdisciplinary, and learner-centered research environment incorporating a global curriculum.
- Research and scientific discovery to strengthen the economy, promote civic culture and the arts, and design and build sustainable communities through the generation, dissemination, and translation of new knowledge across all academic and health-related disciplines.
- Partnerships to build significant locally- and globally-integrated university-community collaborations through sound scholarly and artistic activities and technological innovation.
- A sustainable economic base to support USF's continued academic advancement.

## STATEMENT OF STRATEGY (How will you get there?)

*Given your mission, vision, strengths and available resources, provide a brief description of your market and your strategy for addressing and leading it.*

USF is a very high research university, attracting students and faculty of the highest caliber. The university is working hard to position itself for AAU eligibility as it maintains a commitment to student success, entrepreneurship and innovation.

USF's strategy is rooted in accountability: setting clear goals and constantly monitoring progress. The university is guided by the Board of Governors' Strategic Plan and USF Work Plans, including performance and preeminence metrics; the USF Strategic Plan; national benchmarks; and measures of peer and aspirational peer institutions. All of these pieces together create a roadmap to guide USF toward further excellence and, ultimately, AAU membership.

As part of a regular review process, the USF Board of Trustees and USF leadership use a detailed dashboard to track key metrics, such as graduation rates, retention rates, research expenditures and faculty awards. That review helps guide decisions about where to direct university resources for maximum impact. For example, USF's tracking of graduation and retention rates led to myriad policy changes and targeted hires that resulted in a record-high graduation rate, among other successes.

Meanwhile, USF is dedicated to cultivating relationships in the local Tampa Bay community and beyond, including some of Florida's largest businesses, to maximize collaboration opportunities. It is also focused on educating global citizens by encouraging education abroad, recruiting talented

## STRENGTHS AND OPPORTUNITIES (within 3 years)

*What are your core capabilities, opportunities and challenges for improvement?*

USF's core capabilities include: High-impact scholarship, research and creative activities; Excellence in teaching and learning; Success and achievement of students, faculty, staff and alumni; Entrepreneurial spirit, partnerships and innovation; Transparent accountability; Global research, community engagement and public service.

USF has made major gains in student success and institutional quality and will work to maintain that momentum while keeping costs down for students. This effort is supported by recent reinvestments in higher education by state leaders, including through the Board of Governors performance-funding model. In 2013, USF tied for first place in the Board's first model, which highlighted post-graduation success and affordability. In 2014, USF was also a top performer, coming in No. 2 among all State University System institutions.

USF's challenge is maintaining current momentum in student success and institutional quality with limited resources, as the university is working to increase budgetary efficiencies and hold down costs for students. Furthermore, reduced federal research funds may impact future research performance.

## KEY INITIATIVES & INVESTMENTS *(within 3 years)*

*Describe your top three key initiatives for the next three years that will drive improvement in Academic Quality, Operational Efficiency, and Return on Investment.*

### **1 Graduate well-educated global citizens through continuing commitment to student success:**

USF is committed to delivering high-quality, relevant, and globally informed academic programs that prepare our graduates for leadership roles and workforce needs both at home and abroad.

To reach this goal, USF will continue work on improving graduation and retention rates; recruit the highest-caliber students from Florida and beyond; create more personalized learning, research and internship opportunities for students; enhance career services; and look for more ways to infuse a global focus into the university.

USF has committed to its global focus through its Quality Enhancement Plan for SACS reaccreditation. USF's QEP is dedicated to developing "global citizens." USF will do this by infusing curriculum across campus with global, cross-cultural perspectives and ensuring every student has an opportunity for a global experience – whether through a technology-enabled global classroom, a study abroad experience, or meaningful interactions with international students and cultures.

Throughout this process, USF is keenly focused on preparing students for the jobs of today and tomorrow. As one example, USF has launched a new focus on cybersecurity – one of the fastest growing fields of our time. USF will offer degrees, graduate certificates and industry certifications in four lucrative cybersecurity focus areas. USF's program was created with a unique level of input from members of the cybersecurity industry and state and local business leaders.

