## Lively Discussions Spark Final Hearing—

# Opposing Views on Constitution Narrowed

### Some Accord Reached

Opposing student and faculty views on the proposed University Constitution were narrowed somewhat in a sometimes stormy hearing Tuesday.

During the open hearing, of the tentative draft of the document, Dr. Glen E. Woolfenden, assistant professor of zoology, asked Student Association Senator Bob Blunt and SA President John Reber, if they were opposed to the proposal of Committee T of the American Association of University Professors.

The AAUP proposal would eliminate student representation in the Senate but would provide a student voice in matters brought before an all-faculty senate by setting up a committee composed of an equal number of students and faculty members.

The tentative draft of the document provides for two student senators.

Blunt and Reber replied in no uncertain terms that until the University Senate becomes a Faculty Senate, they will be opposed to the reduction from five to two student senators in the University Senate. The present University Senate has five student representatives.

THUS, BLUNT and Reber seem to be receptive to the idea of an all-faculty senate which is one of the main proposals of the AAUP.

"If the Constitution Drafting Committee incorporates the proposal of Committee T which provides for an all-faculty senate, into the draft of the constitution, the idea of a student faculty committee will be more acceptable," Reber said.

Dean of Student Affairs, Herbert J. Wunderlich sent a letter to the hearing committee of the Senate Council in which he expressed his desires that "you will look favorably on their (Reber's and Blunt's) proposals. He also praised the conduct of the student Senators during the past year."

THE AAUP has been actively campaigning for an all-faculty senate with students represented through a special committee. The senate is currently organized on an "All-University approach" which local AAUP President Dr. Jesse S. Binford has termed "ineffective."

"Students have a choice," he said, "of being voting members of an ineffective all-university senate or being a liaison between students and an effective faculty senate."

The section of the proposed constitution dealing with membership in the university senate is not the only section for which changes have been suggested.

DR. RICHARD E. DUTTON, assistant professor of management, submitted changes concerning the definition of term "faculty." His chief concern was that directors and deans should be administration or faculty. They cannot be both he said.

Dr. Hermann Stelzner, assistant professor of speech, charged that Article V Section I, which concerns senate action to override a presidential veto, is an

### Upper Level Gets Priority

## Enrollment Tightened To Forestall Fall Crush

USF will start giving priority tomorrow for admission to junior college graduates and others who have completed two or more years of college.

This action is being taken in light of anticipated record enrollment of around 8,000. Freshmen not already accepted may still apply but will have a lower priority.

PRES. JOHN S. ALLEN said the interim policy is necessary because the university will not have sufficient faculty or facilities for all students seeking admission.

Emergency housing is being provided on campus to increase beds from 1,867 to 2,027 and off-campus housing is being sought. Adjustments have been made in class scheduling.

"Now we are being forced to give enrollment priority to those students who have already made a successful start in their higher education," President Allen said.

DR. FRANK H. SPAIN, registrar, suggested that freshmen or sophomore students, not already accepted, or continuing, consider enrolling in a junior college or deferring application to USF until the January term. Applications are running around 100 per cent over the same time last year when about 1,900 had applied and 1,141 had been accepted. Nearly 2,500 new students have been accepted to date and there are expected to be around 3,500 new students among the 8,000 fall total.

NEW RESIDENCE halls will (Continued on Page 17, Col. 4)

### Bottcher Resigns Judgeship

John C. Bottcher, chief justice of the Board of Discipline and Appeals of the Student Association, resigned his post last Monday.

In a letter to John Reber, SA president, Bottcher said that he had earned "X" grades in three courses during Trimester II, which put his grade point ratio below the 2.000 required for holding an office in the SA.

An "X" grade is averaged as an "F" by the registrar's office until the student completes the necessary course work the next trimester. Then the proper grade is inserted to replace the "X" grade.

"I realize the Constitution has no specifications regarding 'X' grades," he wrote. He pointed out that the intention of the Constitution in having qualifications for holding an office is to insure that a student's primary aim is academic performance. When a student's record shows a deficiency in academic performance, he should not be allowed to continue in a student government office, he said.

Bottcher also stated that "because of studies, work and personal life, I am resigning from the office of chief justice." (Continued on Page 17, Col. 6)

### Blassingame At Meet the Author

What would you study in college, if you wanted to be a writer?

This is the topic for discussion by Wyatt Blassingame, well-known author, at the first of the summer trimester "Meet the Author" series at 1:25 p.m. Wednesday in UC 252.

Of his craft Blassingame writes, "You can take certain courses and if you pass them come out a doctor or lawyer, but there are no courses that give you a degree in writing."

In 1959, Blassingame won the Benjamin Franklin Award for the best short story of the year, "Man's Courage," published in Harper's. He has contributed about 600 stories and articles to national magazines, some of which have been reprinted in anthologies and textbooks both here and abroad.

A resident of Anna Maria, Blassingame was born in Demopolis, Ala. He attended Howard College and received his AB degree from the University of Alabama. In 1951-52, he

did graduate work at New York University.

His career includes employment as a reporter for the Montgomery Advertiser and instructor at Florida Southern College in Lakeland. He is now a full-time writer.

Some of his publications include: "For Better, For Worse," "Live from the Devil," "The Golden Geyser," "Halo of Spears," "The French Foreign Legion" and "Out Island Doctor."

Soon to be released are "First Book of Florida," "Frontier Doctors" and "The Navy's Frogmen in World War II."

Presently, Blassingame is working on a history of naval aviation in World War II for junior and senior high school readers.

Writing about Florida, Blassingame says, "The one good thing about writing for a living is you can work whenever you wish."

For 26 years I have lived (most of the time) on Anna Maria, an island joined to the Florida mainland by a bridge. It is a fine place for fishing, swimming and walking on the beach."

## USF May Not Get Share Of Big State Fund Hike

USF apparently is not in line for additional building money in the proposed legislative increase of construction funds for the biennium from \$71.2 million to \$80 million.

This university has been allocated \$6,514,000 under the Board of Regents priority list and reports from Tallahassee do not show any immediate increase from the general construction money rise almost assured of passage.

THE \$71.2 million in construction money previously recommended by the state cabinet, in-

cluded a \$50 million bond issue—financed by utility taxes—and \$21.2 million in surplus funds from utilities tax income under a 1963 amendment.

The proposed \$80 million passed unanimously by the senate would include a \$75 million bond issue and \$5 million from the \$21.2 million surplus.

OF THE \$8 million net increase, junior colleges would get half. The state universities would have received \$37.8 million but under the increase this would amount to \$43 million. The Board of Regents' re-

vised priority list would provide additional funds to University of Florida, FSU, University of West Florida and Orlando, less for Florida Atlantic and no change for USF and A&M.

The total would be UF, \$8,697,000; FSU, \$6,671,300; A&M, \$2,664,000; USF, \$6,514,000; FAU, \$3,862,500 from \$6,382,500; West Florida at Pensacola, \$6,650,000, and East Central Florida at Orlando, \$8,696,000.

USF buildings included are a science center, \$2,500,000; basic studies classrooms in Andros area, \$326,400; social science building, \$2 million; UC addition including infirmary, \$750,000 and utilities, \$927,000.

This is in addition to funds currently on hand to begin construction soon on engineering buildings, business administration, education and physical education building and Andros dormitories with core unit.

### Registration Deadline Today For P.E. Tests

Registration deadline is today for physical education proficiency examinations to be given this week and next. These examinations are for Trimester III-A.

The swimming test will be from 3:30 to 5 p.m. on Tuesday and Wednesday of this week at the university pool. Students will register at the pool and must present student I.D. at the time.

Other proficiencies, such as archery, basketball, bowling and others, will be given on May 11 and 12 at FH 144 from 3:30 until 5:00.

For these proficiencies students must register in the Physical Education office (RA 156).

## Original Poetry Program Thursday

The Tampa Poetry Association, an affiliate of the Academy of American Poets, will present an evening of original and contemporary poetry readings Thursday at 8:30 in FH 101.

Coffee will be served during the intermission.

The program is sponsored by the USF Speech Department Reader's Theatre Council, under the direction of council president, Leroy Zemke. It will feature 10 readers with Dr. Edgar Hirschberg, professor of English at USF as moderator for the evening.

Those reading original works will be Jane Becker, USF student and published poet; Jerry H. Burns, editor and publisher of "The Goliards," a quarterly magazine containing contemporary poetry and art; Dr. Hans Juergensen, USF professor of

humanities and an art critic for the Tampa Times, and Mrs. Ilse Juergensen, both published poets; Kathy Manetta, USF student; M. J. O'Brien, published poet and associate editor to "The Goliards."

Shirley Adams, owner of the Page One Book Shop in Tampa will read selections from haiku. Dramatic readings from "The Goliards" will be given by Jerry Peeler and USF student Alan Bates.

Jerry H. Burns and Dr. Hans Juergensen co-direct the Tampa Poetry Association, which holds workshops at 2:30 p.m. the first Saturday of every month at the Page One Book Shop, 434 W. Kennedy Boulevard. In addition, poetry readings by members are held the last Friday of every month at 8 p.m.

All readings are free and open to the public.

## USF Medical College Bill Now in State Legislature

Legislative action to create the long-considered USF medical college is under way.

A bill to establish the medical school has been introduced in the Florida legislature by Tampa Sen. Tom Whitaker.

The bill does not provide for any appropriation but provides that grants and gifts could be accepted.

A FEASIBILITY survey for the proposed college was to start this summer with some \$60,000, half already contributed by Tampa sources and half the Board of Regents expected from legislative appropriation.

It was not immediately known whether the remainder of survey funds needed would come from another bill, or from other sources.

Hillsborough Rep. Woody Liles said recently that prospects are good for a \$2.2 million appropriation for a mental hospital in the Tampa Bay area.

