## **Introduction to the Collection**

The College of Marine Science, a Tampa-based academic unit of the University of South Florida, physically resides on the St. Petersburg campus. Since its beginnings as a Marine Science Institute in the late 1960s, this unit and its mission have grown to occupy an academic department within the College of Natural Sciences, later the College of Arts and Sciences, and as a distinct college within the University. The thirteen photographic prints included in this collect represent images primarily from the early years of the St. Petersburg campus.

## **Preservation Note**

Photographs in this collection reside in an acid-free container. While preservation measures may slow the physical deterioration of such items, these steps cannot prevent damage from occurring. To prevent further damage to the fragile materials in this collection, avoid exposing them to light for an extended period of time. Please report any tears or other damage so that library staff may take appropriate preservation or conservation measures. Protective gloves must be worn when handling all materials. While no restrictions limit access to this collection, patrons using this collection must provide proper citation of sources appearing in their research.

## **Provenance of the College of Marine Science Photograph Collection**

The photographs in this collection fall under Record Group 430 (College of Marine Science) of the USF St. Petersburg Archives, Nelson Poynter Memorial Library. The library received these photographs during plans for the design of an exhibit to commemorate the 40<sup>th</sup> anniversary of the USF St. Petersburg campus.

## **Scope and Contents**

The contents occupy 0.05 linear ft.

## **College of Marine Science Historical Photo Collection**

1. Aerial view of peninsula looking from the southwest
2. Water view of MSL looking from the east
3. Aerial view of the peninsula looking down from the east
4. Aerial view of the peninsula looking down from the east – printed backwards
5. Aerial view of the peninsula looking from the south – 1960s
6. Aerial view of the peninsula looking from the north
7. Aerial view of the city looking from the southeast
8. Water view of MSL looking from the east
9. Marine Science Institute display with student – Late 1960s
10. Aerial view of the peninsula looking down from the west
11. Dr. Tom Hopkins at sea.
12. Aerial view of the peninsula looking from the northwest
13. Dr. Peter R. Betzer in front of displays at the Pier Aquarium
