Ferguson Says He Is Now Probing Med School Need

By FLO FELTY
Campus Staff Writer

Chester H. Ferguson, chairman of the State Board of Regents, told a Campus Edition reporter that a story published by the St. Petersburg Times, Sunday, Oct. 24, 1965, was in error concerning the possibility of ob-

taining a medical school for the USF campus.

The article stated: "In his (Ferguson's) opinion, the raiding of faculty by one Florida university from another Florida university's graduate school means 'you usually weaken both. Even though it would be

in his home town of Tampa, Ferguson looks askance at the proposal to establish a medical school at the University of South Florida."

The article further said, "He (Ferguson) personally prefers that the existing College of Medicine at the University of Florida be developed into the best in the nation before the state spends millions of dollars to establish a new one."

Ferguson told the Campus Edition that best time table for the start of a medical school at USF would be the fall of 1971 with the first class graduating in the summer of 1975.

in an excess of this amount.

Ferguson said he is trying now to make certain of the need for another medical school in Florida, based upon the number of applicants. He has met with Tampa officials to determine the necessity for the school in this area and has been in contact with various congressmen to discover the amount of federal government funds that could be available.

If the new Veteran's Administration hospital is built near the campus, a medical school on campus could possibly use most of the same facilities, Ferguson said. This would result in a decided reduction of costs.

Ferguson To Speak Here

Chester Ferguson, chairman of the Board of Regents, will address the Faculty Luncheon Club at 12 p.m. Thursday, Nov. 4, in UC 264-265.

He is expected to discuss the future of higher education in Florida.

Ferguson was invited to speak by P. Calvin Maybury, chemistry department chairman.

The luncheon is limited to faculty members. Those wishing to attend must make reservations with Doris Miller (ext. 185) before noon Wednesday prior to the luncheon.

A charge of one dollar per person will be made to cover meal costs.

Rep. Robert Mann and Tampa police chief J. P. Mullins will speak at later meetings.

Class Schedule for Tri II

Following is a list of the courses to be offered Tri II, 1966 at USF, and the number of sections available. Lab sections are not included.

USF CAMPUS EDITION

Editorials

Yes, Yes, Yes, NO, NO!

You've heard the motherhood appeal on radio, the one where a woman's voice tells you that traffic accidents will be no more if you will only vote for four-laning rural Florida.

You've read of the bumper stickers that were removed from Highway Patrol cars amid cries of blatant misuse of state facilities to promote political ambition.

Billboards have thrown it at you, and the Governor can't seem to think of anything else.

\$300,000,000 in road bond financing is what Haydon Burns is trying to sell to Florida voters. His campaign has all the warmth of a Nazi attack battalion.

We have been told we will look back in ten years and see the \$300,000,000 as a bargain. Well, our definition of a bargain is something you don't really need at a price you think you can't resist.

The proposal to commit \$300,000,000 to a bond issue for four-laning rural Florida is up for vote tomorrow. It will be No. 4 in the list of proposed amendments to the archaic Florida constitution.

You can't spend money but once. If you take the Burns bait and bury your money, you can kiss goodbye to any real improvement in Florida education that depends on money or political leadership available in the near future.

Also on the ballot, as amendment No. 5, is a proposal to set down in law a tax exemption for mobile homes. If this item is approved by voters, mobile home owners will not pay tax on their domiciles except a vehicle tax, near in dollar amount to a license plate fee.

If mobile homes are exempted, why not follow the logic and eliminate all taxes on all homes?

Money, be it spent for cornfield cloverleaves, or for teacher salaries, classrooms or dormitories, has to come from somewhere. Funds for the public good have to come from the public. Better schools benefit the whole community.

Pay-as-you-go and "for the general welfare" are phrases we see as applicable, respectively, to amendment proposals No. 4 and No. 5.

Both ought to get unhesitating vetoes from voters.

Why Not Here?

(ACP)—Imagine walking into a large auditorium and being handed an IBM card with a coded number.

It happens all the time, you say? Then imagine being encouraged to bend, spindle, mutilate, fold, or otherwise mess up that IBM card.

It can't happen? Students at the University of Colorado are being encouraged to do just that, says the "Northern Star," Northern State University, DeKalb, Ill.

It's all part of a plan sponsored by the Associated Students on that campus to allow the student to "get it off his chest." The program is called a "B-I on the Multiversity." Each student who attends will have an opportunity to speak for five minutes about anything that bothers him.

The entire session will be taped and studied at a later date. A local radio station has expressed an interest in broadcasting all or part of the tape.

The B-I is patterned after the Viet Nam teach-ins, except that there will be no regular schedule of speakers. Each student speaks according to the number on his IBM card.

The purpose is to find out what students think is wrong with the University, why, and what can be done about it. Comments of praise, of course, will also be welcome.

Gripes are common at Northern as well as at the University of Colorado, but at Colorado, someone is going to listen. It's at least a step in the right direction.

Where's the Game?

The crowds at the soccer games have been fairly good this year. Average attendance is around 400. This figure becomes more remarkable when you consider that there is no publicity.

The Campus Edition covers all soccer games as well as publicizing the coming matches. But we come out on Monday, five days before the game.

Somebody spent a lot of money on fancy posters that exhort students to "Support USF Inter-collegiate Soccer." Fine. But why not some later publicity as to where and when and against whom?

USF 'Camera Artists' Assist Students, Staff, Publications

By PEGGY FULLERTON
Campus Staff Writer

Have you ever seen a picture of yourself in print and wanted a copy? Or perhaps a picture of a friend, or simply a picture of a campus event? Would you like to have a passport or an I.D. picture made?

Jacks of all trades (in the photography line), the USF photographers cover a huge area of interest from student mug shots to the creative photographs in the USF yearbook, the Aegean.