THE EXACT location is not specified but Liles and others are said to favor its location

in the proposed USF-VA medical complex.

The medical school has been proposed for the western portion of the campus along 30th St. It would be needed by 1970-1972 to meet increased needs for medical personnel, President John S. Allen has said.

The Veterans Administration plans a \$16 million hospital nearby.

SEN. WHITAKER'S bill provides that:

"The board of regents are hereby expressly authorized and directed to commence immediately the planning of a school of medicine and nursing upon receipt of any funds which might accrue for that purpose."

"The board is further authorized to procure and accept any federal funds which may be available for planning, creation and establishing (of) a school of medicine and nursing."

NO IMMEDIATE action is expected on the bill. September, 1965 has been set as the time for the architect and engineering bids to be sub-

mitted for the Veterans Administration hospital proposed for construction adjacent to the USF campus.

Funds for designing and planning the 720-bed facility have been appropriated in the fiscal 1966 VA budget. If architect-engineering contracts are awarded this year, funds for construction will presumably be in the fiscal 1967 budget.

Night people . . . Who works on campus after everybody leaves ..... p. 17.

### Dance Is Saturday

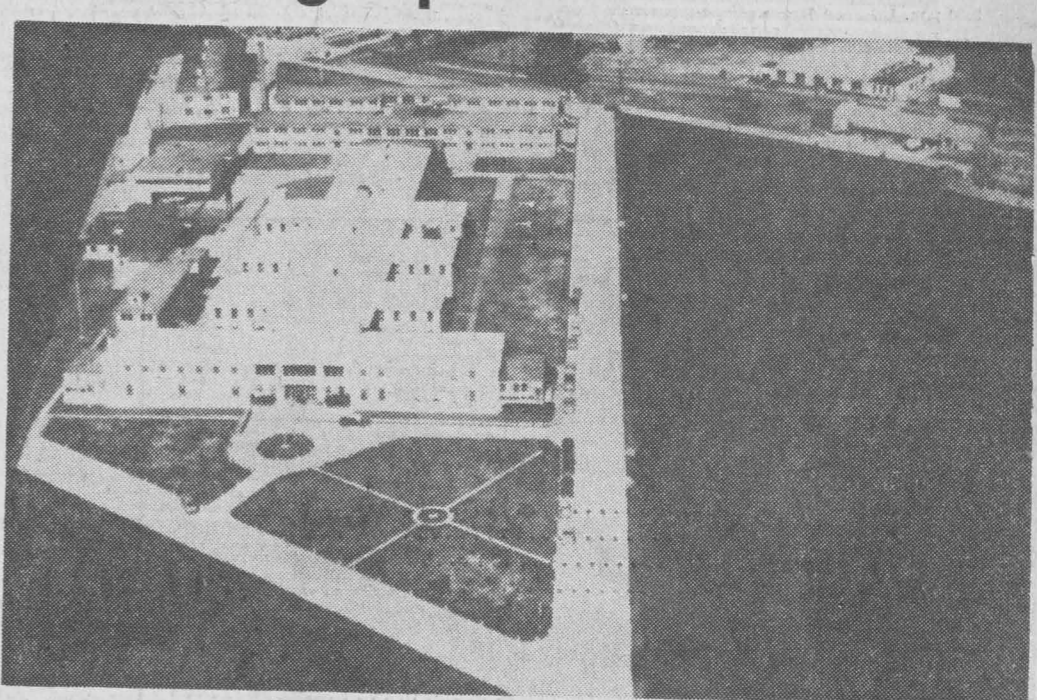

A band dance will in the University Center Ballroom Saturday, May 8, from 9 to 12 p.m. Dress for the dance will be school clothes and admission will be 50 cents per person.

## Regents May Amplify Plans For Oceanographic Center

The Board of Regents may amplify plans for a possible oceanographic center and branch campus at the former Maritime Base in St. Petersburg during its meeting in Tallahassee today.

Recent press reports indicate that the regents were planning to acquire the site at Bayboro Harbor for oceanographic education and for upper division and graduate courses, as a branch of USF. The base currently is being used for off-campus courses conducted through the Florida Institute for Continuing University Studies (FICUS). That agency reportedly will be abolished by legislative action shortly and its director, Dr. Myron Blee, is said to be considering an important post in Washington.

The Campus Edition learned through a Tallahassee source that if the St. Petersburg property is acquired, it might be in the name of USF but that its operation would be cooperatively among the

## Editorials

## Bottcher Put on Spot

It is with regret that we note the resignation of Chief Justice John Bottcher as Chief Justice of the Board of Discipline and Appeals.

His service to the Board and to the Student Association has been long and diligent. Former SA President Bob Ashford credited him with writing over half of the SA constitution which was ratified last trimester.

The facts behind his resignation, however, point up another loophole in the SA constitution. No provision is made on how "X" grades are to be evaluated in the qualifications to hold an office in the SA. It states simply that "An officer shall earn at least a 2.00 grade point average in each trimester of his term."

When a student receives an "X" grade the registrar computes it as an "F". But when the student completes the required work the "F" is removed (often early in the next trimester) and the proper grade is inserted.

The "F" grade is a temporary thing and there could be some question over the validity of this for use as a determining factor in the qualifications to hold office.

Bottcher, in his letter of resignation, has said, "... when a student's record shows that he is deficient in his academic performance he should not be allowed to continue in a student government office. An "X" grade is an indication of a failure to meet the requirements of a class."

We agree with him though we feel that his resignation is a distinct loss to the SA.

But Bottcher has been placed in the ticklish position of having to interpret the constitution to decide his own eligibility to hold his office.

Even though the constitution is comparatively new it is not too soon to be thinking about constitutional revision. Bottcher's replacement will have to fill a big pair of shoes — but he should never have to decide his own qualification to continue to hold an office.

## Make Elevator Safer

It has long been known that the health center is not ideally situated. Being on the fourth floor of the University Center makes it rather inaccessible, especially at night when the UC is locked up.

The elevator has been the primary means for getting to and from the center but this elevator is not one hundred per cent reliable. In fact, just recently the elevator stuck between floors just after the doctors had left it.

What would happen if someone was trapped in the elevator and it caught fire? Presumably, a special key could be used to open the doors and remove the passengers.

But investigation has revealed that there is only one elevator key in the entire building and it is located in the basement.

Duane Lake, director of the University Center, told the Cam-

pus Edition that it is not necessary to use the key; that "any flat piece of metal or a screwdriver will work."

We feel that the elevator is fraught with enough danger already in being relied on for quick transportation to the Health Center without having to run the risk of being trapped inside and no one knowing how to open the doors and having to wait for the key to be brought up from the basement.

A solution to the problem is needed now before there is a tragedy. One idea is to have keys on each floor. These could be kept in special compartments that would be sealed but easily broken in the event of an emergency.

Whatever solution is best should be put into effect as soon as possible. Let's not shut the gate after the horse gets out—or is killed.

## Individualism Came in a VW

(ACP) — "Individualism" came to K-State, fittingly perhaps, riding in a Volkswagen bus, reports KANSAS STATE COLLEGIAN, Kansas State University, Manhattan, Kan.

Larc Abel Smith is a sinister-looking individual with black beard spread under his chin like a fan and a touch of Auburn in his handlebar moustache.

SMITH AND HIS bus materialized a little before noon in the front row of the Union parking lot. Across the back of the bus, in thin, square letters, was labeled: "Independent." On the side was "Individualism."

Smith, from Brecksville, Ohio, spoke to many persons. Some listened intently. Some snickered behind their hands. Some walked around the bus and read his preachings, poorly typed and taped to the windows. Still others asked articulate questions of him and received articulate answers.

HE HANDED out his literature. He sold some of it for two cents a handful. He explained it would help cover the cost of producing it.

Someone asked: "How can you advocate individualism when you support segregation, which restricts an individual's freedom?"

He explained that to integrate is to give something to someone. It is a gift. It is not earned. Thus the gift obligates the recipient, and a person cannot be an individual if he is to be obligated.

HE SAID women are a detriment and a drain on man and they should be made to pay for half of everything.

About 5 p.m. the campus police came and told him to leave. He did not have a permit to peddle. And, of course, no student parking sticker.

The bus disappeared into the glare of the afternoon sun, taking forth Larc Abel Smith, to spread the word with a four-speed transmission.

## Quotables...

"Someone's always telling us what to do during the 'Free Hour'."—Dr. William Morris, USF.

There are three faithful friends—an old wife, an old dog, and ready money.

—Benjamin Franklin (1738)

—Samuel Johnson (1775)

## WUSF: Its Value As an Educational Tool

By ROBERT FAUST  
of the Campus Staff

The band strikes up a hearty version of "Stars and Stripes Forever." Presently, the music fades and a voice begins. "Good afternoon, welcome to another broadcast day on WUSF-FM, the educational radio voice of the USF. The time is 2 p.m., stay tuned for the news."

With this announcement, many people begin working; others sit back and relax for a few precious minutes. WUSF's News Department can rest as the Sign-on edition has already been compiled and the 5:45 news is still a long way off.

THE OTHERS on the radio staff are beginning to roll into action however. Stacks of record albums must be poured through as the music programmers choose numbers to be used during that day. People producing shows or spot announcements have already been working for several hours, preparing for the evening broadcasts.

The afternoon moves along and so do the various station personnel. As two or three news writers leave for class or home, several others arrive to replace them. The announcers relieve each other as their shifts in the control room end.

WUSF HAS 19 part time staff members who work during the station's forty hours of broadcasting each week. Some are paid as student assistants. Some want only the experience. Others simply enjoy the work. All agree that the business of operating a radio station is a hectic one.

Being an educational service, WUSF differs greatly from most FM stations which program nearly all music. While musical shows take up a portion of the local station's airtime, they are mixed with a wide variety of discussion, interview, and public service programs.

