Inventions That Shook the World

From the airplane to the DNA fingerprint, science, history and pop culture come under the spotlight in this thrilling chronicle of the 20th century's greatest inventions. Meet the brilliant minds that created these wonders, including the smartest man on the planet and the high school dropout everyone took for a fool.

And then there were the not-so-great ideas. Whatever happened to the robo dog and the air-conditioned business suit?

Airs Wednesdays at 10 p.m.
beginning January 9

Death in Paradise

Sent to the tiny island in the Caribbean to solve a mysterious murder, Detective Inspector Richard Poole is a fish out of water. Quintessentially British, he prefers the London drizzle and a freshly pressed shirt to blue seas, sparkling sands and gorgeous tropical weather. In this light-hearted detective series, Poole does so well with the case that he's offered a permanent posting on the island. He may be stuck there, but he's not going to let his standards slip. He'll bring British rigor to this relaxed Caribbean workplace and is certain he can make it through his ordeal—if only he could find a decent cup of tea. **Airs Saturdays at 8 p.m., beginning January 12.**