Their four basic divisions of services, however, include classroom services, information services, the yearbook and the campus newspaper.

Classroom services produces slides, enlargements, transparencies and very frequently mug shots of students for the education department.

In the humanities and art departments these slides could be of anything from a Roman Statue to a Picasso painting. The chemistry department uses their slides to show how an experiment should look at its conclusion, while the education department finds slides very handy in student lectures. Slides and film clips are used to support USF's television studio.

IT IS THERE that students are able to borrow cameras for classroom use. "In the fall," said Sparks, "we hope to have seven box-type cameras to lend to students."

The photographers themselves have 10 main cameras that they work with.

Hours are often long and week ends become work days when events are scheduled and a photographer is needed. Setting up shots, composing, reshooting, he spends many hours trying for the shot he thinks would be pictorially best and what the publisher wants.

BEFORE THE USF plays are ever seen by the audience they are photographed for publicity. Then after a play has had its opening night, actors and actresses troop over to the photography studio to be photographed in costume, creating

Ohio State Speaking Ban Defeats Purpose

(ACP) Ohio State University's administration recently banned a Communist speaker and suffered the predictable consequences: student protests, marchers, and sit-ins, according to the Minnesota Daily, University of Minnesota.

The ban was based on a newly-passed state law empowering trustees of any state-supported institution to refuse speaking facilities to Communists, advocates of violent overthrow of government, or "persons whose presence is not conducive to ethical or moral conduct."

Under pressure from students and faculty, Ohio State's president tried to get the trustees' ruling changed, but failed. He pointed out that banning speeches is an excellent publicity device for any such speaker and thus is probably self-defeating.

Minnesota — at least temporarily — has learned its lesson from the last banning more than a year ago. May Ohio State come to know the same calm and tranquility that an enlightened and temperate administration can ensure.

Hypnosis Learning Said Only a Dream

By HAZEL MCCATTY
Campus Staff Writer

"Now you are in my power. You will learn everything I say." This may be the dream of every professor on campus: To captivate his audience through the use of hypnosis. At least the problem of class sleepers would definitely be solved.

But according to Dr. Frederick W. Huff, assistant professor of psychology, there is no significant learning difference between learning under hypnosis and learning in the usual manner.

Huff said the hypnotic learning situation is essentially the same as a normal learning situation; both are no more than a matter of concentration and self-control.

NO ONE can be hypnotized who is unwilling, and no learning takes place without awareness of what is being taught. But hypnosis does aid the attention and concentration of the subject by excluding distractions and inhibitions.

In experiments, two intellectually equal groups have been used, one in which students were hypnotized, and the other in which they were not. Both groups were taught the same material, and when tested later, the learning retention was the same for both groups.

Hypnotism is the playing of a role in which suggestion and reinforcement are the dominant characteristics. Dr. Huff said that all experience hypnotism, "but are not aware of it at the time."

again a scene from the play. For both actors and camera men this can develop into a very long evening.

James (Jim) D. Haynes, one of the full-time members on the team has said, "To paint with life is what photography means, and this is the challenge and frustrating part of the job."

SPARKS ENCOUNTERED a 'challenge' when the electricity cable broke at the end of trimester II of '65, sending the campus into complete darkness (save for a few candles). Sparks had to ignore the "DANGER" signs and the roped off area seeking the news through pictures.

Jim Haynes laughed to himself, he said, when he saw a shot in the campus paper showing a workman down in the elevator shaft fixing a cable. The man was referred to as being in a most dangerous position. Jim, who had taken the shot himself from a vertical angle had been standing five feet above the man on an even thinner beam in a black suit and tie.

"It's all in the life of a photographer," Sparks said mildly. And so it is. Everything from a 'moon over the campus pictures' to student mug shots.

The Making New Book On Viet Rapped

By DOUGLAS G. GREENE
and GEORGE H. WALSER

The Making of a Quagmire, by David Halberstam (New York: Random House, 1965) \$5.95.

For those with sufficient background information on Viet Nam, David Halberstam's "Quagmire" is a source of important secondary information; unfortunately, the rest of us will find that this book gives a far from complete answer.

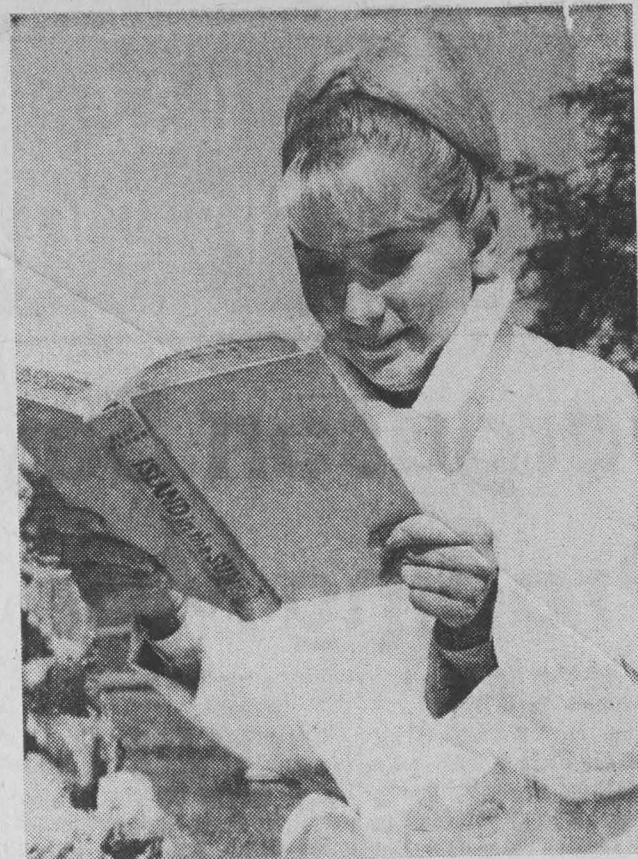

Ideally, a Vietnam primer should examine in depth the social, political, and historical causes of the war; and it must discuss the important events from 1945 to the present. Unhappily, Halberstam fails here. He skims over too much that happened before he went to Vietnam (as a New York Times correspondent) in 1962. The book should, at the very least, say a trifle more about Ho Chi Minh, whose fascinatingly/picaresque life (in the old Bolshevik style) is interesting in its own right and essential to understanding the success of the Viet Minh. As it is, Halberstam barely mentions North Vietnam.