THE UNIVERSITY of Florida and Florida State have an exchange program with WUSF, supplying taped shows produced in their respective studios.

WUSF Radio Coordinator William

## Testing... 1, 2, 3...

Radio Coordinator, William Brady, checks out the master control in the WUSF studios. Brady speaks of educational radio as "a supplementary area" to classroom teaching and educational TV.—(USF Photo)

Brady said, "The value lies in its uniqueness as a medium. It has the advantage of immediacy, timeliness, flexibility, and the fact that it calls upon the inner resources of the person listening to use his inner resources. Today, children have forgotten how to imagine and paint pictures with their minds. By doing this, they have lost something of the involvement. Its best use lies in the field of appreciation and enriching areas of education, such as music, language, litera-

ture and drama, and public affairs"

ON THE FUTURE of the medium Brady said "I think it will continue to be largely in a supplementary area because much direct teaching outside the classroom can be better done by educational television. It (radio) fills the gap between the give-and-take classroom instruction and the more sophisticated, modern approach of TV. A great deal depends on how much attention is given to educa-

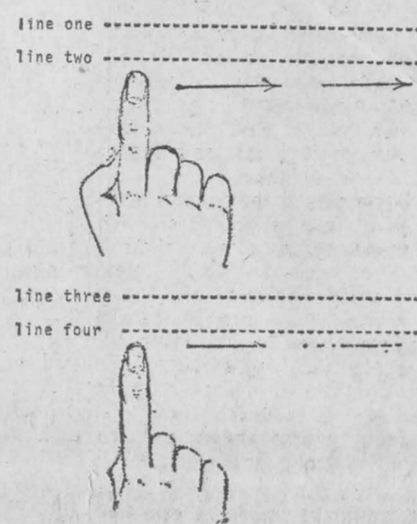

tional radio. Most of the money given to educational broadcasting has been to television because it takes more.

"Some people say radio is limited because it deals with only one sense, hearing. Certainly this is true but I like to quote Archibald MacLeish who said, 'The human ear is already half poet.'"

In conclusion, Brady added, "Educational radio makes no claim to replace the classroom teacher or ETV. It is an effective supplementary area, however."

## USF Courses Can Prove Helpful

## Read With Speed? It Can Be Done!

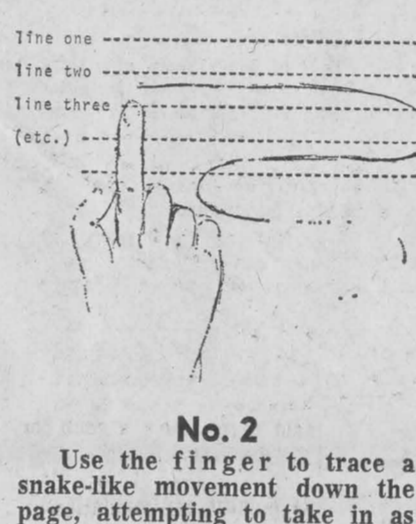

There are three basic hand movements to be followed in speed reading.

No. 1  
Use the finger to follow words, taking in two lines at a time.

How fast can you read? Can you read 4,000 or 5,000 words per minute with good comprehension? Well, if you can't, don't feel too bad. Perhaps you have the potential to read this well, you just need some development.

Dr. William Garrett, USF professor and authority on rapid reading, says that the rapid reading course offered at USF can, in some cases, increase speed and comprehension three, four, or even five times above the present rate. The course

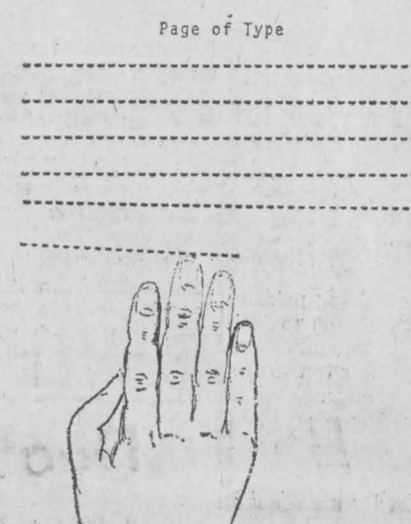

No. 2  
Use the finger to trace a snake-like movement down the page, attempting to take in as many as three or four lines.

is geared to the normal reader, not to the above average or below average reader.

The principle of the course is to make the reader concentrate on the material he is reading, and to eliminate, to some degree, the tendency to pronounce or mentally shape the words being read.

Then he reads the material again at his regular rate. He then feels that his regular rate is quite leisurely, and so he finds that he can increase his rate of reading with a minimum of difficulty.

Dr. Albert Scroggins, USF journalism chairman, points out that most students can increase their rate of reading if they will come into the course with a serious

No. 3  
Position hand in middle of page and let eyes follow hand down the page. This eliminates pauses which slow usual reading.

desire to get something out of the course, and not take the attitude that rapid reading is a crap course.

Dr. Robert Zetler of the Language-Literature Department, who reads at the rate of about 15,000 words per minute with good comprehension, says that, in the past, there has been a great deal of interest in this course.

Dr. Zetler also feels that the rapid reading course can be of great value to students; in most cases, the students will find that their rates and comprehension of the material have improved.

## Pope's 'Journal' Inspiring

Review of the book "Journal of A Soul" by Pope John XXIII, translation by Dorothy White, (New York: McGraw-Hill Book Co., 1965.) \$7.95; thirty-six illustrations.

By GRETA KMARIE DIXON  
Campus Book Critic

Pope John XXIII kept what he referred to as his "Journal of a Soul" from the age of fourteen until his death at the age of 82. During these years he would jot down thoughts in school exercise books, on odd pieces of paper and in out-of-date diaries. Since he was born poor he could afford little else in the early years of his life, but it is from that humble background that his triumphant work emanates.

In granting permission to publish these writings Pope John confided in his private secretary that "my soul is in these pages." In his "Journal of a Soul," the late Pope John reveals his deepest thoughts from adolescence to the last year of an inspired pontificate. It is a work that reveals the earliest foundations and full growth of this man's great mind and great spirit from the days when he was known as Angelo Giuseppe Roncalli to the days when he became known as the "good Pope John."

"Journal of a Soul" vividly recreates the life of an extraordinary person, a man who held one of the most exalted positions among men, yet was capable of blending the required diplomatic grace with the simplicity of a peasant; concern and friendliness for the poor and weak with their daily problems with a deep understanding of contemporary world politics and international relations, and an intense guardianship

over his Catholic children with a burning desire for the ultimate union of all creeds.

Pope John's own story gives an intimate view of his greatness of mind, heart and soul.

It is a fitting spiritual autobiography of a beloved humanitarian, a Pope who astonished the world by his dynamism.

It is an inspiring story told with candor and deep insight — the story of a man whose devotion to God, his Church and his people led him, as one author states, "from the poor fields on an isolated farm to the glory of the Throne of Peter."

Within these three hundred and more pages we see a Vicar of Christ emerge with simple and persistent holiness, reign for the shortest term of any Pope for over a century (four and one-half years), yet make an impact upon society which cannot yet be measured in our century.

Dixon

## Honorary Music Club Forming

A national honorary music sorority is being reorganized at USF. The name of the local chapter in "Syrinx" and will be affiliated with Sigma Alpha Iota national sorority.

Membership is open to girls who are music majors or carrying five hours or more of music courses. A 2.25 grade point average is required.

Those girls interested in instrumental or vocal music and meet the qualifications are urged to contact Joy DeBartolo in RG 442.

Officers are Joy DeBartolo, president; Mary Adams, vice president; Norma Springer, secretary, and Kathy Fink, treasurer.

## Quotables...

To live is like to love—all reason is against it, and all healthy instinct for it.

—Samuel Butler,  
Note-Books (c. 1890)

It is not how long but how well we live.

—John Ray,  
English Proverbs (1670)

While we live, let us live. (Dum vivimus, vivamus.)

—Medieval Latin proverb.

# Real Stampede Staged for Show

By HAROLD HEFFERNAN  
North American Newspaper Alliance

HOLLYWOOD, May 3 (NANA) — When he first called Lorne Greene a few weeks ago about doing a TV special based on the Old West, producer George Schlatter was so excited he came on the line with a brainstorm. Like this:

"We'll get ourselves a ghost town, a couple of hundred head of Texas Longhorn cattle, stampede 'em through the place and have you ride out on Dunnie Waggoner (Lorne's horse) singing a song from your latest album."

Greene laughed, asked Schlatter who he'd signed to

write the location musical and hung up.

When it came time to tape the color special, which airs tonight over NBC-TV as "Lorne Greene's American West," Greene discovered to his horror that Schlatter had arranged for the following:

One ghost town, Corriganville, in an authentic-looking state of disrepair.

One hundred and fifteen Texas Longhorn cattle with an average weight of 1800 pounds.

Twenty wranglers to oversee a stampede, with blank pistols to start the cattle moving.

And a song from Lorne's latest album, "The Man," which is suitable for singing in front of a rampaging herd.

Greene, a trifle frightened, told the producer that if he got the shot "it would be over his dead body," and departed for his dressing room to give Schlatter enough time to come to his senses.

They compromised 45 minutes later: Greene wouldn't have to sing.

The scene was scheduled for 2 o'clock and Schlatter sent the wranglers out to round up the cattle. Unfortunately, at lunch time it began to rain and didn't stop for 11 days. At one point the crew decided to rename the show "Lorne Greene's American Wet."

"I told George he'd better get a few of the guys to work on an ark," said Greene. "The great producer in the sky was, in all likelihood, looking out for my well being."

During those rainy days — the most protracted Hollywood has known in several decades — 115 pound horn cattle ate 20,000 pounds of hay brought in fresh by chartered hay wagons and drank in excess of 30,000 gallons of water moved in by the production company. Finally, 11 days behind schedule, Lorne drove his horses down the main street of cold Corriganville at the head of the parade.