### **2 High-impact research and innovation to change lives, improve health, and foster sustainable development and positive societal change:**

USF not only wants to share knowledge, but create it through high-impact research, scholarship and creative activities. USF will maintain a focus on global research collaborations and interdisciplinary partnerships across the university.

USF has escalated its efforts to attract research-productive new faculty; intensified its encouragement of undergraduate research; supported interdisciplinary initiatives that aim to solve critical problems; provided training to increase external funding; and continued to promote partnerships across the university and within the broader community

USF is currently working to attain status as an Innovation and Prosperity University from the Association of Public and Land Grant Universities – a process that has brought together USF leadership, researchers, government stakeholders and local business leaders. The application process alone has already borne good ideas for collaborating and for translating research into meaningful applications that will have an impact on the world. USF looks forward to continued progress in this process.

### **3 A highly effective, major economic engine, creating new partnerships to build a strong and sustainable future for Florida in the global economy:**

USF seeks to build robust, innovative partnerships -- bridging local and international communities to strengthen the Tampa Bay region and Florida as part of the global landscape. USF is also working to maximize efficiencies and use its resources in the most prudent ways possible. With that focus, USF has begun to implement new budgeting practices that will increase efficiencies and transparency of fiscal affairs across campus, notably including responsibility-centered management.

USF is also working to better market the USF brand to attract more partnerships across the Tampa Bay community with a newly hired marketing director and productive team. In one example, USF has teamed up with the University of Central Florida and Florida International University to leverage each other's strengths as metropolitan universities. The university consortium has already developed several strategies for improving the graduation rates, retention rates, and academic success of their unique metropolitan student populations by sharing knowledge, software and processes. The group has also begun developing a shared database for student internship or job opportunities that may exist in Tampa, Orlando and Miami. This partnership has already reaped shared benefits, with two of four Board of Governors TEAm grants this year awarded to the consortium to help fill workforce gaps in Accounting and Information Technology.

Meanwhile, USF is working to build upon its strong research enterprise, which boasts the most patents of any state university in Florida, by providing the tools and training to innovators on campus so that they are best positioned for success in the marketplace.

## PERFORMANCE FUNDING METRICS

Each university is required to complete the table below, providing their goals for the metrics used in the Performance Based Funding model that the Board of Governors approved at its January 2014 meeting. The Board of Governors will consider the shaded 2014-15 goals for approval.

## PREEMINENT RESEARCH UNIVERSITY FUNDING METRICS

The Board of Governors shall designate each state research university that meets at least 11 of the 12 following academic and research excellence standards as a preeminent state research university. For this year, the University of Florida and Florida State University are the only universities required to complete the table below. The Board of Governors will consider the shaded 2014 actual data for approval.

## KEY PERFORMANCE INDICATORS

The Board of Governors has selected the following Key Performance Indicators from its 2012-2025 System Strategic Plan and from accountability metrics identified by the Florida Legislature. The Key Performance Indicators emphasize three primary areas of focus: **Academic Quality, Operational Efficiency, and Return on Investment**. The indicators address common goals across all universities while also providing flexibility to address institution-specific goals from a list of metrics in the 2012-2025 System Strategic Plan.

The Goals Specific to Research Universities apply only to those universities classified by the Carnegie Foundation for the Advancement of Teaching as being a 'Research University'<sup>1</sup>, which includes Florida A&M University (by university request), Florida Atlantic University, Florida International University, Florida State University, University of Central Florida, University of Florida, and the University of South Florida.

---

<sup>1</sup> The Carnegie Foundation for the Advancement of Teaching has developed a well-respected system of categorizing postsecondary institutions that includes consideration of each doctorate-granting university's research activities – for more information see [link](#).