BUT MORE SERIOUS is the dearth of information on what has happened since he left at the end of 1963. He was in the country for a year and a half: a fantastically volatile period when the Viet Cong drive accelerated, the Buddhists erupted, and Diem fell. Consequently, Halberstam can wave a finger at mistakes, blunders, and self-delusions galore during 1963, and can offer much in showing errors of that year. But it is hard to know just how to appraise the Vietnam of October, 1965, with the material that he has given us.

HALBERSTAM is at his best when he writes about and defends his profession, reporting.

Hell hath no fury like a reporter impugned, and Halberstam laments with justice those who attacked the veracity and motives of the Saigon press corps.

These worthwhile observations do not hide the fact that Halberstam has not produced a valuable resume of the Vietnam. And his lack of much material since 1963 is more than a serious omission. It is a long time from the event to the printed page with a subject like Vietnam, perhaps too long.

At Other Places

EDITOR'S NOTE: The Campus Edition corresponds with college newspapers from all over the country. In order to keep you abreast of happenings at other universities, this week we initiate a feature to bring you the news and views from other campuses.

STETSON UNIVERSITY—At Stetson there is no United Fund Drive. One week of the school year is set aside as "Green Feather" week and all charity donations are collected at once. A carnival for charity with

MANATEE JR. COLLEGE — Students are signing letters endorsing President Johnson's Vietnam policy. The letters, will be sent to Gen. Westmoreland, commander of U.S. forces in Vietnam. As of last week, over 500 students had signed the letters.

UNIV. OF FLORIDA — Football games are drying up and the spectators drying out says UF Campus Policeman Lt. Vernon K. Holliman. When the game is over, "There are fewer empty whiskey bottles than there used to be." On the other hand maybe people have stopped being litterbugs.

HOFSTRA UNIV. (Hempstead, N.Y.) — Dean of Students, Randall Hoffman has placed a six month moratorium on all fraternity house construction. The ban was the result of one fraternity not going through proper channels in acquiring an off campus house.

MIAMI-DADE JUNIOR COLLEGE — Biology profs are dissecting human cadavers and taking pictures of the process. The slides will be used in biology classes.

UNIVERSITY OF CALIFORNIA — Sociology prof says sororities face extinction. Rush participation at Berkeley was 100 coeds less than a year ago and a sorority representative says she thinks the drop reflected a "steady trend."

INDIANA STATE UNIVERSITY — The ISU computer has gone romantic and will electronically pair off couples for an IBM dance. Those attending will find out forms; the computer will match the forms that are most identical (except for sex of course); and then the scientific couples will dance till midnight. How personal can a computer get?

Also at ISU, under a new rule that has just gone into effect, women over 21 will not have to be in the dorm at a specific time of night.

Attending the event from USF were Genia Plamer, Blair Weir, Paul Feuerstein and Dan Alphonso. Competitors were judged on their debate briefs and verbal presentation of evidence.

Colleges, in the order of their finishing in the event, are University of Florida, Stetson University, and DeLand Junior College, USF. Other colleges presented were: Manatee Junior College, and Florida State University.

State Medical Test Saturday

The Florida Basic Science examination will be given to 500 physicians Nov. 6 at 8 a.m. in the TA.

The Board of Examiners of the State of Florida conducts this test. It consists of five parts: anatomy, bacteriology, chemistry, pathology, and physiology.

Dr. Theodore Ashford is secretary of the Board of Examiners, and the examiner for the chemistry portion of the test.

Students presently in medical school, and physicians from other countries and other states who intend to practice in Florida are required to take the test.

EDDIE GRAHAM
NO DISQUALIFICATION

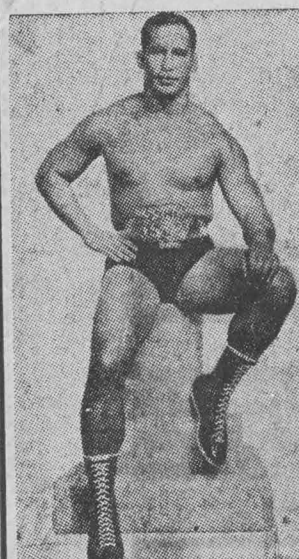

Eddie Graham and the Missouri Mauler will settle their differences Tuesday night at Fort Homer Hesterly Armory at 8:30 p.m. during the wrestling matches.

Both Graham and the Mauler have agreed to a one fall to a finish with no disqualifications. The second main event of the night will pit Ronnie Echison and Sam Steamboat in a world tag team match against the present champions, Kurt and Skull Von Stroheim, in a two of three falls event.

Klondike Bull has offered himself in a handicap match against Jean Corsica and Herb Larson in a one fall with a 20-minute time limit match. Klondike has agreed to pin one or the other of the tag team combination or forfeit his purse in the 20-minute time limit.

Don Curtis and Hiro Matsuda renew their feud Tuesday night in a semifinal match and Greg Peterson will meet Duke Keomuka in the opening match.

Tickets are now on sale at the clear stand of the Thomas Jefferson Hotel or the Sportatorium. ALL CHILDREN 12 AND UNDER WILL BE ADMITTED FREE OF CHARGE WHEN ACCOMPANIED BY AN ADULT. Call 253-0643 for reservations.