"And now I find out the scene lasts less than two minutes on the show," he shrugged. "To me it was enough to last a life time!"

## Soggy Dikes Holding

By The Associated Press  
Soggy dikes held back the powerful thrust of the swollen Mississippi river in the Hannibal, Mo.-Quincy, Ill., area today as residents of other communities up and down the river waited for the worst spring flood in history to run its course.

"A flood of this magnitude is calculated to occur only once in 100 years," the Interior Department reported, confirming that the flood was the biggest on record.

THE FLOOD, which began in Minnesota, parts of North Dakota and Wisconsin during March when snow began to melt, has taken 14 lives and caused \$150 million damage in five states.

In the Hannibal-Quincy area, the river is on the rise again toward a predicted crest tomorrow.

Only 23 families have been evacuated from low-lying areas in Hannibal. About 100 persons have fled their homes in Quincy.

HANNIBAL HAS no levee protecting its population of 20,000. But the water had begun falling in a 15-block industrial area which has been flooded for about a week and most of the streets are passable.

A broken levee Saturday night five miles south of Quincy, a city of 45,000, took some of the pressure off the Hannibal area.

After the levee break, floodwaters ran 15 feet deep across 7,700 acres of farmland. It increased the amount of land under water in Adams County, Ill., to 25,000 acres. More than 20,000 acres were covered upstream in Henderson County, 70 miles to the north.

WHEN THE levee broke, the river began receding.

The Mississippi dropped Saturday night at Quincy from Wednesday's record high of 24.8 feet to 23.5 feet. The high in Hannibal was 24.6 Friday, but it fell to 23.6 early yesterday.

The river began rising again, however, yesterday and the U.S. Weather Bureau predicted a crest for tomorrow of 24.7 feet in Quincy and 24.5 feet in Hannibal.

The Mississippi has been over flood stage—which is 15 feet—since April 6.

UPRIVER FROM the Quincy-Hannibal area, several small towns were hammered by the floods.

Officials feared that battered levees would not hold in the Illinois towns of Keithsburg, with 963 residents, and in Hull, population 535. Most of Hull's residents have been evacuated. Gulfport, Ill., was marked only by the peaks of roofs and treetops. The 250 residents fled two weeks ago.

### Musical Notes

Fran Foran, vocalist, and Dr. Noel Stevens on the saxophone jazz up a rehearsal group of the University of Tampa's Spartan dance band for the Festival of Jazz the Newman Club will present tomorrow at 8 p.m. at the Falk Theater. The event is to benefit the college library fund. Dr. Stevens, chairman of the Department of Music, is the director of the new dance band. The Tonics, Phil Provane Quintet and other groups from the area will take part in the musical fiesta.

## News of Servicemen

Paul R. Sullivan, son of Mrs. William L. Pelham, 2708 Grandfield Ave., Plant City, has been MORGANITE promoted to sergeant in the U.S. Air Force at Patrick AFB. He is a safety superintendent.

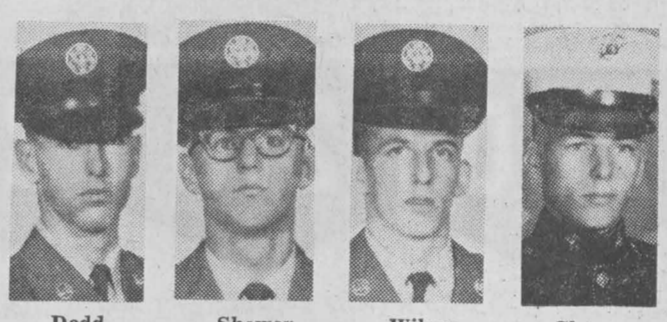

Four Tampan have received new assignments in U.S. Air Force job specialties after basic military training at Lackland AFB, Tex. They are:

Airman Terry A. Hinton, son of Mr. and Mrs. Samuel O. Hinton, 9706 Mary Ave., to training course for administrative specialists at Amarillo AFB, Texas.

Airman Robert A. Dodd, son of Mr. and Mrs. Robert A. Dodd, 207 S. Fielding St., to training for administrative specialist at Baudette Air Force Sta., Minn.

Airman Kenneth W. Shower, son of Mr. and Mrs. Dwight W. Shower Jr., 3922 Fontainebleau, to Bunker Hill AFB, Ind., for transportation specialist training. He attended Chamberlain High School.

Airman Ronnell L. Wilson, son of Mr. and Mrs. Woodrow

C. Wilson, 8309 Greenwood Ave., will study for aircraft equipment repairman at Chanute AFB, Ill.

Marine Private Daniel R. Smith, son of Mr. and Mrs. Hubie R. Smith, 1412 138th St., recently completed individual combat training with the First Infantry Training Regiment, Marine Corps Base, Camp Lejeune, N.C.

Airman 3.C. James D. Stroud, son of Mr. and Mrs. J. F. Stroud, 2907 Averill Ave., graduated recently from a training course for U.S. Air Force chaplain assistants at Amarillo AFB, Tex. He is assigned to an Air Training Command unit at Moody AFB, Ga. He is a graduate of Robinson High School and attended St. Petersburg Junior College.

Airman 2.C. Richard H. Johnson, son of Mr. and Mrs. Jack G. Parry, 712 N. A St., graduated with honors from a course

for electronic warfare specialists at Seymour Johnson AFB, N.C. He is a graduate of H. B. Plant High School.

First Lt. Robert F. Coady, son of Ralph F. Coady, 2903 Bay View, has graduated from U.S. Air Force pilot instructor course at Randolph AFB, Tex. He is assigned to an ATC unit at Vance AFB, Okla. He is a graduate of Plant High School and received the B. S. degree from Louisiana State University.

Marine Pvt. Craig E. Charon, son of Mr. and Mrs. Carlisle E. Charon, 4505 Eden Rock Rd., graduated in April from Marine recruit training at Parris Island, S.C., and promoted. He is assigned to Camp Lejeune, N.C. for advanced infantry combat training.

Army 2d Lt. Lamar B. Logan, son of Mr. and Mrs. William W. Logan Jr. 453 Marmora Ave., qualified as expert in firing the M-14 rifle at Ft. Hood, Tex. He is a Plant High graduate and received the B. S. degree from The Citadel in 1963. He is a communications officer.

Gerald F. Erlich, son of Mrs. Lawrence F. DeMola, 3906 Bay Vista, has been promoted to senior master sergeant in the U.S. Air Force at Hickam AFB, Hawaii. He is a communications center superintendent at Hickam's Pacific Communications headquarters.

Staff Sgt. Vincent A. Parise, son of Mr. and Mrs. James J. Parise, 3504 Ballant Point Blvd., has been graduated as a dental laboratory technician at Gunter AFB, Ala. He is assigned to the Strategic Air Command's Mountain Home AFB, Idaho.

Pvt. Fred C. Wiggins, son of Mr. and Mrs. Clifton H. Wiggins, Riverview, completed advanced training as cannoneer at Army Artillery and Missile Center, Ft. Sill, Okla., in April. He was graduated from East Bay High School in 1961 and was employed by the Tampa Tribune-Times.

Airman William A. Porter, son of Mr. and Mrs. Robert G. Porter, 914 W. Orient, graduated from the Aviation Anti-Submarine Warfare course at Naval Air Technical Training Center, Memphis, Tenn.

Airman 2.C. Tommy E. Green, son of Mr. and Mrs. Jacob G. Green, Lithia, and Airman 3.C. Larry G. Smith, son of Mr. and Mrs. Charles W. Smith, Riverview, will be participating with U.S. Air Force Tactical Air Command forces in exercise Silver Hand at Ft. Hood, Tex., through May 15. Green is a pavements maintenance specialist. Smith is an air policeman.

Staff Sgt. William D. Lankford Jr., 2904 San Miguel St., completed a recruiting and career counseling course at Army Adjutant General School, Ft. Benjamin Harrison, Ind., April 23. He is a graduate of Jesuit High School and attended The Citadel.

## WELL ON THE WAY

By KEYES BEECH  
Chicago Daily News

JAKARTA, Indonesia, May 3 — Is Indonesia "going Communist?"

This reporter's answer is a flat, unequivocal yes. To a very large degree — perhaps three quarters of the distance — it has gone.

What makes the reality so difficult for the average American to grasp is the wildly improbable setting. For Indonesia is the world's largest island state — a land of violent contrasts inhabited by man-eating tigers, giant white ants, huge pythons, frightening lizards and more than 100,000,000 Indonesians.

An island chain made up of more than 3,000 links, it's as long as the United States is wide. It extends all the way from Malaysia in southeast Asia almost to the northern tip of Australia.

There is something about the place — perhaps it's the ripe, full-breasted girls who smilingly hand you your daily bundle of Communist propaganda — that says it can't happen here.

Yet it has happened here. It is communism in a sarong with a flower in its hair and a smile on its lips. But it's still communism.

Indonesians are an artistic people. But today their chief art form is billboards. Heroic "freedom fighters," black, brown and yellow but never white, glare menacingly down from billboards to intimidate Americans.

There is nothing new about the billboards. They have been there for years. But they seem to have reached new heights of viciousness especially since President Sukarno stepped up his anti-American campaign six months ago.

Perhaps the most frightening thing about this sweaty capital of more than 2,000,000 people is the totality of thought control. In large measure this is true of the rest of Java where nearly two-thirds of the Indonesian people live on 6 per cent of its land area.

Trying to communicate with the average Indonesian, except on personal terms, is like trying to talk to a man from another planet. This is especially true of Indonesian students, at least the half dozen with whom I talked.

They know that the United States recently granted their "enemy" Malaysia a \$4,000,000 loan to purchase military equipment. But they don't know that the United States has given far greater quantities of military hardware, including 10 troop-carrying aircraft, to Indonesia. Nor have they any knowledge of \$700,000,000 worth of U.S. economic aid. Or America's role in helping Indonesia get independence from the Dutch. Or of the U.S. role in forcing the Dutch to surrender West New Guinea to Sukarno.