Notes: This data only represents Fall and Spring financial aid data and is accurate as of March 31, 2014. Please note that small changes to Spring 2013 awards are possible before the data is finalized. **Family Income Groups** are based on the Total Family Income (including untaxed income) as reported on student FAFSA records. **Full-time Students** is a headcount based on at least 24 credit hours during Fall and Spring terms. **Average Gift Aid** includes all grants and scholarships from Federal, State, University and other private sources administered by the Financial Aid Office. Student waivers are also included in the Gift Aid amount. Gift Aid does not include the parental contribution towards EFC. **Net Cost of Attendance** is the actual average of the total Costs of Attendance (which will vary by income group due to the diversity of students living on- & off-campus) *minus* the average Gift Aid amount. **Net Tuition & Fees** is the actual average of the total costs of tuition and fees (which will vary by income group due to the amount of credit hours students are enrolled) *minus* the average Gift Aid amount (see page 16 for list of fees that are included). **Average Loan Amount** includes Federal (Perkins, Stafford, Ford Direct, and PLUS loans) and all private loans. The bottom-line **Average** represents the average of all full-time undergraduate Florida residents (note\*: the total Net Cost of Attendance does not include students with missing family income data). \*Missing\* includes students who did not file a FAFSA.

## FISCAL INFORMATION (continued) TUITION DIFFERENTIAL SUPPLEMENTAL INFORMATION

Provide the following information for the 2013-14 academic year.

2013-2014 - 60% Initiatives (list the initiatives provided in the 2012-13 tuition differential request)	University Update on Each Initiative
Expanding the high-skilled workforce and assuring job placement, especially in STEM.	Expanded professional support for job placement through USF's Career Center/Job Hub; continued Task Force efforts to promote student internships.
Academic Advising and veteran's support.	Enhanced academic advising through the development of an academic tracking system; enhanced monitoring of Academic Advising and Tracking through role of Senior Director in Undergraduate Studies to provide; more intense focus on accelerating time-to-degree through development of 4-year plans. Course redesigns, class scheduling; expanded USF's Veterans' Success program. Improved tracking of students and graduates.
Financial counseling and debt reduction.	The USF Financial Education Program just completed its first year of operation with resounding success. All entering freshmen (4,000+) attended a session on finances at Orientation, 350 students attended group seminars on various subjects, 349 graduating students received in-person guidance on managing loan repayments, and 115 students initiated one-on-one counseling from our Bull2Bull peer educators. We have also focused on marketing this new service via social media, our new website, a newsletter, and the weekly Bull Market.
Additional Detail, where applicable:	
Total Number of Faculty Hired or Retained (funded by tuition differential):	195
Total Number of Advisors Hired or Retained (funded by tuition differential):	67
Total Number of Course Sections Added or Saved (funded by tuition differential):	785
2013-2014 - 40% Initiatives (list the initiatives provided in the 2013-14 tuition differential request)	University Update on Each Initiative
More students supported with financial aid scholarships and reduced loan indebtedness	We increased the number of students receiving need based grants from 7,033 in 12-13 to 8,958 this year, for an increase of 27%.
Provide financial support for talented students with limited income	The total amount of grant aid for students increased by 7% over 2012-13.

## DEFINITIONS

### Performance Based Funding

#### Percent of Bachelor's Graduates Employed Full-time in Florida or Continuing their Education in the U.S. One Year After Graduation

This metric is based on the percentage of a graduating class of bachelor's degree recipients who are employed full-time in Florida or continuing their education somewhere in the United States. Students who do not have valid social security numbers are excluded.  
 Note: Board staff have been in discussions with the Department of Economic Opportunity staff about the possibility of adding non-Florida employment data (from Wage Record Interchange System (WRIS2) to this metric for future evaluation.  
 Sources: State University Database System (SUDS), Florida Education & Training Placement Information Program (FETPIP), National Student Clearinghouse.