Scholarship Program On Tap Wednesday

Greyhounds which will run for athletic scholarships for the University of Tampa on Wednesday afternoon will be selected today at the Tampa Greyhound Track tonight.

Manager John Hater announced the usual matinee program will be held with Grade A stars in the trophy feature of the special matinee which will start at 2 o'clock. Usual night races will follow at 8 o'clock.

UNIVERSITY boosters are backing the program by arranging a clubhouse racing party with a buffet luncheon. Programs have annually raised around \$10,000 for the Spartans.

This will be the first Wednesday matinee of the season and

Bill Allen Notches Best Bowling Score

ST PETERSBURG (AP) — An Orlando bowler, Bill Allen, had the best score yesterday in the men's division semi-finals of the Florida Bowling Proprietors Association All-Star Tournament.

He had a score of 4,192 in the 20 games of qualifying.

Mary Lou Graham of Miami was tops in the women's division with 3,854.

Sixteen men and 12 women now are left in the tournament.

The finals will be played here Nov. 13 and 14.

the entire proceeds will go into the University of Tampa athletic fund. A similar matinee will be held the first Wednesday in December for University of Tampa academic scholarships.

Racing will resume tonight with G. A. Alderson's Berra, which has been in more quinnels than any greyhound active today, in action in the feature ninth of 11 races which will start at 8 o'clock.

STILLWATER, Okla. (AP)—It's been just a year since Oklahoma State University basketball player Bob Swaffer lost his right arm in a freak laundry accident.

"Now," he said, "the arm's doing great."

SWAFFER'S arm was twisted off between the shoulder and the elbow when it became caught in a spinning washer in a laundry. Basketball teammate Gary Hassman plunged the severed arm in a bucket of cold water and Swaffer was rushed to Oklahoma City.

A team of surgeons re-implanted the severed arm — and Swaffer now is calmly going on with his college work. He is a junior mathematics major and a student assistant coach on the Oklahoma State basketball team.

"It doesn't give me any trouble at all," Swaffer said about his arm. "It's a handicap, of course, but it's not really too bad."

"There's not too much that I do that needs the full use of both arms."

Swaffer can raise the arm and point his finger, but the arm still will not support any weight.

SWAFFER still reports reg-

ularly to the Oklahoma State infirmary for physical therapy. However, he seems more willing to talk about the OSU basketball team or his future plans than the story of his regained arm.

He said the Oklahoma State basketball team is "gonna do all right."

Breedlove Planning Runs at Salt Flats

BONNEVILLE SALT FLATS, Utah (AP) — Craig Breedlove of Los Angeles planned practice runs on the Bonneville Salt Flats today in preparation for a try at the world's land speed record this week.

The 28-year-old former hot-rod builder was to drive his jet-powered Spirit of America — Sonic I racing car beginning at dawn for the first of a series of practice passes through the measured mile on the 10-mile speedway.

The land speed record is 536 miles per hour, set by Art Arfons of Akron, Ohio, last year. Arfons has the Bonneville Speedway reserved next week and says he will race in his jet-powered Green Monster if Breedlove breaks his record this week.

Red China Reshapes Afro-Asian Policy

By GEORGE WELLER
Chicago Daily News Service
ROME, Nov. 1 — China now encourages her meteorologists to predict weather by watching the behavior of small animals and relating them to peasant proverbs. Something has gone wrong however, with Mao Tse-Tung's reading of the political clouds over Asia and Africa.

China's strategy of snubbing next week's Afro-Asian conference in Algiers is regarded as an enforced maneuver, a reluctant acknowledgement that her openly declared plan of outflanking the Atlantic community by invading Africa and Asia must be delayed.

A reshaping of the entire Chinese foreign policy in the ex-colonial continents is under way. Revolution, guerrillas and the direct purchase of venal statesmen is out of style. Slower, more methodical, costlier methods, like those of the Soviets, are coming into use.

AFRICA HAS not forgotten China's misplay in Burundi, where Peking successfully subverted an African assassin, infiltrated him into the American embassy, yet managed to bungle the murder of the prime minister. Such mistakes, on the elite level, as one European newspaper said, "are not excusable for a mandarin's son like Chou En-Lai."

Algeria's new boss, Col. Houari Boumedienne, without mentioning any names, put in a word against the uncontrolled guerrilla armies, such as China has been subsidizing in Tanzania and the Congo Republic (Brazzaville).

The main reason for the Chinese renunciation of addressing the 44 states expected out of 64 eligibles at Algiers is apparently the prospect of coming off second best against Russia in any popularity contest among the hand-out-hungry independents.

THE CHINESE have lost their best potential salesman, Indonesia's President Sukarno. Russia's indebted states, however, range from colossal India, needing Soviet jets to hold off China, through the U.A.R.'s Gamal Abdel Nasser, virtually Moscow's military vassal, to little Cyprus, which has just confided to the world that her new missiles still being held along with other arms in the U.A.R. cost her \$28,000,000 in Soviet credits.

The Chinese are hurt by losing their best support in the Arab world, Syria, even though Syria's boss, Gen. Amin Hafez, only last week crushed a pro-Soviet putsch led by the Socialist Akram Haurani.

The Chinese have one almost violent antagonist in Malawi's Dr. Hastings Kamuzu Banda

who had to wound, then drop three ministers, the Chinese had pocketed. "The Chinese have trained 24 terrorist Malawians in Peking, Cuba and Algeria," said Banda.

Chou En-Lai, who with Gen. Chen Yi has been the major planner of China's penetration in Africa, rather uninvitedly explained China's present chill, as compared to adoration for the fallen conference of last June,

as due to "complicated changes."