Academic freedom, like every other freedom in Indonesia, has been systematically stamped out. Sukarno sounded its death knell last year when he invited Indonesian students to "sit in

judgment" on their professors. About 2,500 of those professors were educated in America at U.S. expense. Which perhaps accounts for Sukarno's invitation to the students to spy on their teachers.

Once well-informed older Indonesians are appallingly ignorant of what's going on in the outside world. The ban on Western books and magazines, except for the most innocuous, is complete.

What little news educated Indonesians do get is from Radio Malaysia, Radio Australia or the

British Broadcasting Corp. — and they can be arrested for listening. For unexplained reasons, perhaps because the penalty for being caught would be too great, few Indonesians listen to the Voice of America.

If Indonesians don't know what's going on outside their country they don't know what's going on inside it, either. One Indonesian whom I have known for 10 years was shocked to hear that Indonesia and the United States are close to a break in relations. Another "heard" that the purpose of White House

Envoy Ellsworth Bunker's recent trip to Jakarta was to give Indonesia another half billion dollars worth of aid. Actually Bunker's mission was to tell Sukarno that the United States had at last had enough.

Some Indonesians actually believe that the U.S. Army was defeated in the abortive anti-Communist rebellion in Sumatra seven years ago. Others have it on good authority that the U.S. 7th fleet has been destroyed by the Indonesian navy. Communist control of all mass communications media, radio,

television and the press, is complete. The last vestige of press freedom ended earlier this year with the suppression of 21 newspapers that didn't toe the line to Communist satisfaction.

Antara, the government-owned news agency, has been converted into a Communist propaganda medium. What Western news Antara does carry is twisted beyond recognition. Most of its foreign news is supplied by Tass or Red China's New China News Agency. The Chinese agency predominates because Tass, the

Russian news agency, doesn't go far enough. Yugoslavs are considered imperialists in Indonesia.

In this suffocating atmosphere it's hardly remarkable that Indonesians tend to think alike. Even Americans who live here are affected by the massive daily dose of Communist propaganda.

"It's the endless repetition that gets you," said one American. "To your horror you begin to wonder if what they're saying isn't true. Then you gasp and come up for air. But there

is no air, only more of the same."

The technique is patently Communist. Yet foreign observers and some Indonesians liken the molding of mass opinion to Adolf Hitler's Germany in the 1930s.

"If Hitler could do what he did with a literate population of scientists and thinkers," observed another American, "I don't suppose we should be surprised about what Sukarno has been able to do with the Indonesians who are largely illiterate and emotional."

## Rabbit Week

National Domestic Rabbit Week will be observed from July 18-4 this year.

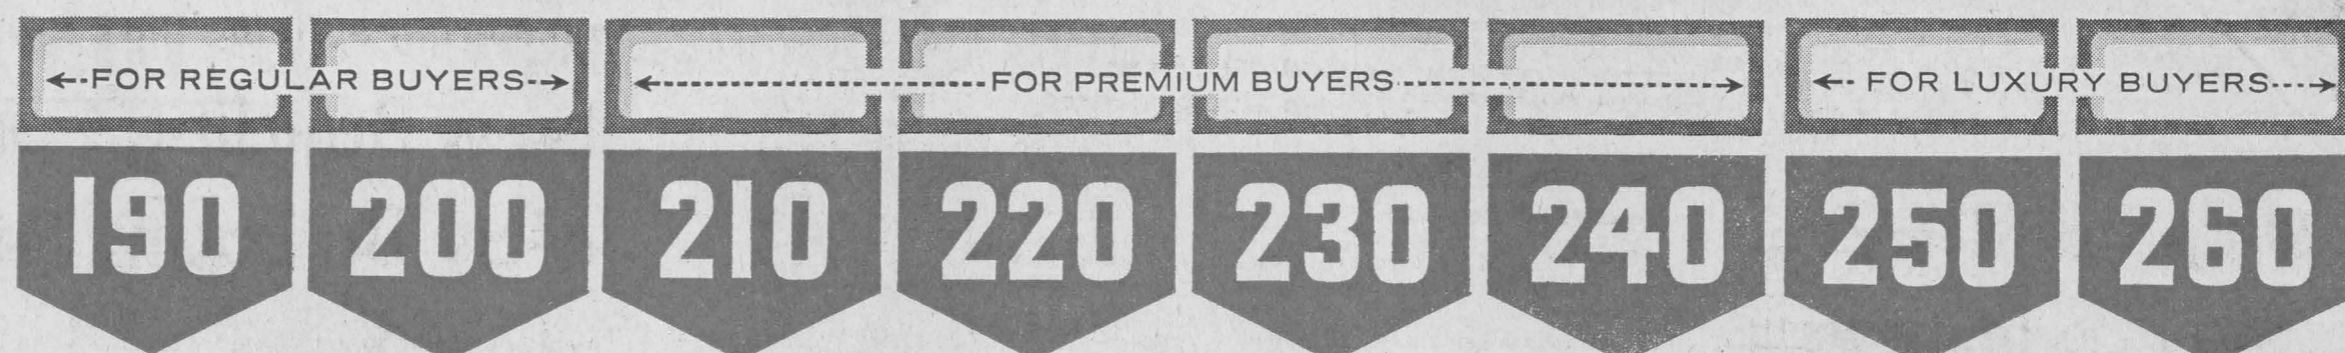

## CAN'T SLEEP?

If acid indigestion keeps you up, settle yourself for sleep right away with TUMS antacid tablets. Today's good tasting TUMS are fortified — speed soothing, high potency relief...neutralize all excess acid...release you from the grip of an acid-irritated stomach — completely, gently, on the spot. You can sleep again. Wouldn't you like that?

These 8 **Custom-Blended** gasolines at 8 different prices are how Sunoco delivers top performance for all car owners, cuts gasoline bills for most! Whether you use premium or regular, ask your Sunoco Dealer for the gasoline priced just under what you've been paying.

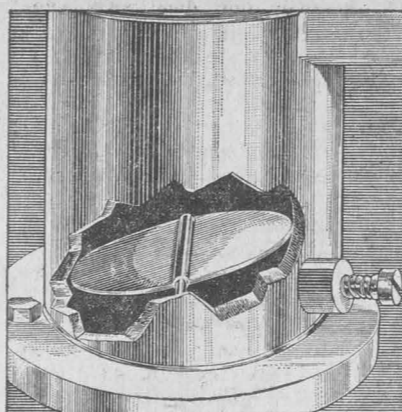

## 3 new Sunoco improvements release more engine power!

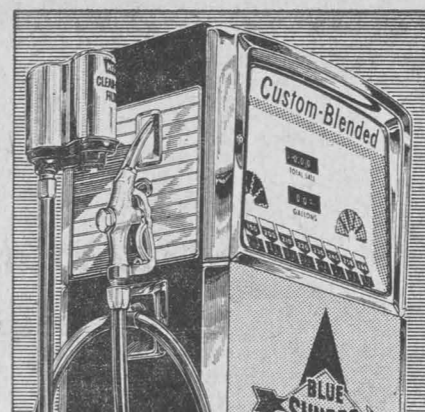

### New Higher Octane

Provides smoothest, knock-free power in even the most critical engines — new or old. This increased octane means full-powered burning with every drop of Sunoco's new gasolines. Complete burning for cleaner combustion chambers.

### New Carburetor Cleaner

Cleans your carburetor as you drive and keeps it clean! Cleansing action removes deposits from throttle plate and carburetor walls. Helps eliminate roughness and stalling. Can save you up to a gallon of gasoline a tankful.

### New Clean-Fuel Filter

Filters Sunoco's new gasolines clean as the water you drink! This super-filtering action means cleaner fuel lines and carburetors. New Clean-Fuel Filter actually keeps gasoline up to three times cleaner than the filter on your car.

### You've Got The Money, Honey

FRANKFORT, Ky. (AP) — Honey was money in the pockets of many Kentuckians in 1964.

The Kentucky Agriculture Department says production of honey in the state doubled last year to 2.5 million pounds.

Honey brought state beekeepers an estimated \$872,000. Beeswax sales amounted to about \$22,000.

### Eager To Learn

EDWARDSVILLE, Ill. (AP) — Madison County Farm Adviser Truman W. May says farmers like short courses to study farm subject matter.

"Examples of how interested farmers can get in good presentations by capable speakers," he said, "are a couple of our meetings or 'classes' this last winter when a popular soils specialist spoke for two hours and three-quarters without a man leaving."

"A well-known livestock disease authority went for two and a quarter hours and the men stayed. Attention was as good at the close of each session as at the start, and many farmers stayed after adjournment to continue discussions."

Sunoco's 8 new, improved gasolines are **Custom-Blended** to save 1¢ or 2¢ a gallon for four out of five car owners!

Never before has such an extensive package of improvements been offered in a complete range of gasolines. Now, more than ever before, when you fill up at Sunoco's Custom-Blending pump, you're getting the cleanest, most powerful, highest quality gasolines modern petroleum technology can produce.

Most major gasolines are good gasolines. Many will probably let your car deliver all the performance and

power the manufacturer built into it. But these great new Sunoco gasolines — Custom-Blended at eight different prices — give you that top performance, and in most cases, for less money!

Ask your Sunoco Dealer for the new Sunoco gasoline priced just under what you've been paying. You'll get top performance and save money every mile you drive! Four out of five car owners can.

*to make your car run best while you pay less!*

# USF Summer Softball, Tennis Programs Swing Into Action

I KNOW I'VE COMPLAINED A LOT ABOUT THE FOOD HERE, BUT NOW THAT I'M ABOUT READY TO GRADUATE I'M BEGINNING TO LIKE IT.