#### Median Wages of Bachelor's Graduates Employed Full-time in Florida One Year After Graduation

This metric is based on annualized Unemployment Insurance (UI) wage data from the fourth fiscal quarter after graduation for bachelor's recipients. UI wage data does not include individuals who are self-employed, employed out of state, employed by the military or federal government, those without a valid social security number, or making less than minimum wage.  
 Sources: State University Database System (SUDS), Florida Education & Training Placement Information Program (FETPIP), National Student Clearinghouse.

#### Average Cost per Bachelor's Degree *Instructional costs to the university*

For each of the last four years of data, the annual total undergraduate instructional expenditures were divided by the total fundable student credit hours to create a cost per credit hour for each year. This cost per credit hour was then multiplied by 30 credit hours to derive an average annual cost. The average annual cost for each of the four years was summed to provide an average cost per degree for a baccalaureate degree that requires 120 credit hours.  
 Sources: State University Database System (SUDS), Expenditure Analysis: Report IV (2009-10 through 2012-13).

#### Six Year FTIC Graduation Rate

This metric is based on the percentage of first-time-in-college (FTIC) students who started in the Fall (or summer continuing to Fall) term and had graduated from the same institution within six years. Students of degree programs longer than four years (eg, PharmD) are included in the cohorts. Students who are active duty military are not included in the data.  
 Source: State University Database System (SUDS).

#### Academic Progress Rate *2nd Year Retention with GPA Above 2.0*

This metric is based on the percentage of first-time-in-college (FTIC) students who started in the Fall (or summer continuing to Fall) term and were enrolled full-time in their first semester and were still enrolled in the same institution during the Fall term following their first year with had a grade point average (GPA) of at least 2.0 at the end of their first year (Fall, Spring, Summer).  
 Source: State University Database System (SUDS).

#### University Access Rate *Percent of Undergraduates with a Pell-grant*

This metric is based the number of undergraduates, enrolled during the fall term, who received a Pell-grant during the fall term. Unclassified students, who are not eligible for Pell-grants, were excluded from this metric.  
 Source: State University Database System (SUDS).

#### Bachelor's Degrees Awarded within Programs of Strategic Emphasis *(includes STEM)*

This metric is based on the number of baccalaureate degrees awarded within the programs designated by the Board of Governors as 'Programs of Strategic Emphasis'. A student who has multiple majors in the subset of targeted Classification of Instruction Program codes will be counted twice (i.e., double-majors are included).  
 Source: State University Database System (SUDS).

#### Graduate Degrees Awarded within Programs of Strategic Emphasis *(includes STEM)*

This metric is based on the number of graduate degrees awarded within the programs designated by the Board of Governors as 'Programs of Strategic Emphasis'. A student who has multiple majors in the subset of targeted Classification of Instruction Program codes will be counted twice (i.e., double-majors are included).

**Freshmen in Top 10% of High School Class**

Applies to: NCF

Percent of all degree-seeking, first-time, first-year (freshman) students who had high school class rank within the top 10% of their graduating high school class.

**BOG Choice Metrics**
**Percent of Bachelor's Degrees Without Excess Hours**

This metric is based on the percentage of baccalaureate degrees awarded within 110% of the credit hours required for a degree based on the Board of Governors Academic Program Inventory.

Note: It is important to note that the statutory provisions of the "Excess Hour Surcharge" (1009.286, FS) have been modified several times by the Florida Legislature, resulting in a phased-in approach that has created three different cohorts of students with different requirements. The performance funding metric data is based on the latest statutory requirements that mandates 110% of required hours as the threshold. In accordance with statute, this metric excludes the following types of student credits (ie, accelerated mechanisms, remedial coursework, non-native credit hours that are not used toward the degree, non-native credit hours from failed, incomplete, withdrawn, or repeated courses, credit hours from internship programs, credit hours up to 10 foreign language credit hours for transfer students in Florida, and credit hours earned in military science courses that are part of the Reserve Officers' Training Corps (ROTC) program).