Chou hung part of Peking's pullout on "new conflicts" between Afro-Asian states, presumably meaning Kashmir and the parallel Chinese pressure on Sikkim. Pakistan rewarded him by loyally voting the Chinese way, for postponement.

CHOU EN-LAI opposed Russia's presence in his message to all the Afro-Asian heads of

state with an unusually delicately phrased challenge: "Does a power that is neither African nor Asian have a right to appear at an Afro-Asian conference?"

Some African powers are beginning to understand what Asians already know: That China's attempt to exclude Russia from status as an Asiatic power is not simple legalistic nitpicking, but a conscious plan to prepare for the day when China's millions march west

as "liberators" into "Soviet-colonized Asia." China wants the "recovery" of Siberia to be a socialist crusade, not an imperialist rape. China's open objection to the presence of U.N. Sec-Gen. Thant in Algiers is also more than nagging. China has already announced her intention of creating a new Asia-centered community of nations to supplant the U.N. So far, she has succeeded only in getting the resig-

nation from the U.N. of Indonesia, after Sukarno took West New Guinea as a U.N. tribute. THANT PLEADS for the U.N. to recognize China. But the Algiers tiff is a tipoff that China won't recognize Thant, her benefactor.

Only North Korea North Viet Nam, Cambodia, Guinea and Mali have helped Pakistan in trying to keep the meeting from taking place. There are signs of a split in strategy in Peking.

if your Mercedes-Benz 230S will ever rattle.
A most unflappable car."

Even at dusk, visibility in Mercedes-Benz 230S is superb. Clip coupon for full story on this staunch car.

The body is welded 10,000 times. Its design is a patented safety feature. A lovingly assembled engine can cruise all day at 90 mph. Take 3 minutes to read about the Mercedes-Benz 230S, built to be the best—not the best seller.

GIVEN humane care, the Mercedes-Benz 230S will easily outlive your golf clubs and the family cat. The secret of its longevity: careful construction, costlier materials, and an engineering staff whose creations are watched like hawks by other car designers.

Flattering note: competitive engineers have admitted they would like to copy some Mercedes-Benz features, but—alas—they can't afford to without shooting up their cars' prices.

World's oldest car maker

Mercedes-Benz has had 80 years to store up its expertise. It's a good feeling to know that the Mercedes-Benz 230S comes from the world's oldest automobile maker—from the inventors of the automobile.

Historical sidelight: the inventors were two German engineers, Gottlieb Daimler and Karl Benz. The year was 1886. Elsewhere, Mr. Rolls had yet to meet Mr. Royce. And Henry Ford's amazing Model T was still 22 years off.

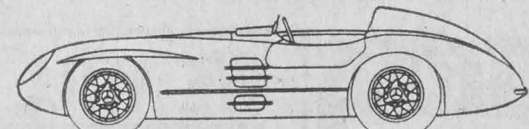

No squeak, clank or groan

A car's backbone is its body. The 230S body is a taut shell, welded 10,000 times. It is stronger, more twist-resistant than separate body-and-frame types that must be bolted together. The 230S will not age to the tune of squeaks, groans or rattles.

Nitpickers: you'll search for telltale seams in vain. All outside body seams are hand-ground, filled with pewter, ground again and polished.

Sturdy as it is, the 230S is no mere iron horse. You can hurtle this 2,976-pound sedan about like a sports car. No wonder—you ride on a fully-independent suspension system first proved on a sports-racing car—the all-conquering Mercedes-Benz 300SLR.

Professional racing drivers respect Mercedes-Benz cars (some even sell them. Juan Manuel

Suspension proved on 300SLR sports-racing car.

Fangio, 5-time World Champion driver, is a Mercedes-Benz dealer in Buenos Aires).

Steering without guesswork

You control the 230S—it doesn't control you. If you've been driving a car with spongy steering, you'll be astonished at the accuracy of Mercedes-Benz steering. You aim this car. You don't have to cajole it.

Note: A shock absorber in the steering linkage blots up road jolts before they can reach your hands on the wheel. No buzzing, tickly vibrations.

Stops without panic

The 230S uses disc brakes in front—and separate brake systems, front and rear. A trustworthy combination. And remarkably smooth: "When

you put the brakes on in a Mercedes-Benz, it still feels like you're putting the brakes on in an automobile—not turning a switch that's going to throw you out the windshield."—David E. Davis Jr., Editor and Publisher, *Car & Driver* Magazine.

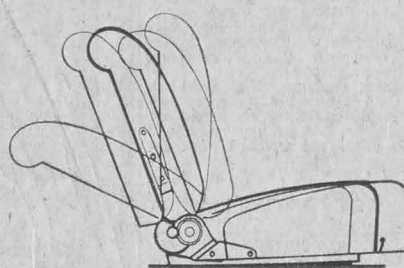

An unburstable engine

When you lift the hood of the 230S, you may be startled. Its 6-cylinder, single overhead camshaft engine is one-third the size of many American V8's. Your gas costs will be about half. And its performance stuns those who always thought an engine had to be big to be potent. Consider this: manufacturing tolerances are so close, and design is so careful, that you can blaze along for hours on end at over 90 mph. You hear only a pleasant hum. There is no unnerving mechanical strain to set your back-teeth on edge.

Not a rolling hotel

Coming as it does from a factory where one of every 11 workers is an inspector, the 230S dis-

plays superb workmanship. But superfluous gewgaws are utterly absent. No fold-down writing tables. No walnut wainscoting. A blow to status-seekers—but a boon in cutting needless weight and cost.

Fatigue-proof seats have reclining backrests.

Orthopedic physicians helped make the 230S' seats fatigue-proof by making them firm. They are also tuned to the car's suspension motions—eliminating millions of tiny jarring and pitching movements that bring on discomfort.

