Dr. Jim Rodgers  
1020 82 St. S.  
Tampa, FL 33619

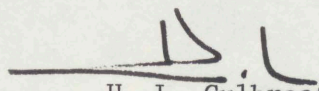

Dear Dr. Rodgers:

We would like to take this opportunity to thank you for participating in Tampa Electric Company's "Symposium on Energy and the Environment" recently held at Bahia Beach. We trust it was as beneficial a learning experience for you as it was for us. It was suggested by a number of participants that such a program should be conducted again in the not-too-distant future to provide you information on the progress of our development plans. In like fashion, your response to us as members of the community gives us an indication of what you feel are important issues.

To enable us to formulate a program which is accurately directed toward your needs, we would appreciate your taking a few moments to complete the enclosed questionnaire. Our consideration of such a questionnaire came only after receiving a number of comments relative to the symposium format and content.

To foster continued interaction, should you at any time find some need for data or information we might possess, please feel free to contact us. Again, we thank you for the time you spent with us and look forward to future opportunities to discuss energy/environment matters. We see the next five years as being extremely interesting and challenging, and believe we must work together in order to achieve our mutual goals.

Very truly yours,

  
H. L. Culbreath  
President