## Drop-Add Time Cut May Be Instituted

There is a move under way to institute a shorter period of time for adding or dropping courses, according to Dr. Frank H. Spain, registrar.

Dr. Spain said that since the university has been in operation, there has been an average every trimester of one change for each student enrolled. Shortening of the period is expected to eliminate some of the course dropping that now occurs during the time allowed.

"We hope that by tightening the restrictions on dropping and adding courses, students will be more careful about their schedule building," Dr. Spain said.

He added that nobody is out to hurt the serious student. The move is merely designed to cause a person to think in greater detail about dropping courses, and perhaps not start more courses than they plan to finish with.

A STUDENT seeking to add a course to his schedule must approach the dean of his college and inform him the course he needs is not being offered. The dean must confirm that at least 15 students want to take the course, and submit a revision form to the University Class Schedule. The coordinator of space must find a room for the class to meet in. Then the registrar prepares class cards and a revision sheet. The new classes are then posted on the blackboard in the UC ballroom during registration.

## Bookstore Offers Hobby Supplies

Students and staff members may now order hobby supplies such as model airplanes, boats and trains, from the University Center Bookstore at a discount of 15 per cent on orders up to \$10 and 20 per cent on orders totaling \$10 or more.

Catalogs are available in the bookstore. Payment must be made with the order.

## Dressmaker Holes Up In Argos

R-r-r-r! Having problems? Is your skirt a little too snug? Do your pants need tapering?

Mrs. Hilda Holton, from Varsity Cleaners can help you. She is in the Linen Exchange room from 8 a.m. to 5 p.m. Monday through Friday and from 9 a.m. to 1 p.m. on Saturday, for your assistance with her needle and thread.

Aware of the college student's plight (and of his often empty wallet), Mrs. Holton's prices are more than reasonable. Alterations for men's pants, including tapering start at \$1; for the waist band on women's skirts, \$1; for lengthening or shortening hems, \$1-\$1.50; for zippers, \$1.25.

Mrs. Holton will also do dressmaking or fitting. Prices for making a simple sheath dress start at \$3.50.

## Tennis Club Meets May 6

The Tennis Club will meet for the first time this trimester in Thursday, May 6, at 1:25 p.m. in UC 226.

Anyone interested in tennis is welcome to attend, said Cliff Suddarth, club president. This summer, the club tentatively plans to challenge the faculty in a tournament.

Club members have the privilege of using tennis balls purchased for the club. Dues are \$1 a trimester, Suddarth said.

## USF CAMPUS EDITION

### sports and features

PAGE

## Campus News Briefs

### Water Ski Tourney At Cypress Gardens

A trip to Cypress Gardens is being offered by the UC Recreation Committee in conjunction with the Inter-collegiate Water Ski Tournament on May 8.

A chartered bus will leave from the UC at 8:30 a.m. and return at approximately 4 p.m. This will allow time for viewing the ski tournament and the gardens.

The tour will cost \$1.50 per person. Admission to Cypress Gardens will be free upon presentation of a USF student I.D. Card.

Anyone interested in taking the trip should sign up at the UC desk before Wednesday.

## Tournaments, Bridge Lessons Offered

Recreational tournaments and bridge lessons will be offered by the University Center, Recreation Room again this trimester.

Registration for the recreational tournaments, which will include table tennis, pocket billiards, snooker and carom, will from May 3-13.

Bridge lessons will begin May 20, and can be signed up for at the UC desk for a registration fee of 25 cents.

## Movie Is Friday

"The Millionaire," starring Sophia Loren and Peter Sellers, will be shown in PH 101 Friday and Saturday evenings at 7:30 p.m.

The story concerns an heiress who is obliged by her father's will to marry a man who can prove himself a success in business.

## Hours Announced

The Instructional Materials Center in the library basement will be on summer schedule starting today.

Hours will be 8 a.m. to 9 p.m. Monday through Thursday, 8 a.m. to 5 p.m. Friday, and 9 a.m. to 1 p.m. Saturday.

## McCord Fund Lists Receipts

Financial statements concerning the recently formed Tara McCord Fund, established to aid USF students confronted with large medical expenses, has been released by Chairman, Margaret B. Fisher.

Total of funds, as of March 30, is \$1,592. Donations made directly to Miss McCord are \$735; those to other students, \$50.

Printing and mailing expenses are \$20.80. Total expenditures to date are \$809.80. The balance is \$782.20.

Dr. Maxine MacKay is recording secretary of the fund. Secretary treasurer is W. Ken Hamilton. The Exchange Bank of Tampa is trust depository.

## Cafeteria Hours

Daily serving hours for the UC cafeteria this summer will be from 7 a.m. to 9:30 a.m., 11 a.m. to 2 p.m., and 5 to 6:30 p.m.

The supper serving hours were inadvertently listed as 5 to 7 p.m. in last week's Campus Edition.

## Job Interviews On Campus Listed

5-5-65: United Air Lines, Washington, D.C. Openings for stewardess and flight officer. All fields.

5-20, 21: Naval Aviation Procurement, UC lobby. Officer training, other positions.

5-25-65: Valdes, McLain, Pratt and Riggs, Sarasota. Accountants. Accounting.

5-26-65: Food Fair Stores, Miami. Store management trainees. Business administration, liberal arts.

5-26-65: Aetna Group Sales, Tampa. Group sales representative. All fields.

## USF Revises Intern Plan

A new internship program will be initiated at the USF in January, 1966, according to Dr. Raymond A. Urbanek, associate professor of the College of Education.

This program requires a three-hour schedule increase and consists of a 14-week internship and a seminar in teaching. Students planning to intern at that time must have completed ED 205, ED 401, ED 403 and one methods course.

The transition into this new internship program will begin in September, 1965. Students interning at this time will spend seven weeks in a methods class and ED 402. The remaining seven weeks will be spent in internship. Pre-requisites for this transition trimester are ED 205, ED 401, and ED 403.

This new program will provide a longer internship period and more teaching experience for the interning student.

## Enrollment (Continued from Page 1)

be started this summer but won't be ready until the fall of 1966.

Students who have available rooms in their homes or know of suitable accommodations are asked to contact the housing office, Ext. 761.

Trimester III and III B enrollment customarily are the smallest of the three and the combined total won't be known until after registration for III B.

Tri III registration will be about 3,000.

## By TOM GATES Of The Campus Staff

Another long, hot summer is before us. Along with the studies exercise is of prime importance. There is no better way to get this if you participate in the summer intramural program.

The deadline for Men's and Women's Intramural Softball and Tennis is Wednesday, May 5. Entry blanks can be obtained from the I-M office in Alpha 145 and must be returned there by the deadline date.

THE SOFTBALL leagues will be governed by the "slow pitch" rules. Baseball spikes may be worn and a team will be allowed to solicit any player on campus as long as they are registered students.

A team which does not have enough players for a game, may pick up two players from any other team to play a particular game. These players cannot play another game in the same day.

THERE WILL be a Staff-Faculty league for the first time. The Maintenance Department has fielded two teams. Student Affairs and the Registrar's Office will have one team each and other teams are being encouraged to participate. Any faculty or staff members who wish to participate may do so by phoning Mrs. Helen Disbennett, Ext. 471.

TENNIS FOR both men and women will be played on an individual basis in a single elimination tournament. Anyone wishing to enter should contact the I-M Office. Plaques will be given to the winners of each division.

There will be a golf tournament later in the semester. No final date has been posted. An announcement will be made later.

For information concerning intramurals contact Murphy Osborne in the I-M Office, Ext. 474.

## Fines Pay Tuition

Over park—and send your roommate through college!

Absurd, you say? R. E. Richmond, supervising accountant of the department of finance and accounting, has estimated that violation fines netted over \$4,000 since last July.

"Where does all the money go?" dubious freshmen have asked. Now a neatly printed sign in the security office gives the answer. All money collected from fines is deposited in the student scholarship fund.

Fine money is parceled out in the form of work scholarships which cover the student's tuition. The student then repays the university by working a few hours on campus each week while continuing his studies.

So overpark. And don't be so disgusted when you see that ticket. You are helping.

## Select Reading Class Carefully

Students are advised by Dr. Chester Tillman, Developmental Center reading clinician, to use caution in selecting various sections of Developmental Reading.

Students lacking in basic reading skills, said Tillman, should not enroll in sections emphasizing speed and accuracy; they will benefit most from a section emphasizing reading skills and study habits. According to the Developmental Center clinician, students whose basic skills are already above average will profit most by taking a section which emphasizes speed and accuracy.

For Trimester III, sections 01 and 03 of the course DR 001 will stress basic skills, while section 02 will place emphasis on speed.

In Trimester III-A, section 02 is for basic skills and sections 01 and 03 for speed. For further information, contact the Developmental Reading staff, AD 172, Ext. 621.

## Alumni Are Commissioned

Two USF alumni, John Gruetzmacher ('64) and Raymond D. Rotella, ('64) have graduated from the Officer Training School at Lackland AFB, Texas.

Lt. Gruetzmacher is being assigned to the Air Training Command, at Sheppard AFB, Tex., for training as a missile launch officer.

Lt. Rotella has been assigned for training as a navigator to the Air Training Command, at James Connally AFB, Texas.

## Tense Moments in Bid Opening

Awaiting the opening of construction bids on the college of engineering facilities are, from the left, Dean Edgar Kopp, college of engineering; Fred Clayton, divisional engineer for the board of regents; Clyde B. Hill, USF physical plant director, and Roxy Neal, USF planning coordinator.—(USF Photo)

## Engineering Building Bids Opened

### New Building Construction May Be Launched by July

By LAURENCE BENNETT

Campus Managing Editor Construction may start within two months on the \$2.6 million USF College of Engineering facilities, according to Clyde B. Hill, physical plant director.

