July 5, 1974

Dear Frank;

I think you were right about Pyrrhopappus, and it is listed in the Flora of Tampa Bay Area, so that probably is that milky-sap composit. The white flowered morning-glory has been changed from Calonyction to Ipomea tuba.

I hope this will be of help in your work. Best of luck with the birds, too.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jeffrey M. Carlton".

Jeffrey M. Carlton