Suggestion—try these seats immediately after

sitting in a large domestic car. They're ample and snug. You don't feel like you're sitting in a box of marshmallows. And the individual front seat backrests recline to 4 positions.

The 230S measures decidedly shorter bumper-to-bumper than full-sized American cars. But inside, it actually gives you more room than many. The result of designing a car around its occupants instead of to a stylist's orders.

A word on safety

To Mercedes-Benz, safety is more than token gestures. It is bred into the car's basic design. Example: the body of the 230S is a patented safety feature. Front and rear sections are designed to collapse on hard impact, absorbing shock before it can reach the passenger area.

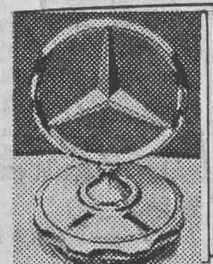

Inside, door handles are recessed. Twelve danger spots—including the window cranks—are safety padded. Small wonder that safety experts term Mercedes-Benz cars "the safest in the world."

Brahmans Bow As Gators Growl

By LARRY GOODMAN
Campus Sports Editor

The University of Florida Soccer Club maintained their undefeated status as they unleashed a potent attack to blank USF 3-0 here last Saturday afternoon before some 250 damp and windswept spectators.

It was the first shutout for the Brahman and left Coach Dan Holcomb's squad with a 4-2 record. Next Saturday USF travels to Winter Park to play the Rollins College Tars.

Meanwhile, South Florida's freshmen dominated cross country team met their fifth defeat Saturday morning at the hands of the University of Miami. The Hurricanes were just that, as they breezed to a 19-36 victory (low score wins).

The 'Canes grabbed four of the first five places in the four mile run over the tough USF course. South Florida's top runner was Ed Woodstuf with a fourth place 23:27 clocking.

Cold, sprayfilled wind and a televised Florida-Auburn football game held down what was expected to be the largest soccer crowd of the season. But those that braved the foul weather saw a valiant Golden Brahman defense hold a vaunted Gator attack scoreless for nearly an hour.

Then, with 13 minutes gone in

the third quarter, the Gators' Max Macchus, of British Guiana, passed the ball to short, lean, Mario Leiva, of Costa Rica. Leiva drilled the ball straight ahead ten yards into the Brahman net past diving goalie Weldon Corbitt.

In the fourth quarter Macchus put the game out of reach for USF with two more goals. The first came with three minutes gone in the quarter, while the second and final score came with five minutes remaining. The agile Macchus zoomed to his second point 20 yards through the air and over the fingertips of Corbitt.

Macchus and Leiva were offensive thorns in the Brahman all afternoon and the defensive play of the Gators' Sam Shaya, formerly of Israel, was magnificent.

John Braley, USF halfback, played well all around while the Brahman's Helge Velde and Darrell Dyal kept the Gators' goalie busy. Velde had an apparent score called back in the first quarter because of an off-sides penalty against USF. Corbitt made several excellent saves while Brian Holt led the defense as usual.

Florida Coach Alan C. Moore called USF the Gators' toughest opponent.

Over a 12-year period, Florida has a 96-8-8 record.

It's Not That Bad

This was the scene when Dr. John Parker received his first set of flu shots from Mrs. Janet Egolf. It'll be repeated tomorrow when second flu shots and tests will be given in UC 226 for persons whose last names begin with letters A thru L. Others will be given Wednesday, with make-ups on Thursday.

Chapel Ministers To Talk Theology

"The Death of God Theology" will be subject for a Sunday, Nov. 7 at 6:30 p.m. in UC 47. Rev. Allan J. Barry and Rev. James F. Keller, University Chapel ministers, will present the program.

The discussion will center on the theology which attempts to develop a sense of faith and

commitment, without any sense of transcendence.

The discussion is the second in a series, dealing with challenges to today's Christian.

Dr. Graham Solomons, professor of chemistry, presented the first program entitled, "The Challenges of Scientific Method to Faith."

Alumni Race Draws Three

USF Alumni Association's election ballots are due Nov. 18, reports Mrs. June Miller, administrative assistant in the USF Foundation Office.

Robert D. Bickel, Jack H. Boyd and John A. Grant Jr. are candidates for president-elect.

may be attached to any of the physical premises of the campus, including trees and lawns.

5. All posters shall be placed on any of the physical plant.

6. All signs should be removed by the candidates by noon, December 1.

7. Any violation of campaign rules will subject the violator, candidate or campaign worker, to appropriate disciplinary action.

The qualifications for President and Vice-President are:

1. Shall have completed 60 semester hours with a grade of A, B, C or D, 12 of which have been completed at USF.

If these hours have been completed at another institution, they must be acknowledged as valid transfer hours by the Office of the Registrar.

2. Shall have been a member of the SA for the trimester immediately prior to the one in which he assumes office.

3. Shall have, when elected, at least a cumulative GPR of 2.5 and shall earn a GPR of at least 2.0 for each trimester of his term.

4. Shall carry a minimum of nine academic hours each trimester.

Qualifications for Senator are:

1. When elected shall have at least a cumulative GPR of 2.25 and shall earn a GPR of at least 2.0 for each trimester of his term.

2. Shall carry a minimum of 12 academic hours in each trimester of his term of office.

The Campus Edition will print platforms of all candidates. These platforms are limited to 150 words and must be in the Campus Edition office (UC 222) by noon, Wednesday, Nov. 17.

Candidates should bring glossy pictures if available. Polaroids will be taken if candidates will sign up in VC 222 by Nov. 15.

SA PRESIDENT LOSES VOTE

Senate Debates on Constitution, Drops, Adds Courses, Credits

The university senate, Wednesday, approved two new courses and dropped one from the physics curriculum, added a philosophy course, and added two new CB courses. They also changed CH 451, Biochemistry, from three credits to four credits, it also continued debate on the USF-AAUP (American Association of University Professors) drafts of a new constitution.