Bids were opened Thursday on the project and two firms were al-

most neck and neck, with bids of about \$1.5 million for the main building — well within the estimated cost.

The apparent low bidders are James Knowles, St. Petersburg, \$1,577,000, and Biltmore Construction Co., Clearwater, \$1,580,000.

Bids will go to the Board of Regents, which makes the formal award of the contract.

Hill said it would take a little more than six weeks for the acceptance of the bid and the start of construction.

The project is to include a four-story main engineering building with 93,000 square feet of floor space, half of which will be laboratory space. Plans also call for an adjacent 250 seat teaching auditorium and a separate research building to contain 5,000 square feet of floor space.

The laboratory area is designed with a central core similar to a large elevator shaft, making it possible to re-route and re-layout major utilities as the nature of the laboratory work changes. Also included will be a rooftop lab for use in solar energy, microwave and radar studies.

Funds for the College of Engineering project include \$2 million from the college building amendment bond issue and a tentative \$682,737 grant from the U.S. Office of Education.

The funds are allotted for equipment as well as architectural and other fields. Warren Smith, Lakeland, is architect.

## Feel Bit Drafty? May Be Uncle Sam

Male students who drop below 12 credit hours during a term may face a call from their draft board.

Male students between ages 18 and 26 enrolled for 12 hours or more in two out of three trimesters are given a one-year deferment and classified 2-S, the local draft board said.

USF sends the Selective Service Board information on male enrollment in September and again in trimesters II, III-A, and III-B.

Questions concerning Selective Service may be directed to Assistant Registrar Ronald Keler, AD 264, Ext. 117.

## Windjammers Meet

The Windjammers sailing club will meet at 1:25 p.m. Wednesday, May 5, in UC 215. Anyone interested in sailing, including faculty or staff, and students, may attend. Plans for this trimester include racing competition, club officials said.

## Electronics Assist Language Learning

One of the busiest places on campus is the Language Lab, located in the Administration Building. Actually, the name is a misnomer, because according to Dr. Armando Payas, director, not only are languages studied here, but also physical education and a large range of academic subjects.

Dr. Payas has seven foreign language major student assistants working with him. Although the tapes run automatically, they are changed manually as they are finished.

## Recorders, Players

The equipment consists of two recording units. The larger is an RCA unit with six channels in use. This set also has a radio and record player on which the lab can make their own tapes. The smaller system is Educational Electronics Division, consisting of four channels. An intercom system functions so that the operator can talk to a student in any booth, or listen as the student practices speaking the foreign language.

The majority of tapes used

## Night People Keep Campus Going

When most staff and students leave after a strenuous day of work and study, the day is only beginning for a select group of individuals on campus.

These are the "night people," the ones who work to help keep USF operating on a 24-hour basis.

Promptly at 9:30 every night

a crew of 33 janitors comes in to mop, wax, and clean the offices and public rooms. Their working day lasts until 6:30 a.m.

In the power plant two men

are on duty all night to see that the heating and air-conditioning are functioning properly.

In maintenance two electricians remain all night to handle any emergency repairs.

Security has two officers on duty all night to patrol the campus.

One of the busiest places at night is the garage where all university vehicles are serviced. Between 3 p.m. and 11 p.m. 30 vehicles are checked in. Two mechanics and a student assistant check mileage, fill gas tanks, check the tires and do routine maintenance.

The infirmary is staffed with two nurses three nights a week and one nurse four nights a week. There is always a nurse on duty to administer emergency care or to admit a student to the infirmary.

Switchboard operators are on 24-hour duty to assist or refer any problems to the proper department.

As with any large operation, USF must maintain a complete around-the-clock working schedule in certain areas. The success of such an operation must depend on these night people — known only as a voice on the phone, or perhaps seen at a glance as they hurry home at the break of day.

But they are an integral and important part of life on our campus.

## When The Day Is Over

When the day is over these night people come in to clean up and prepare the buildings for the next day of traffic.

## YWCA Lists Its Schedule

Activities at the YWCA for the week include:

**Tuesday:** Westgate Y-Wives, 9:30 a.m., the Forum Club; newcomers picnic, 10:30 a.m.; Y-Teen Interclub Council, 4 p.m.; golf lessons, 5:30 p.m.; Rocky Point Golf Course; flower arranging, 7 p.m.; millinery, 7 p.m.

**Wednesday:** Body toning, 7 p.m.; fencing, 7:30 p.m.

**Friday:** Lutz-Land O' Lakes Y-Wives, 9:30 a.m., Lutz Civic Center.

## SPECIAL CLEANING SERVICE AT SPOTLESS CLEANERS

# Couples Choose Church Settings

Nuptial vows were exchanged by Miss Jean Theresa Deyorio and James Hugh Smith Saturday at 11 o'clock.

The double ring ceremony was held in Christ the King Catholic Church, and the Rev. Thomas Burke officiated.

Parents of the couple are Mr. and Mrs. P. J. Deyorio, 2809 San Nicholas, and Mr. and Mrs. D. E. Smith of Turbeville, S.C.

A formal gown of silk organza with jeweled appliques was the bride's choice. Her veil was held by a matching rose crown. She was given in marriage by her father.

Maid of honor was Miss Patricia Ann Deyorio, sister of the bride. She wore a gown of petal pink organza and carried roses.

Best man was David Smith of Turbeville. Jerry Boone and Franklin Smith, also of Turbeville, were ushers.

A wedding trip to Daytona Beach followed Mr. and Mrs. Smith's reception at American Legion Post 139. They will live in Turbeville.

Highland Avenue Methodist Church was the scene of the wedding of Miss E. Elizabeth Smith and David William Coleman Saturday. The Rev. Edward L. Herndon officiated at the 2 o'clock ceremony.

Given in marriage by her father, the bride wore a formal gown of peau de soie with lace appliques. A matching crown held her illusion veil.

Miss Jean Fernandez served as maid of honor and Miss Judy Allen was bridesmaid. They wore gowns of pink chiffon over taffeta.

Best man was Mark Scruggs. The bridegroom's attendants were Jim Coleman and Pete Haupt.

A reception at the church followed the ceremony. After a wedding trip to the Gulf Beaches, Mr. and Mrs. Coleman will live in Tampa.

Parents of the couple are Mr. and Mrs. Edwin E. Ingram, 115

Allison Court, and Mr. and Mrs. Donald Coleman, 911 Peninsular.

The Rev. John S. Wimbish solemnized the wedding of Miss Sonia Patricia Fernandez and James A. Suarez Saturday in Seminole Heights Baptist Church, at 7 o'clock.

Parents of the couple are Mr. and Mrs. Joe M. Fernandez, 1503 Shadowlawn, and Mr. and Mrs. Joe R. Suarez, 710 W. Kentucky.

Given in marriage by her father, the bride wore a formal gown of white satin and Chantilly lace. A pearl and orange blossom crown held her illusion

veil and she carried white roses with an orchid.

Miss Cherry Suarez served as maid of honor. Attendants were Mrs. Joe Gonzalez, Miss Sandy Jones and Mrs. Ken Suarez.

Flower girl was Carol Lo Cicero. They wore gowns of yellow organza and carried daisies.

Best man was J. R. Suarez, father of the bridegroom. Wayne Papy, Don Burger and Bill Mercer of Allentown, Pa., were groomsmen.

A reception in the church social hall followed the ceremony. After a wedding trip to Daytona Beach, Mr. and Mrs. Suarez will live in Tampa.

## Garden Clubs Are Planning May Meetings

### ROSEMARY

Members of Rosemary Garden Club will meet at the home of Mrs. J. M. Hill, 207 Emperado, Wednesday, 9 a.m.

# SPECIAL LIMITED ENROLLMENT! EXPIRES MIDNIGHT, JUNE 6, 1965

## Now...for people over 40 only—

A group of doctors has created a remarkable new health plan just for you!

This valuable protection for the "danger years" ahead pays extra cash direct to you when you are hospitalized and—for the very first time—here is a Plan that actually pays money to help keep you well!

If you are over 40, you can qualify for the new 40-PLUS BENEFIT PLAN, if you mail your Application no later than Midnight, June 6, 1965—and you can enroll for only \$1.00!

This, surely, is among the greatest values, as well as the most unusual health insurance program, ever offered to men and women over 40! Think of it. Regardless of your age—and no matter what the state of your health, you can now get the valuable "extra" health protection you've wanted at the very time when you are most apt to need it...all at a cost substantially less than you might expect!

### How the 40-PLUS BENEFIT PLAN Differs from Ordinary Health Insurance

The 40-PLUS Benefit Plan has been created by an insurance company run by doctors, the Physicians Mutual Insurance Company, which has specialized in health and accident protection for physicians, surgeons and dentists exclusively for more than 60 years. Now this fine old "doctors company" offers a wonderful new health plan to men and women over 40! And you may enroll during this Limited Enrollment Period—without having to see a company representative or answer any health questions!

In short, 40-PLUS will give you coverage regardless of your age, occupation or the condition of your health. But you surely realize that regular check-ups unquestionably help you avoid serious diseases and, frequently, prolong life. That is why 40-PLUS, unlike other health insurance plans, pays your doctor up to \$10 annually to encourage you to take advantage of this invaluable service—if you care to do so.

The doctors at Physicians Mutual also realize that you could be struck down by an accident or a sudden illness no matter how often you see your doctor or how careful you are. During the dangerous "after 40" years, particularly, you may require hospitalization at any time. That's why the program also includes valuable cash benefits.

### How the Plan "Pays Off" in Time of Need

Here's how this valuable protection "pays off" in your time of need: \$100 a week (\$14.28 a day) will be paid directly to you from the very first day of hospital confinement, for as long as 52 weeks, each time you are hospitalized for a new sickness or accident! You get paid for every day you are hospitalized, even if you are in the hospital for only a single day—up to as much as \$5200 for a full year! And even if you are hospitalized for a full year and have received your full \$5200 in benefits, if you should be so unfortunate as to be hospitalized again—you are still entitled to all benefits all over again, as long as you have been out of the hospital for at least six months between hospital confinements.

Of course, like most people over 40, you probably have some hospital insurance. But, as everyone knows, even the most complete hospital insurance simply doesn't cover everything. The fact is, you need more protection.

But now that you're over 40, now that you've entered the "dangerous years," it may be difficult to obtain the extra protection you need at a price you can afford—or, because of the condition of your health, you may not be able to obtain it at any price!

That's why the new 40-PLUS Benefit Plan is so important to you—it brings you the hard-to-obtain "over 40" protection you need, at remarkably low rates, regardless of the condition of your health! For only pennies a day, 40-PLUS will give you cash to help fill the "financial gap" probably not covered by your present health insurance.

And remember this—even if your basic hospital expenses are covered by your present insurance, you'll still need help—with all your regular household expenses!

Think for a moment—if you're a husband, father and breadwinner, and you're suddenly hospitalized, what happens? Your income stops. Your expenses go up. Even if you have some kind of "salary insurance," it probably won't come close to replacing your full-time pay. It's quite likely that you and your family will never fully recover the tremendous financial loss!

If you're a wife, mother and homemaker, and are suddenly hospitalized, what happens? Who will look after your family, see that the children get hot meals, are properly clothed? Who will do the laundry, the marketing, the cleaning? Your husband may lose time from his job...friends and relatives may have to help out temporarily...you may even have to hire full-time domestic help!

Everything will be upset. Debts may be incurred, savings may be lost—worse still, peace of mind may be shattered, and even recovery can be seriously delayed!

But with the exclusive two-way protection 40-PLUS offers, you can now stop worrying.

Actually, important as all of these benefits are, they are far from the only advantages you can now enjoy...if you act before the enrollment deadline.

For example:

### Benefits Tax-Free—Can't Be Reduced

For as long as you live and continue to pay your premiums, we will never cancel or refuse to renew your policy for health reasons—and we guarantee that we will never cancel, modify or terminate your policy unless we decline renewal on all policies of this type in your entire state. Furthermore, your benefits will never be reduced—and all your benefits are tax-free!

### Carry Any Other Insurance You Want

Yes, the 40-PLUS Benefit Plan pays you in addition to any other health insurance you carry, whether individual or group!

### Few Limitations

You will be protected against every kind of covered accident, sickness or operation that may hospitalize you while your policy is in force—with the usual exceptions: war, military service, mental disorder, confinement in a nursing home or in any state or federal government hospital, or if something happens "on-the-job" and is covered by Workmen's Compensation or Employers Liability Laws. Important: if you have had in the past the kind of chronic ailment not usually covered by health insurance policies, you will even be covered for these conditions under the 40-PLUS Benefit Plan, after your policy has been continuously in force for two years.

### Surprisingly Low Cost

With these wonderful "keep well" and "get better" benefits, you might expect 40-PLUS to cost much more than other health plans—but, in fact, it costs considerably less than you might expect! Only \$3.95 a month from age 40 through age 64—only \$6.95 a month when you are 65 or over—no additional premiums can ever be assessed—and, regardless of your age, you can enroll for only \$1.00!

### A Respected Company

Equally important as the exceptional value, the low cost, the ease of enrollment and the high benefits offered by the 40-PLUS BENEFIT PLAN...is this vital fact: Your policy is backed by the resources, integrity and reputation of the Physicians Mutual Insurance Company, "the doctors company," specializing in health and accident protection for physicians, surgeons and dentists all across America, for more than 60 years. Doctors right in your own community know about us and may actually be insured by Physicians Mutual. (If this is the first you have heard of Physicians Mutual, it's probably because this is one of the very few times Physicians Mutual has made its health insurance protection available to the general public.) Serving policy holders throughout the United States direct by mail, Physicians Mutual has its headquarters in Omaha, Nebraska, and is licensed and incorporated in that state. Its Board of Directors is composed entirely of respected members of the medical, dental and insurance professions.

### How Can We Do It?

At this point, you may be asking yourself, "How can they offer so much for so little?"

The question is a sensible one; but the answer makes good sense, too. By encouraging our members to see their doctors for routine check-ups each year...we hope to prevent the need for hospitalization in the case of a number of policy holders. This, naturally, should effect substantial savings—savings we share with you in the form of lower premiums.

In addition, we have lower sales costs. 40-PLUS is a mass enrollment plan. And all business is conducted directly between you and the company by mail. No salesmen are used. There are no costly investigations or any extra fees for you to pay. It all adds up to real savings we share with you by giving you top protection at lower cost.

### Easy to Enroll—No Health Questions Asked—No Salesman Will Call!

Simply fill out the short Application below and mail it with \$1.00 for your first month's coverage! We will issue your 40-PLUS Benefit Policy (Form P302 series) immediately—the same day your Application is received. This automatically puts the policy in force insofar as accidents are concerned. After your policy is in force for 30 days you are covered for sicknesses which begin thereafter. Along with your policy, you will receive a simple, easy-to-use Claim Form—should you at any time need your benefits, you can be sure that your claim will be given "top priority" treatment. In addition, we'll see to it that you receive special forms at the end of each year to take to your doctor for your examination, so that he can give you your check-up within 60 days.

When you receive your policy, you'll see that it is direct, honest, easy-to-understand. But—and please note this carefully—if for any reason you decide you don't want your policy, you may return it in 10 days and we will promptly refund your dollar!

### Don't Wait Until the Deadline to Enroll!

Remember the sooner we receive your Application, the sooner 40-PLUS will cover you! So it's best you fill out and return your Application now, before the deadline date arrives. (Two Applications are provided below so that husbands and wives may both enroll. In that case, be sure to enclose \$1.00 for each Application.)

So, won't you take the necessary minute or two—today—and return your Application together with the dollar required to put it into effect? Your Application must be postmarked before midnight of June 6, 1965, or it cannot be accepted. Better mail your Application today.

## 17 Important Questions Answered

### ABOUT THE NEW 40-PLUS BENEFIT PLAN

The New Plan That Pays You Cash When You Are Hospitalized—Plus "Extra" Benefits To Help Keep You Well

1. What is the 40 PLUS BENEFIT PLAN, and how can it help me? The 40-PLUS BENEFIT PLAN pays you \$100 a week—as much as \$5200 in a year—when you are hospitalized. In addition, 40-PLUS pays your own doctor up to \$10 every year towards your routine physical check-up, to help keep you well.

2. Why are the premiums in the 40-PLUS BENEFIT PLAN so low—are there fewer benefits? With the 40-PLUS BENEFIT PLAN, you actually get more benefits at lower cost. Because this is a mass enrollment plan—and no salesmen are used—our volume is higher and our sales cost is lower.

3. Why do I need the 40-PLUS BENEFIT PLAN in addition to my regular health insurance? Probably your present hospital insurance won't cover all your hospital expenses. But even if it does, you will still need help to pay all your regular household expenses while you are hospitalized.

4. Must I see a salesman or answer health questions to qualify? No. The only qualification is that you must be over 40—even senior citizens over 65 are welcome.

5. What if I have had a health problem that may occur again? Pre-existing conditions are covered after your policy has been continuously in force for two years.

6. Can I drop out at any time? Can you drop me? No matter how many claims you make or how much you collect, we will never cancel or refuse to renew your policy for health reasons—for as long as you live. We guarantee that we will never cancel, modify or terminate your policy unless we decline renewal on all policies of this type in your entire state. You, of course can drop your policy on any renewal date.

7. Will my claims be handled promptly? Yes. With your policy, you will receive a simple, easy-to-use Claim Form. Your claims will be processed quickly and your checks will be sent directly to you.

8. If I become hospitalized, when do my benefits begin? \$100 a week (\$14.28 a day) will be paid directly to you from the very first day of hospital confinement.

9. How long will I be paid? For as long as 52 weeks (as much as \$5200.00) while you are hospitalized for each new sickness or accident. If the full 52 weeks has been used, and the same condition recurs, a new 52-week period will be provided if there has been an interval of 6 months between hospital confinements.

10. Does 40-PLUS pay in any hospital? You will be covered in any public or private hospital anywhere in the world—except nursing homes and state or federal government hospitals.

11. Can I collect even though I carry other health insurance? Yes. 40-PLUS pays you in addition to any health insurance you carry, whether group or individual.

12. What isn't covered? Only a few exceptions: war, military service, mental disorder, and confinement in any government hospital or if covered by Workmen's Compensation or Employers Liability Laws.

13. How do I get my "physical" each year? 40-PLUS actually pays your own doctor up to \$10 annually towards your routine physical examination (but only if you want it). You receive special forms at the end of each year to take to your doctor, so that he can give you your check-up within 60 days.

14. When does my policy go into force? It becomes effective on the date your Application is received. Accidents are covered on that date. After your policy has been in force for 30 days, you are covered for sicknesses which begin thereafter.

15. Why is there a "deadline" date? In order to offer the Plan without health qualifications and still maintain our low rate, we can only make the Plan available during a limited enrollment period. The deadline date is firm—we cannot accept your Application unless postmarked on or before that date.

16. How much does it cost to join? Only \$1.00, regardless of age. After your first month, you pay only \$3.95 a month until age 65; only \$6.95 a month from age 65 and over.

17. Why should I enroll right now? Because an unexpected sickness or accident could strike without warning—and you will not be covered until your policy is in force. Remember, if for any reason you change your mind, you may return your policy within 10 days and your \$1.00 will be refunded immediately.

Fill out and mail Application, with \$1.00, to Physicians Mutual Insurance Company, 115 South 42nd Street, Omaha, Nebraska 68131. BE SURE TO ENCLOSE \$1 FOR EACH APPLICATION.