**Number of Faculty Awards**

This metric is based on the number of awards that faculty have earned in the arts, humanities, science, engineering and health fields as reported in the annual 'Top American Research Universities' report. Twenty-three of the most prominent awards are considered, including: Getty Scholars in Residence, Guggenheim Fellows, Howard Hughes Medical Institute Investigators, MacArthur Foundation Fellows, National Endowment for the Humanities (NEH) Fellows, National Medal of Science and National Medal of Technology, Robert Wood Johnson Policy Fellows, Sloan Research Fellows, Woodrow Wilson Fellows, to name a few awards. Source: Center for Measuring University Performance, Annual Report of the Top American Research Universities (TARU).

**National Ranking for Institutional & Program Achievements**

This metric is based on the number of Top 50 university rankings that NCF earned from the following list of publications: US News and World Report, Forbes, Kiplinger, Washington Monthly, Center for Measuring University Performance, Times Higher Education World University Rankings, QS World University Ranking, and the Academic Ranking of World Universities.

**BOT Choice Metrics**
**Percent of R&D Expenditures Funded from External Sources**

FAMU

This metric reports the amount of research expenditures that was funded from federal, private industry and other (non-state and non-institutional) sources.

Source: National Science Foundation annual survey of Higher Education Research and Development (HERD).

**Bachelor's Degrees Awarded to Minorities**

FAU, FGCU, FIU

This metric is the number, or percentage, of baccalaureate degrees granted in an academic year to Non-Hispanic Black and Hispanic students. This metric does not include students classified as Non-Resident Alien or students with a missing race code.

Source: State University Database System (SUDS).

**National Rank Higher than Predicted by the Financial Resources Ranking Based on U.S. and World News**

FSU

This metric is based on the difference between the Financial Resources rank and the overall University rank. U.S. News measures financial resources by using a two-year average spending per student on instruction, research, student services and related educational expenditures - spending on sports, dorms and hospitals doesn't count.

<b>Percentage of Adult Undergraduates Enrolled</b> UWF	<p>This metric is based on the percentage of undergraduates (enrolled during the fall term) who are at least 25 years old at the time of admission. This includes undergraduates who are not degree-seeking, or unclassified. Source: State University Database System (SUDS).</p>
<b>Preeminent Research University Funding Metrics</b>	
<b>Average GPA and SAT Score</b>	<p>An average weighted grade point average of 4.0 or higher and an average SAT score of 1800 or higher for fall semester incoming freshmen, as reported annually in the admissions data that universities submit to the Board of Governors. This data includes registered FTIC (student type='B','E') with an admission action of admitted or provisionally admitted ('A','P','X').</p>
<b>Public University National Ranking</b>	<p>A top-50 ranking on at least two well-known and highly respected national public university rankings, reflecting national preeminence, using most recent rankings. Legislative staff based their initial evaluation on the following list: US News and World Report, Forbes, Kiplinger, Washington Monthly, Center for Measuring University Performance, Times Higher Education World University Rankings, QS World University Ranking, and the Academic Ranking of World Universities.</p>
<b>Freshman Retention Rate</b> (Full-time, FTIC)	<p>Freshman Retention Rate (Full-time, FTIC) as reported annually to the Integrated Postsecondary Education Data System (IPEDS). The retention rates that are reported in the Board's annual Accountability report are preliminary because they are based on student enrollment in their second fall term as reported by the 28th calendar day following the first day of class. When the Board of Governors reports final retention rates to IPEDS in the Spring (usually the first week of April), that data is based on the student enrollment data as reported after the Fall semester has been completed. The preliminary and final retention rates are nearly identical when rounded to the nearest whole number.</p>

<b>6-year Graduation Rate</b> (Full-time, FTIC)	6-year Graduation Rate (Full-time, FTIC) as reported annually to the Integrated Postsecondary Education Data System (IPEDS). The Board of Governors reports the preliminary graduation rates in the annual Accountability report, and 'final' graduation rates to IPEDS in the beginning of February. The final rates are usually the same as the preliminary rates but can be slightly higher (1%-2% points) due to cohort adjustments for specific, and rare, exemptions allowed by IPEDS.
<b>National Academy Memberships</b>	National Academy Memberships held by faculty as reported by the Center for Measuring University Performance in the Top American Research Universities (TARU) annual report.
<b>Total Annual Research Expenditures (\$M)</b> (Science & Engineering only)	Total Science & Engineering Research Expenditures, including federal research expenditures, of \$200 million or more, as reported annually by the National Science Foundation (NSF).
<b>Total Annual Research Expenditures in Diversified Non-Medical Sciences (\$M)</b> (Science & Engineering only)	Total S&E research expenditures in non-medical sciences as reported by the NSF. This removes medical sciences funds (9F & 12F in HERD survey) from the total S&E amount.
<b>National Ranking in S.T.E.M. Research Expenditures</b>	The NSF identifies 8 broad disciplines within Science & Engineering (Computer Science, Engineering, Environmental Science, Life Science, Mathematical Sciences, Physical Sciences, Psychology, Social Sciences). The rankings by discipline are determined by BOG staff using the NSF WebCaspar database.
<b>Patents Awarded</b> (over 3 year period)	Total patents awarded by the United States Patent and Trademark Office (USPTO) for the most recent 3-year period. Due to a year-lag in published reports, Board of Governors staff query the USPTO database with a query that only counts utility patents: "(AN/"University Name" AND ISD/20100101->20131231 AND APT/1)".
<b>Doctoral Degrees Awarded Annually</b>	Doctoral degrees awarded annually, as reported annually in the Board of Governors Accountability Report. Note: per legislative workpapers, this metric does not include Professional degrees.
<b>Number of Post-Doctoral Appointees</b>	The number of Postdoctoral Appointees awarded annually, as reported in the TARU annual report. This data is based on National Science Foundation/National Institutes of Health annual Survey of Graduate Students and Postdoctorates in Science and Engineering (GSS).
<b>Endowment Size (\$M)</b>	This data comes from the National Association of College and University Business Officers (NACUBO) and Commonfund Institute's annual report of Market Value of Endowment Assets - which, due to timing, may release the next fiscal year's data after the Board of Governors Accountability report is published.

## Goals Common to All Universities

### Academic Quality

<b>Avg. SAT Score</b> (for 3 subtests)	An average weighted grade point average of 4.0 or higher and an average SAT score of 1800 or higher for fall semester incoming freshmen, as reported annually in the admissions data that universities submit to the Board of Governors. This data includes registered FTIC (student type='B','E') with an admission action of admitted or provisionally admitted ('A','P','X').
<b>Avg. HS GPA</b>	The average HS GPA for Admitted & Registered FTIC and early admit (B,E) students. Max score is 5.0.
<b>Professional/Licensure Exam First-time Pass Rates</b>	The number of exams with first-time pass rates above and below the national or state average, as reported in the 2012-13 Accountability report, including: Nursing, Law, Medicine (3 subtests), Veterinary, Pharmacy, Dental (2 subtests), Physical Therapy, and Occupational Therapy.

### Operational Efficiency

<b>Freshman Retention Rate</b>	The percentage of a full-time, first-time-in-college (FTIC) undergraduate cohort (entering in fall term or summer continuing to fall) that is still enrolled or has graduated from the <u>same</u> institution in the following fall term as reported in the 2012-13 Accountability report (table 4B) – see <a href="#">link</a> .
<b>FTIC Graduation Rates</b> In 4 years (or less) In 6 years (or less)	As reported in the 2012-13 Accountability report (table 4D), First-time-in-college (FTIC) cohort is defined as undergraduates entering in fall term (or summer continuing to fall) with fewer than 12 hours earned since high school graduation. The rate is the percentage of the initial cohort that has either graduated from or is still enrolled in the <u>same</u> institution by the fourth or sixth academic year. Both full-time and part-time students are used in the calculation. The initial cohort is revised to remove students, who have allowable exclusions as defined by IPEDS, from the cohort.
<b>AA Transfer Graduation Rates</b> In 2 years (or less) In 4 years (or less)	As reported in the 2012-13 Accountability report (table 4E), AA Transfer cohort is defined as undergraduates entering in the fall term (or summer continuing to fall) and having earned an AA degree from an institution in the Florida College System. The rate is the percentage of the initial cohort that has either graduated from or is still enrolled in the <u>same</u> institution by the second or fourth academic year. Both full-time and part-time students are used in the calculation. The initial cohort is revised to remove students, who have allowable exclusions as defined by IPEDS, from the cohort.
<b>Average Time to Degree (for FTIC)</b>	This metric is the number of years between the start date (using date of most recent admission) and the end date (using the last month in the term degree was granted) for a graduating class of first-time, single-major baccalaureates in 120 credit hour programs within a (Summer, Fall, Spring) year.

### Return on Investment

<b>Bachelor's Degrees Awarded</b>	This is a count of baccalaureate degrees awarded as reported in the 2012-13 Accountability Report (table 4G).
<b>Percent of Bachelor's Degrees in STEM</b>	The percentage of baccalaureate degrees that are classified as STEM by the Board of Governors in the SUS program inventory as reported in the 2012-13 Accountability Report (table 4H).
<b>Graduate Degrees Awarded</b>	This is a count of graduate degrees awarded as reported in the 2012-13 Accountability Report (table 5B).
<b>Percent of Graduate Degrees in STEM</b>	The percentage of baccalaureate degrees that are classified as STEM by the Board of Governors in the SUS program inventory as reported in the 2012-13 Accountability Report (table 5C).
<b>Annual Gifts Received (\$M)</b>	As reported in the Council for Aid to Education's Voluntary Support of Education (VSE) survey in the section entitled "Gift Income Summary," this is the sum of the present value of all gifts (including outright and deferred gifts) received for any purpose and from all sources during the fiscal year, excluding pledges and bequests. (There's a deferred gift calculator at <a href="http://www.cae.org/vse">www.cae.org/vse</a> .) The present value of non-cash gifts is defined as the tax deduction to the donor as allowed by the IRS.
<b>Endowment (\$M)</b>	Endowment value at the end of the fiscal year, as reported in the annual NACUBO Endowment Study (changed to the NACUBO-Common Fund Study of Endowments in 2009).

## Goals Specific to Research Universities

### Academic Quality

#### Faculty Awards

Awards include: American Council of Learned Societies (ACLS) Fellows, Beckman Young Investigators, Burroughs Wellcome Fund Career Awards, Cottrell Scholars, Fulbright American Scholars, Getty Scholars in Residence, Guggenheim Fellows, Howard Hughes Medical Institute Investigators, Lasker Medical Research Awards, MacArthur Foundation Fellows, Andrew W. Mellon Foundation Distinguished Achievement Awards, National Endowment for the Humanities (NEH) Fellows, National Humanities Center Fellows, National Institutes of Health (NIH) MERIT, National Medal of Science and National Medal of Technology, NSF CAREER awards (excluding those who are also PECASE winners), Newberry Library Long-term Fellows, Pew Scholars in Biomedicine, Presidential Early Career Awards for Scientists and Engineers (PECASE), Robert Wood Johnson Policy Fellows, Searle Scholars, Sloan Research Fellows, Woodrow Wilson Fellows. As reported by the Top American Research Universities – see [link](#).

#### National Academy Members

The number of National Academy members included in the National Academy of Sciences, National Academy of Engineering, and the Institute of Medicine. As reported by the Top American Research Universities – see [link](#).

#### Number of Post-Doctoral appointees

As submitted to the National Science Foundation Survey of Graduate Students and Postdoctorates in Science & Engineering (also known as the GSS) – see [link](#).

#### Number of Science & Engineering Disciplines nationally ranked in Top 100 for research expenditures

The number of Science & Engineering disciplines the university ranks in the top 100 (for public and private universities) based on the National Science Foundation's annual survey for R&D expenditures, which identifies 8 broad disciplines within Science & Engineering (Computer Science, Engineering, Environmental Science, Life Science, Mathematical Sciences, Physical Sciences, Psychology, and Social Sciences). Historically NSF provided these rankings (see tables 45-61 at [link](#)), but now data must be queried via WebCASPAR – see [link](#).

### Return on Investment

#### Total Research Expenditures (\$M)

Total expenditures for all research activities (including non-science and engineering activities) as reported in the National Science Foundation annual survey of Higher Education Research and Development (HERD).

#### Science & Engineering Research Expenditures in non-medical/health sciences

This metric reports the Science & Engineering total R&D expenditures minus the research expenditures for medical sciences as reported by the National Science Foundation. Historically NSF provided these data (see [link](#), table 36 *minus* table 52), but now data must be queried via WebCASPAR.

#### Percent of R&D Expenditures funded from External Sources

This metric reports the amount of research expenditures that was funded from federal, private industry and other (non-state and non-institutional) sources. Source: National Science Foundation annual survey of Higher Education Research and Development (HERD).

#### Patents Issued

The number of patents issued in the fiscal year as reported in the 2011-12 Accountability Report (table 6A).

#### Licenses/Options Executed

Licenses/options executed in the fiscal year for all technologies as reported in the 2011-12 Accountability Report (table 6A).

#### Licensing Income Received (\$M)

License issue fees, payments under options, annual minimums, running royalties, termination payments, amount of equity received when cashed-in, and software and biological material end-user license fees of \$1,000 or more, but not research funding, patent expense reimbursement, valuation of equity not cashed-in, software and biological material end-user license fees of less than \$1,000, or trademark licensing royalties from university insignia. Data as reported in the 2012-13 Accountability Report (table 6A).

#### Number of Start-up Companies

The number of start-up companies that were dependent upon the licensing of University technology for initiation as reported in the 2012-13 Accountability Report (table 6A).

#### National rank is higher than predicted by Financial Resources Ranking

This metric compares the overall national university ranking to the financial resources rank as reported by the US News and World report.

*based on US News & World Report*

<b>Research Doctoral Degrees Awarded</b>	The number of research doctoral degrees awarded annually as reported in the 2012-13 Accountability Report (table 5B).
<b>Professional Doctoral Degrees Awarded</b>	The number of professional doctoral degrees awarded annually as reported in the 2012-13 Accountability Report (table 5B).

**Student Debt Summary**

**Percent of Bachelor's Recipients with Debt**  
 This is the percentage of bachelor's graduates in a given academic year who entered the university as a first-time-in-college (FTIC) student and who borrowed through any loan programs (institutional, state, Federal Perkins, Federal Stafford Subsidized and unsubsidized, private) that were certified by your institution - excludes parent loans.  
 Source: Common Dataset (H4).

**Average Amount of Debt for Bachelor's who have graduated with debt**  
 This is the average amount of cumulative principal borrowed (from any loan program certified by the institution) for each native, FTIC bachelor's recipient in a given academic year that graduated with debt – see metric definition above. This average does NOT include students who did not enter a loan program that was certified by the institution.  
 Source: Common Dataset (H5).

**Student Loan Cohort Default Rate (3rd Year)**  
 Student loan cohort default rate (CDR) data includes undergraduate and graduate students, and refers to the three federal fiscal year period when the borrower enters repayment and ends on the second fiscal year following the fiscal year in which the borrower entered repayment. Cohort default rates are based on the number of borrowers who enter repayment, not the number and type of loans that enter repayment. A borrower with multiple loans from the same school whose loans enter repayment during the same cohort fiscal year will be included in the formula only once for that cohort fiscal year. Default rate debt includes: Federal Stafford Loans, and Direct Stafford/Ford Loans – for more information see: <http://ifap.ed.gov/DefaultManagement/CDRGuideMaster.html>.

Three Year CDR