In the physics department these changes: PH 311, Electricity and Magnetism, was

dropped but was really extended when PH 309 and PH 409, Electricity and Magnetism I and II respectively were approved.

PY 315, labeled Plato and Aristotle, was added in philosophy under the direction of Professor Chun Hwan Chen, a world recognized Greek scholar.

Finally under course changes and addition, CB 283 and CB 483 were approved as experimental courses with the recommendation by Dean Edwin S. Martin of the College of Basic Studies.

ies that they be given a trial offering of two trimesters a directive study course.

The title of the two new courses are "Selected Topics in Basic Studies" and is to "provide a mechanism for the evaluation of new ideas for courses in the College of Basic Studies without a formal commitment by the University." Each will give three hours credit.

Meanwhile, nominations for the senate election were submitted for the election Nov. 1-5, and debate on a new senate constitution continued. Articles I, II, and III were approved along with sections one and two of article four. However, the remainder of the constitution (the rest of article IV with Articles V, VI, VII) is extensive and conclusion of debate on this draft is not expected soon.

Dr. Thomas F. Stovall of the College of Education proposed four amendments to Article IV dealing with the "Faculty Senate." Two of the amendments were considered and both were defeated. The Senate voted to keep the franchise from the Deans of each college and from the deans of Academic Affairs, Administration, Student Affairs, Instructional Services, the Registrar and the president of the Student Association in favor of keeping them ex-officio members with access to the senate floor, as originally stated.

The first of Stovall's amendments provided these officials with the vote as well as access. The Senate voted otherwise.

The second proposal, which would give the Senate power to "designate those councils and committees which normally deal with educational policy," was vetoed by the Senate on the grounds that the problem was dealt with adequately elsewhere in the article.

President John S. Allen scheduled the next Senate session for Nov. 10, at 2 p.m. in FH 236.

Vote For U. Senate Nov. 1-5

Voting for the 1966 Senate will take place Nov. 1-5. Eligible to vote in the elections are faculty staff members, administrative, professional and non-academic staff personnel.

Ballots may be secured and cast at: Dean Dean Martin's office for the staff of the college of basic studies; Dean Jean Battle's office for the staff of the college of education; Dean Edgar Kopp's office for the staff of the college of engineering; Dean Charles Millican's office for the staff of the college of business administration and Dean Russell Cooper's office for the staff of the college of liberal arts.

Members of the administrative, professional and non-academic staff will vote in Phyllis Marshall's office.

Two Receive Scholarships

Two USF students received the first installment of \$1,000 scholarship loans from the Florida Bankers Educational Foundation recently.

Joseph Braxton Craven, a junior, and Larry Michael Gieger, a sophomore, were presented the first of four \$250 units by Dr. Charles N. Millican, dean of the College of Business Administration.

Swimming Team Being Organized

An intercollegiate swimming team is being formed for next trimester, not an "intramural swimming club" as was reported in the Oct. 11 Campus Times.

Practice was to have begun last week for the team, coached by Robert Grindy of the Physical Education staff. Students interested in trying out for the team should notify Grindy in Alpha 148, ext. 470.

V-Ball Tiff Set

A round robin women's volleyball tournament will be held today, Tuesday and Wednesday to determine the intramural title.

P. E. Majors, Delta 1-East, and the "Western Bedbugs" were assured of playoff berths, while another berth was to be decided among TriS.I.S., Basketweavers and Fides.

Brahmans Defeat Falcons

The USF cross country team won their first intercollegiate meet Saturday, Oct. 23, defeating the Miami-Dade Junior College Falcons in a 3.7 mile race held in Miami.

The Brahman runners were to have run against the University of Miami last Saturday and take on FSU next Saturday, at Tallahassee.

Lindsey de Guerhey and Ed Woodstuf, gaining first and third places, respectively, paced the USF harriers to a 25-30 victory over the Falcons. Brahman Dave Bower, Bill Keegan and John Williams placed sixth, seventh and eighth, with Miami-Dade settling for the last four notches.

When the Golden Brahman meet FSU next Saturday, they will be out for revenge. The Seminoles, one of the best teams in the state, had downed USF earlier in the season by a large margin.

The order of finish and time:

| | |
|------------------------------|-------|
| 1. Lindsey de Guerhey (USF) | 19:20 |
| 2. Don Hale (M-DJC) | 19:24 |

'Squalus' Captures I-M Swim Meet

"Squalus," an independent team of former high school swimmers, captured a key 200-yard medley relay in record time and placed second in the 200-yard freestyle relay as they won the men's intramural swimming and diving meet.

Squalus set two records, in winning two events, and placed second in two others altogether garnering 49 points.

Bay Campus was second with 38 points. While Bay Campus won three events and was runner-up in two others, they failed to place in the 200-yard medley relay, where Squalus gained a 14 point advantage.

Top league teams were Beta 1-West and Alpha 2-E, while Cratos won a close battle among the fraternities.

The results:

Mrs. Robert L. Allen III

They Wear Bridal Bands

Mrs. Tony R. Blauvelt

Miss Lois Ann Pepper became the bride of Robert L. Allen III Friday evening in Palma Ceia Methodist Church. The Rev. Richard E. Blanchard officiated.

The bride is the daughter of Mr. and Mrs. Robert L. Pepper,

912 Candlewood Ave. Parents of the bridegroom are Mrs. Robert L. Allen Jr. of Tampa and the late Mr. Allen.

Given in marriage by her father, the bride wore a formal gown of white satin and Alencon lace trimmed with pearls. A lace mantilla served as her veil and she carried a cascade of bridal flowers.

Matron of honor was Mrs. Henry B. Bonar Jr. of Bogota, N.J. Miss Mary Pepper of Jacksonville was bridesmaid and Miss Nancy Pepper served as flower girl. The attendants wore gowns of pink chiffon and satin and carried long stemmed red roses.

Best man was Roy C. Acuff of Hendersonville, Tenn. Maj. Hartsell Phillips of Clarksville and Roy N. Acuff, also of Hendersonville, were ushers. Ring bearer was Jackie Pepper.

Mr. and Mrs. Allen left for a wedding trip to Jamaica after a reception in the church social hall. They will live at 323 Bayshore Blvd.

★ ★ ★

A double ring ceremony in Northside Baptist Church united in marriage Miss Lois Marie Pettigrew and Tony Ray Blauvelt Sunday afternoon. The Rev. John Sible officiated.

Mrs. Blauvelt is the daughter of Mr. and Mrs. A. D. Pettigrew of Ruskin. Parents of the bridegroom are Mr. and Mrs. L. Blauvelt of Westport, Ind.

Silk peau de sole and Alencon lace was the bride's choice for her formal gown and chapel train. A triple lace crown held her illusion veil and she carried a bridal cascade.

Mrs. Frances Hereford served her sister as matron of honor. Miss Annie Turner of Waukulla was maid of honor. Other attendants were Miss Faye Blauvelt, sister of the bridegroom; Miss Frances Vinson of New Port Richey, Miss Betty Powell, Miss Sandra Crosby, Miss Mary Moore of Miami and Mrs. Annette Muse. They wore gowns of green and gold satin in Empire style.

Best man was Terry Smyser of Greensburg, Ind. Gary Wilson of Westport, Bill Hereford, Terry Elsbetty, Cliff Sabin, Claude Williams Jr., Terry Lee and Arthur D. Pettigrew II were groomsmen.

A reception at Bahia Beach Ballroom followed the ceremony. After a wedding trip to the Smoky Mountains, Mr. and Mrs. Blauvelt will live in Louisville, Ky.

Driftwood Garden Club meets at 8 p.m., Wednesday, at the Garden Center.

Once Again A Dry Cleaner Saves the Day!

By "BILL" TIDWELL

For years drycleaners have been going through customers pockets and have found everything from false teeth to diamonds. The drycleaner is not being snooty, just helpful. If he didn't perform this extra service, forgotten lipsticks or ballpoint pens could permanently discolor your favorite dress or suit. The drycleaner's search not only helps individuals. Once it helped a "Bill" Tidwell nation.

The National Institute of Drycleaning reports that a drycleaner saved the day for a king. The King of Thailand, King Phumiphol Adulyadej left a state speech in a suit sent to the cleaner via an aide. However, the alert drycleaner discovered the speech, realized its importance, and returned it in time for the King's state address the following night.

The Institute requests that be ye king or peasant, you can help your drycleaner by carefully emptying your pockets before you take clothes to the cleaner.

One of the outstanding differences you'll find at Spotless Cleaners and Laundry is the personal touch given your garments—they're not just cleaned, they're groomed.

Spotless, home of SANITONE Master Dry Cleaning, has 17 stores in and around Tampa to provide you with fast, efficient, quality service. Look in the yellow pages for the location nearest you.

Ruskin Chamber Plans Building

RUSKIN — A new building for the Ruskin Chamber of Commerce has been voted unanimously by members.

H. P. Porter, chairman of the building committee, estimated it would cost \$2,135.00 to close in the front porch of the present building to make a modern office, or between \$6,000 and

\$8,000 for an entirely new structure. After discussion at last week's meeting the directors and members thought it feasible to set up a fund raising program for a new modern facility. A building fund committee will be named by Eugene McRoberts, chamber president, with con-

struction to go ahead as soon as financially possible.

Named to a nominating committee were Alex MacKinnon, McRoberts, and Glenn Marshall. They will present a slate of six names at the November meeting.

Meeting dates for November and December were set up one week because of the holidays.

Music Course For Teachers

A music short course for the nursery school and kindergarten teachers will begin Tuesday at the University of South Florida. Sponsored by the USF Center for Continuing Education, the beginning session will be held at 7:30 p.m. in room 102 of the Fine Arts Building on the Tampa Campus.

Dr. Virginia A. Bridges, assistant professor of music education at USF, will be instructor for the non-credit course, emphasizing practical application of skills needed in teaching music to the pre-schooler.

Reminder to Drivers

The county judges today reminded all persons born in November who hold drivers' licenses expiring this month that they should renew them during November. All licenses are now renewable for a period of two years.

How come 700,000 people in Florida are insured by Metropolitan Life?

More and more of your neighbors are training a sharp eye on the future. In the process, they're discovering how useful Metropolitan's modern, diversified lineup of plans and policies can be.

For instance, Metropolitan has a plan that guarantees you an income as long as you live. Even if you live to be 110!

New-life income of 9% for men 65

If you're a man about to retire at 65, our new rate of payments on straight-life annuities can guarantee you an annual income for life—derived from principal and interest—of 9% of the purchase price.

And, although women outlive men, we can provide almost as good a return for them. We also have annuities for couples, provid-

ing income for as long as either one lives.

Note especially the word *guarantee*. For the amount you pay in, only an annuity gives you so large and so dependable a retirement income—*guaranteed* for life.

And remember, too, you now get the advantage of Metropolitan's best annuity rates in a quarter century.

Exceptional value for younger men and women

The younger you are when you invest in an annuity, the more it builds up for you over the years. Now's the time to get started.

Annuities are just part of the up-to-the-minute selection of life and health insur-

ance plans you'd expect from America's leading life insurance company. Get the facts from your Metropolitan adviser.

More choose Metropolitan Life *millions more than any other company*

There are many reasons why Metropolitan Life insures 45,000,000 people—more than any other company. One good reason is local, personal service from the Metropolitan advisers at your nearest office:
