taxation for the purpose of carrying on the City Government for the current year; and a further sum of \$1,302,498 48 is needed to conduct the affairs of the county properly—a total for city and county purposes of nearly five and a half millions of dollars. This estimate is highly encouraging compared with that of 1888, when the percentage of taxation to the assessed value of real and personal estate in the city was 2.69; whereas for this year it is only 1.96. The value of the real and personal estate of the city is assessed for the present year at \$1,000,000,000—an increase of \$10,000,000 over the assessment of last year, and something above the average percentage increase for many years past.

Some people entertain erroneous ideas respecting the monster chorus of five thousand voices to be heard at the Boston Peace Jubilee. The volume will, of course, be greatly increased, but the distance at which it can be heard will not be increased by the multiplication of voices. A contemporary well says: "Those who are familiar with this subject will remember the common illustration of throwing a stone; a thousand can cast their several projectiles no further than the strongest or most skillful of the mass; no one arm helps on the stone cast by his neighbor. A thousand trumpets sounded at once will give a signal no further than one blast from a single instrument. At a great musical festival held in Germany several years ago, there was a general disappointment at the effect produced by the massing of choruses. Swelling the volume does not increase the distance which might be reached by the utterance of a single voice. A well-managed chorus has a grand effect upon those who sit within a proper compass; but multiplying the voices will not fill a vast assembly room in which one fine solo voice could not be heard to advantage. All the efforts to overcome this limit of space have utterly and signally failed."

DEPUTY COMMISSIONER DOUGLASS makes the following very clear distinction between a pedlar and a seller of tobacco by sample as agent for a firm. In reply to an inquiry on the subject, he says: "In my letter of May 3, you ask the following questions: 'Are persons traveling from place to place selling cigars by sample required to take out a license both as pedlars and dealers in tobacco?' In answer I have to say that a dealer in tobacco is a person whose business is to sell, or offer for sale, manufactured tobacco, snuff, or cigars. A person, therefore, whose business it is to sell, or offer for sale, cigars, is regarded as a dealer in tobacco, and if his annual sales exceed \$100 he is liable to a special tax as such. A pedlar is a person who travels from place to place selling goods; a person, therefore, who peddles cigars is not only a dealer in tobacco, but also a pedlar, and is consequently liable to the special taxes imposed upon both. A person, however, who is simply the agent of a manufacturer or dealer, and who travels as such, taking with him samples of cigars, which he does not sell, but upon which he collects orders for his employer, from whom he receives a stipulated salary, is not regarded as a pedlar or dealer in tobacco."

COMMISSIONER DELANO will receive the unanimous thanks of the trade for the following "opinion" communicated to the U. S. District Attorney at Boston. Of course, any person of common sense, and common honesty, could not very well take any other view; but then the decisions of the Internal Revenue Bureau are not always marked by these qualities. The Commissioner says that in his opinion, in the absence of any provision of law requiring tobacco, snuff, or cigars forfeited to the United States, and sold by order of the court, or under process of distraint to be sold subject to tax, all such goods must be sold free of tax; that is to say, if the Government offers for sale tobacco, snuff, or cigars which are liable to be stamped, but which at the time of sale have no such stamps affixed, then it becomes the duty of the Government, and not of the purchaser of the goods, to affix the stamps. If the goods are not liable to stamps at the time of sale, but may become liable at some future time, as in the case of plug tobacco, which will have to be stamped on and after July 1, before being sold, or offered for sale, then the goods are sold subject to the contingency, and the purchaser having the goods on hand on and after that date would be required to affix stamps before selling, or offering the goods for sale. All smoking tobacco, fine-cut chewing, snuff, and all cigars in the hands of dealers, or other persons, must now be stamped before they can be delivered to a purchaser. As the law has provided no means for furnishing United States Marshals with stamps to be affixed to tobacco, etc., which he sells by order of the court, the marshal must place upon the goods he sells his brand, and give the purchaser a certificate setting forth the circumstances of the sale, with the description of the kind and quality of goods, and such other facts as will enable the purchaser to identify the goods if they should ever after be called in question for want of proper stamps, or any other informality in packages, labels, caution notices, etc.

We are glad to see Commissioner Delano come out flat-footed against the stamp nuisance in penitentiaries. In a letter to the Commissioner of Internal Revenue at Lancaster, Pa., he says: "I have received your letter of the 25th ult., enclosing a sample of the stamps issued by the warden of the Western Penitentiary of Pennsylvania, to be affixed to boxes of cigars made in said Penitentiary, instead of United States internal revenue stamps, and asking to be informed under what authority the stamps are issued, and what course you are to pursue should cigars thus stamped be found in your district. In reply, I have to say that this stamp, or semblance of an internal revenue cigar stamp, is issued without the slightest authority or warrant of law, if not in direct violation of law. Section sixty-nine of the act of July 20, 1868, declares that the Commissioner of Internal Revenue shall cause to be prepared suitable and special revenue stamps for the payment of the tax on tobacco and snuff, and section eighty-seven required him to cause like stamps to be prepared for the payment of the tax on cigars. These stamps are to be affixed and cancelled before any tobacco, snuff or cigars can legally be removed from the manufactory, or place where they are made. The absence of proper revenue stamps on any box of cigars sold, or offered for sale, is made notice to all persons that the tax has not been paid thereon, and such cigars are declared to be forfeited. The proper revenue stamps are those, and only those, authorized by the sections of law I have quoted, and prepared and issued under the order of the Commissioner of Internal Revenue. All others are either false, fraudulent, and counterfeit, or mere semblances of stamps issued without authority of law, and not to be recognized by any internal revenue officer as affording protection, or giving currency, to cigars removed from the manufactory, or place where they are made, or offered for sale without the proper stamps. The government of the United States will not recognize the right of any body, corporate or politic, whether city, county or State, to interpose in behalf of goods manufactured in prisons and penitentiaries under cover of a false stamp, or the semblance of a government revenue stamp, and authorize the removal and sales of goods manufactured without stamps and without the payment of the tax which Congress has imposed. You are, therefore, instructed to treat all cigars which may be found in your district bearing only such a stamp as you enclose, or not having affixed and cancelled a proper internal revenue stamp, as liable to forfeiture under section ninety, of the act of July 20, 1868; and the person selling, or offering cigars so stamped, is liable to the fines and penalty imposed by section eighty-nine of the act of July 20, 1868. And further, you are authorized and instructed to seize all cigars so stamped which may be found in your district, and institute the proper proceedings to have them condemned and sold as provided by law."

## THE TOBACCO MARKET.

## DOMESTIC.

## NEW YORK, June 8.

**Western Leaf.**—The market has been less active since the 1st inst., but firm at previous quotations. The sales, amounting to 899 hhd., have been in numerous small lots, and we class them as follows: 168 hhd. for the North of Europe, mostly Clarksville; 20 hhd. for the South of Europe; 132 hhd. for Spain and the Mediterranean; 15 hhd. for Canada; 71 hhd., mostly for export; 182 hhd. to city jobbers; 133 hhd. to cutters, principally old crop; and 88 hhd. to manufacturers.

**Virginia Leaf.**—There is a little strengthening in prices here to correspond with the advance in Virginia. The sales, however, are light.

**Seed Leaf.**—Trade opened fairly for the month, with no features worthy of special comment. The reported sales amounted to 448 cases, which compare as follows with recent weeks:

Week ending	May 8	May 15	May 22	May 29
144 cs.	144 cs.	383 cs.	576 cs.	254 cs.
June 5				448 cs.

The details of the sales are as follows: 16 cases 1867 Connecticut at 75c; 7 cases do. at 52c; 10 cases 1866 Connecticut at 18c; 23 cases do. at 20c; 134 cases 1868 Ohio fillers on private terms; 21 cases do. at 8c; 108 cases Pennsylvania on private terms; 129 cases 1868 Ohio at 13c.

**Spanish.**—There has been a little more activity in Spanish during the week, but the absence from the market of certain styles of Havana that are wanted, has a tendency to restrict trade. The telegraph announces that the crop in the Vuelta Abajo district has been successfully harvested, but it is thought by dealers here that business will remain quiet until July or August, when a sudden and general advance will take place—a kind of *sauve qui peut* among the trade at large—who will then come to a realizing sense of the fact that Spanish tobacco will, for some time to come at least, be scarce. How far these expectations will be realized, we do not care to predict. All we know now is, that the business at present is purely a legitimate one, and not at all speculative in its character. The cigar manufacturers, meanwhile, complain that they cannot get good Havana fillers for their factories. Wrappers, there, are in profusion, but these are of little use to the manufacturers of seed and Havana. As to the recent events on the Island, it would seem as if affairs are approaching a crisis. The Spanish volunteers appear to have taken possession of the reins of authority, and until the arrival of the new Captain-General, Caballero de Rodas, will probably have it all their own way. Meantime, the insurgents are being constantly reinforced, and if the rains do not commence too soon, some definite result may be immediately arrived at. The sales of the week included 250 bales Havana at \$1.01 95, and 200 bales Yara I and II cuts, at 80c. for the I cut and \$1.10 for the II cut.

**Manufactured.**—The sales last week were chiefly in a small jobbing way—a very legitimate, if not a very brilliant, style of transaction. There is but little new bright work on the market, but the supply of bright lbs. of 1867 is not yet exhausted, several leading houses still having a small stock. The run on these goods recently has been quite decided, and prices have improved. As to black work, there is said to be a scarcity of medium tens with firmer prices, nothing being now on hand less than 20c., and the general figures being 21c. @ 22c. There is no denying that black work generally is held at higher figures than it was two months ago. This is doubtless owing to the scanty stock and the light receipts. So many of the Virginia and Brooklyn factories are now working on orders that there is not the usual supply coming forward. Added to this cause is the fact that many manufacturers have gone out of the business, and the present lightness of stocks is readily explained. The truth is, that the manufacturing business in Virginia has so changed since the war, that the market here will probably never again present the phenomena of former years. Then the business was almost entirely conducted on the credit system. Labor was obtained on credit, and our commission houses advanced largely to their customers. Thus men of very moderate means could enter upon the business of manufacturing, and might even work at a positive loss for a certain period. Now all is changed. Labor, instead of being obtained on a long credit, is as much a cash article as it is in our Northern cities. The slave system has passed away, and with it the possibility of manufacturing tobacco on little or no capital. Now only men of means can engage in the business, and these are not so dependent upon our commission houses as formerly. They seem indeed to be aiming to work directly for the consumer, and to avoid transactions as much as possible with middle-men. Whether this will foster the trade in manufactured tobacco, or the reverse, we will not now stop to inquire; but certain it is that there is little danger of our seeing this market overstocked, as was sometimes the case under the old order of things. Not being thus overstocked, the tobacco sent here should command better prices, and doubtless will when the recent depressing influences have ceased to affect the market.

We hear a rumor—which we think must be only a rumor—that the Internal Revenue Bureau intends to again change the warehousing system and establish only one bonded warehouse for tobacco in each port. What should have caused the contemplation of this extraordinary step, presuming it to be contemplated, we cannot imagine. So far as we know, the present arrangement is now working satisfactorily to all parties. The permission to resume the prominent features of the Class B warehouses was a concession gratefully appreciated by the firms to which the permission was granted, and as they are at the expense of paying, through the collector, the storekeepers employed, we do not see how Government could be subjected to any loss by the arrangement. Besides, recent events have shown that it is anything but safe to trust to any one who may take it into his head to keep a bonded warehouse. The recent "breach of trust" in Brooklyn proves that even good reputations are no safeguard, and that unless the storekeeper is a man of means—one from whom damages could be collected—entrusting him with one's property is at least hazardous. In this case Government asks the trade to confide its property to men who may be perfectly trustworthy, but who are not generally men of property, and who do so, as a rule, give any two heavy bonds before entering into the business. It is very easy to order that tobacco shall be stored in this or that warehouse, but it is not so easy to make the trade perfectly sure that its property is entirely, and in every contingency, safe. If Government attempts to dictate in this matter, it should at least make the receptacles of the goods safe beyond a peradventure. It is a serious inconvenience for our merchants to store their tobacco in a single public warehouse, and the authorities should not willfully add to this inconvenience the danger of loss.

**Smoking.**—Business generally has been somewhat quiet, but large sales of medium grades have been made with some common and fine goods. It is also interesting to note that many orders have been received recently from the South, and it is hoped that they are the precursors of the revival of trade in the legitimate article in that section.

**Cigars.**—There is a little improvement in the better class of cheap goods, as also in the finer qualities. The manufacturers are steadily at work, and many of the largest establishments are working up to their great capacity.

**Gold** opened this morning at 183, and at noon had fallen to 182.

**Exchange.**—The market is without change from our last report. We quote: 60 days' Commercial Bills on

London, 108½@108¾; Bankers' 109@109¼; Bankers' short sight, 109½@110¼; Antwerp, f. 5.25@f. 5.14; Hamburg, 35½@35¾; Amsterdam, 30½@30¾; Bremen, 77½@78.

**Freights.**—The market continues animated, but the business fell off somewhat from last week's amount. The current quotations are: London, 20s. @25s.; Liverpool, 20s. @25s.; Bremen, 20s. @25s.; Antwerp, 30s.; Rotterdam, 25s. @30s.; Glasgow, 25s. The engagements were: To Liverpool, 175 hhd. at 22s. 6d.; to Bremen, 140 hhd. at 17s. 6d. @20s., and 300 cs. at 12s. @15s. Chartered: A Russian barque to Leghorn, with 600 hhd. at 31s. 3d.

**PADUCAH, Ky., June 1.**—The Herald says: "The high prices that have been current in our tobacco market for the last three weeks have encouraged farmers to hurry their crop into market, and as a consequence receipts and sales have been very large, making the trade more lively than ever before in Paducah. Up to the 30th ult. 8,800 hds. have been sold here, showing an excess of 700 hds. over the entire sales of last year. Total receipts this season will no doubt reach 13,000 hds., an increase of about sixty per cent. over those of last year. The receipts lately have been especially liberal from the Cumberland River, and the sales for the week ending May 29th show the handsome figures of 738 hds. at very high prices. For the week closing the 29th, Settle Bros. sold 358

hds., at the following prices: 10 hds. bright wrappers, \$32 to 125; 124 hds. good to fine shipping, 14 50 to 11 50; 89 hds. medium leaf, 11 to 10; 57 hds. low leaf, 10 to 8 50; 78 hds. lugs, 8 50 to 5 35. This shows the largest week's sales of the season. The demand continues good for all classes, particularly low grades. Our sales for the season, up to the evening of the 31st, were 8,899 hds.—4,449 by Hale, Buckner & Terrell; 4,440 by Settle Brothers."

The same paper of the 5th inst. has the following: "The market continues brisk, with a good demand for all grades. The receipts from the country, per wagons, have not been as large as usual for the past two or three days, on account of the heavy rains. The sales yesterday, at the two warehouses amounted to 148 hds. Settle Bros. sold 81 hds., at from \$7.50 to \$80. Lugs, \$7.50 @ 90; shipping leaf, \$10 @ 12.75; bright wrappers, \$14.50 @ 30. **PHILADELPHIA, June 5.**—The business effected in both leaf and manufactured has again been of a very restricted character, says the Commercial List, but holders are firm in their views. **RICHMOND, June 5.**—Mr. R. A. Mills, tobacco broker and commission merchant, reports:  
In reviewing our market for the past week, I have to note breaks very full, and prices fully sustained under the heavy offerings, with a decided upward tendency. Notwithstanding the very heavy offerings, the market rules firm, and the daily offerings are taken by the trade at our quotations. The offerings of bright wrappers were large to-day, and brought very high prices. One tierce was sold by W. K. Martin & Co. to Jos. D. Dill for \$103.50 per 100 lbs., the highest price that has been paid in our market this season.

A late number of the *Whig* says: "Dark wrappers of quality are in demand and command high prices. The advance in bright and yellow tobacco is quite heavy. Even badly frosted kinds have felt the influence of the advance. The advance is attributable mainly to the very favorable condition of the manufacturing interest. When that is healthy the market is healthy and active. The manufacturers are all doing well now, and this gives tone to the market. The only drawback on the general sales is in English tobacco. In this there is no perceptible advance. The English markets are low, and afford few inducements to shippers of Virginia tobacco. We deem it proper to modify the opinion heretofore expressed, that prices would be uniform through the season. We did not anticipate so heavy a demand for working kinds, or so much improvement in the manufacturing interest. Our views were based on the general ordinary demand. The aggregate of orders now to be filled by our manufacturers is so large that an active competition must prevail, and while that continues the market will be buoyant."

Below I give the transactions for the week—1,553 hds., 278 tcs., and 59 bxs., within range of the following quotations: Lugs, dark working and shipping, 7c @ 9c; leaf, do. do., 8c @ 10c; lugs, bright working, 8c @ 12c; do. do., fancy do., 15c @ 40c; leaf, bright working, 12c @ 20c; do. fancy bright, 25c @ 60c; do. do. extra, 75c @ \$1.05.

**ANTWERP, May 22.**—The demand for North American tobacco has again continued regular during the past week; and, as the market is well supplied at present, the transactions have been large, amounting to 190 hds. Kentucky from first hands. The fine grades are quiet, on account of the high prices asked by holders. European tobaccos move off slowly to satisfy the wants of consumers. The receipts of the week have been: 18 bales from Hamburg, 88 bales from England, and 11 hds. from Holland by the interior. To-day there sold 75 hds. Kentucky of the new crop, from the cargo of the steamer *City of Lima*, which has just arrived.

**BREMEN, May 22.**—The market has been inactive during the past week. Of North American tobaccos there were sold 75 hds. Kentucky, 40 do. strips, and 43 cs. seed leaf, besides, to arrive, 40 hds. **LONDON, May 22.**—Messrs. Wm. BRANDT'S SONS & Co., by special report to THE TOBACCO LEAF, say: Our market for American tobacco during the week has remained quiet, and the transactions have been on a limited scale, the principal sale having been of 30 hds. Missouri leaf at 34d., 44d., 54d., and 54d. per lb.; the other sales were quite in retail. At public sale about 900 bales Japan tobacco were offered, and disposed of at prices ranging from 64d. to 84d. per lb. The *Belina* has arrived from New York with 30 tierces tobacco, besides sundry packages manufactured.

May 29.—Our market for American tobacco during the week has been quiet, and we do not hear of any sales of importance, beyond the disposal of about 20 hds. heated Missouri leaf at 34d. for export. The total sales of the month reach only 500 or 600 hds. The arrivals comprise the *Colta* (s) with 201 boxes, and the *Liverpool* with 4 hds. tobacco, both from New York.

Prentice's Cigar Making Machine.

PATENTED NOVEMBER 20, 1897.

In presenting to the public a machine for the manufacture of cigars, the inventor is fully aware that he

will have to meet and combat opinions and prejudices engendered and continued by repeated failure during

the last twenty years to accomplish the result he has attained. Yet the fact stands patent for all who have

seen or will see, and judge for themselves, that he has invented machinery, simple in its construction and

operation, with which perfect cigars can be made—bunching, binding and finishing them by a continuous pro-

cess, and with a uniformity and precision impossible to be attained by hand. The following constitute some of

its most important features:

1st. The rapidity and uniformity with which cigars are made.

2nd. It effects a saving of ten per cent in wrappers, (which in fine tobacco is a large item.)

3rd. It makes a perfect finish of the end of the cigar. (Practical Cigar Makers will fully appreciate this

special point.)

4th. Every cigar made by it smokes freely, owing to the fact that the filters are equalized and

strengthened by the machinery, and that the head and body of the cigar receive a uniform pressure throughout.

5th. Skilled labor is not required. Any intelligent boy or girl can be taught in a short time to operate it

—two of whom, one at the buncher and the other finishing, can make from 150 to 200 cigars per day.

6th. The machines are not expensive, and occupy not more space than an ordinary sewing machine,

which they much resemble.

7th. Fine cigars made by this machine will cost but \$2.50 to \$3.00 per thousand, made by hand the cost

is from \$10.00 to \$12.00.

To sum the matter up, I now present to the public in this machine an accomplished fact, which has cost me

years of labor, and expense to attain, and which, without equalling, I can say has never before been

reached. Among manufacturers it has long been desired, but scarcely hoped for, that some other means than

hand work might be successfully introduced to economize in the production of cigars. This machine will

not only effect a great economy in manufacturing, but will make a much better cigar than can possibly be

made by hand. I invite the critical examination of the machine by experts, manufacturers, and all others

who feel sufficiently interested to call.

The machine can be seen in operation at 130 and 132 Maiden Lane, and at the inventor's residence.

## THE LOUISVILLE ANNUAL TOBACCO FAIR.

## CLASSES AND PREMIUMS.

## ATTENDANCE AND SALES—A BRILLIANT SUCCESS.

[From our Special Correspondent.]

LOUISVILLE, June 3, 1899.

The readers of THE TOBACCO LEAF in every section of the Union where tobacco is grown, manufactured, or dealt in, as also in England and Continental Europe, will doubtless be interested in having a full account of the Louisville Tobacco Fair, which took place on Wednesday, the 2d inst. The occasion was one which is not likely to be soon forgotten by those who participated in the business excitement, or festive pleasures. From its very inception it was intended to eclipse all former tobacco fairs. The elements of success—liberality, unanimity and energy—were prominently displayed in all of the preliminaries; there was prudence in the selection of the managing committees, liberality in the use of printers' ink, wisdom and elegance combined were displayed in making up the programme of classes and fixing the premiums—in fact, there was nothing left undone that should have been done; and to crown all, and leave nothing to be suggested, the banquet supplied every requisite.

Louisville proudly puts forth the claim of being the largest leaf tobacco market on the continent where tobacco passes from first hands into the market of the world; and on Wednesday last she treated her thousand guests with that regal sumptuousness which demonstrated to all who responded to her invitations, that she is fully aware of the enviable position she occupies, and is ready to do all that the position demands.

It may be well to remark here that Kentucky now stands as first on the list of tobacco-producing States in point of quantity, and those who witnessed the marvelous advances made in the quality of the plant of Kentucky growth displayed at the Fair, unhesitatingly declare that Old Virginia must look well to her laurels, and miserably husband her resources, or be content to admit at a very early day that her tobacco glory has departed, and that the capital of the tobacco empire has been transferred to Louisville.

The Fair, aside from premiums, sales, and banquet, is well calculated to exert a most valuable influence upon the future production of the staple, and from this point of view derives its greatest importance. It brings planters together, and places before them evidences which admit of no cavil, that to cultivate superior varieties of the leaf, to improve the facilities for cultivating, handling, and pricing, are investments which not only pay, but bring such rewards that to continue to cultivate inferior qualities and follow the old methods of handling, is to pursue a policy in direct and unqualified antagonism to their welfare; that they are rapidly abandoning their antiquated ideas there is abundant and cheering evidence, and each annual tobacco fair attests the gigantic strides the West is making in the cultivation of the weed.

It is now generally conceded, owing to the backwardness of the spring, that the Fair was held too early in the season, and that at a later date the showing, in point of quantity, would have been more satisfactory. This is possible, but the Fair was designed not so much for the exhibition of vast quantities of tobacco as to arouse a laudable emulation in the matter of quality, and in this essential all was accomplished that could have been desired. In the

there was a splendid exhibition of bright wrappers, grown in Old Kentucky. Ballard and Hart counties were represented in this class, and the samples were pronounced very superior. The judges for this class were men well qualified to give opinions, and were as follows: E. Holbrook, Sr., Daniel R. Musselman, Wm. Musselman, R. R. Jones, Gold Robinson, Elisha Applegate, W. B. Craddock, R. R. White, E. Holbrook, Jr., R. Barge, L. P. N. Landrum, Col. H. McCraw, Wm. J. Anderson, F. A. Smith—Warrington (Covington).

The premiums amounted to \$450, as follows: 1st premium, \$250; 2d premium, \$150; 3d premium, \$50. The awards were as follows: First premium to H. B. White, Esq., of Hart County, Ky. The hoghead, No. 4,460, was entered by Messrs. Glover, White & Co., of the Boone house, and was sold to H. W. Murrell, at \$131 per 100 lbs. The second premium was awarded to J. M. Richardson, of Hart County, Ky. This hoghead, No. 4,887, was entered by Messrs. Ray & Co., of the Louisville house, and was sold to W. G. Meier at \$56 per 100 lbs. The third premium was awarded to Carpenter, Sturgeon & Co., of Hart County. This hoghead, No. 4,453, was entered by Messrs. Glover, White & Co., of the Boone house, and was sold to R. L. Lewis at \$82 per 100 lbs. In the

the samples were from the Owen County (Ky.) District, including Henry, Tremble, Carroll, Gallatin, and several other counties celebrated for the production of the justly celebrated cutting leaf. Competition was sharp, and the samples were such as to add to the fame of the district. The judges in this class were Messrs. Richard J. Usher, Wm. Ralphy, Jno. M. Dunlap, J. McFall, John Johnson, Jr. (Cin.), Walter Bird (London), Joseph Peterson, C. E. Wood, Th. Schwartz, Geo. Heinsohn, J. T. Tisherwood (Toledo, Ohio).

The premiums amounted to \$400, and were awarded as follows: The first premium was taken by C. B. Golden, of Owen County, and the hoghead, No. 6,539, was entered by Messrs. Spratt & Co., of the Pickett house, and sold to J. J. Bagley & Co., of Detroit, at \$50 per 100 pounds. The second premium was taken by John B. McAllister, of Owen County, and the hoghead, No. 4,521, was entered by Messrs. Glover, White & Co., of the Boone house, and sold to R. Dunlop, of Louisville, at \$41 per 100 pounds. The third premium was awarded to H. Giles, of Owen County, and the hoghead, No. 6,534, was entered by Wm. Spratt & Co., of the Pickett house, and sold to R. Dunlop, of Louisville, for \$31 per 100 pounds. In the

were beautiful specimens of cutting leaf from the Mason and Bracken County Districts, Ky., and all that had been expected, in point of quality of the leaf, was fully realized. The samples were bright and beautiful, and compared well with those from the "Sweet Owen" District. The judges to decide upon the merits of the samples were Messrs. D. Spalding, Chairman; Walter Glenn, H. Worgan, J. P. Heinsohn, J. P. Gairey, (Cin.), Peter Speth, L. Franke, M. J. Eller, B. H. Spalding, (Cin.), M. Mason, (Chicago). The premiums amounted to \$400, and the first premium was given to Elliott & Ashbury, of Mason County; and the hoghead, No. 6,545, was entered by Messrs. Spratt & Co., of the Pickett house, and was sold to R. Dunlop, of Louisville, at \$38 per 100 pounds. The second premium was awarded to Messrs. Broadwell & Bro., of Clermont County, Ohio; and this hoghead, No. 4,912, was entered by Messrs. Ray & Co., of the Louisville warehouse, and was sold to H. W. Murrell at \$27 per 100 pounds. The third premium was awarded to Willie Black, Esq., of Mason County; and the hoghead, No. 6,509, was entered by Messrs. Spratt & Co., of the Pickett house, and was sold to R. Dunlop at \$30 per 100 pounds. In the

the entries were from Daviess, Breckinridge, McLean, Hancock, Ohio, and Meade counties, Ky., and Indiana and Illinois were also invited to compete for the premiums, which amounted to \$150. The samples were highly meritorious, and were conclusive that this section of the State is making rapid advances in the culture of superior leaf. The judges for this class were as follows: Messrs. John A. Faulds, Chairman; Owen

McBride, J. G. Spalding, Charles E. Conly, James Mooney, John Funk, (Henderson); Mr. Van Riper, (Evansville); James Crawford, P. F. Semolin, Robert Timmons, George Bruner, F. Daurman, John Anderson, Ind.; D. L. Wallace, N. Y. The first premium was borne off by P. W. Dohrman, Esq., of Hancock County; and this hoghead, No. 6,453, was entered by Messrs. Spratt & Co., of the Pickett house, and was sold to R. Dunlop at \$31 per 100 pounds. The second premium was awarded to John Hammond, Esq., of Breckinridge County; and this hoghead, No. 4,522, was entered by Glover, White & Co., of the Boone house, and was sold to H. W. Murrell at \$24 per 100 pounds. In the

which was a sweepstake for cutting, for all districts, was one in which more than ordinary interest was manifested. The contest between Owen, Mason, and Bracken counties was sharp, the rivalry honorable, and the acquiescence in the decisions prompt. The judges for this class were Messrs. James Clark, M. B. Nash, R. L. Lewis, W. McAdams (Hawesville), W. H. Frayer, W. B. Loughridge, Jas. Serb, Wm. D. Spalding, Fred. Besuden (Cincinnati). The premiums in this class amounted to \$400, and were for the first, second, and third best 5 hds. of cutting leaf, and were awarded as follows: The first premium in this class was awarded to J. W. Vallandigham, Esq., of Owen County, and the 5 hds., Nos. 3,691, 3,692, 3,693, 3,694, and 3,695, were entered by Ronald, Bro. & Co., of the Ninth-street house, and were sold as follows: W. W. Murrell, 1 hhd. at \$25 per 100 lbs.; R. Dunlop, 1 hhd. at \$26 per 100 lbs.; R. Dunlop, 1 hhd. at \$27 per 100 lbs.; R. Dunlop, 1 hhd. at \$24 per 100 lbs.; Lorillard, 1 hhd. at \$25 per 100 lbs. The second premium in this class was taken by Jas. A. Stafford, Esq., of Owen County, and the 5 hds., Nos. 2,225, 2,227, 2,230, 2,250 and 2,251, were entered by Messrs. Page, Ronald & Co., of the Farmers' house, and were sold as follows: Schmidt & Co., 1 hhd. at \$21; Schmidt & Co., 1 hhd. at \$22; R. Dunlop, 1 hhd. at \$22; R. Dunlop, 1 hhd. at \$22; R. Dunlop, 1 hhd. at \$24. The third premium in this class was awarded to J. McNeal, of Owen County, and the 5 hds., Nos. 3,773, 3,774, 3,775, 3,776, and 3,778, were entered by Messrs. In the

the entries were for shipping leaf, and was one of the most interesting of the programme. B. Wilson, B. Campbell, W. Falenstein (N. Y.), A. Meier (St. Louis), Blackmore (N. O.), P. Keller (St. Louis), W. G. Meir, Jno. Rodewald, B. W. Boatwright, G. R. Dupuy, W. H. Smith, I. A. Migault, Geo. Burgess (Paducah), Jno. White (Paducah), Col. Lewis (N. O.), T. J. Gorin (Glasgow), who made the awards as follows: The first premium in this class was decided in favor of Althous, Snoddy & Smith, of Hart County, and the hhd., No. 4,503, was entered by Messrs. Glover, White & Co., of the Boone house, and was sold to B. K. Gold, Esq., of Clarksville, and the hhd., No. 3,705, was entered by Ronald, Bro. & Co., of the Ninth-street house, and sold to H. W. Murrell at \$20 per 100 lbs. The third premium in this class was awarded to B. M. Parish, of Hart County, Ky., and the hhd., No. 2,218, was entered by Messrs. Page, Ronald & Co., of the Farmers' house, and was sold to W. G. Meier at \$20 per 100 lbs. The

was for manufacturing black wrapper, which is produced largely in the lower portions of the State. No leaf is more highly appreciated in this market, and always meets with a quick sale. The premiums amounted to \$150, and the judges named were Messrs. Wm. Lindsay, A. J. Musselman, A. O. Bannon, H. H. Willett, M. Cunningham, Samuel Crighton (Cincinnati), A. Beebe (Quincy, Ill.), J. Lindley, Esq., of McLaine County, and the hoghead, No. 4,806, was entered by Messrs. Ray & Co., of the Louisville house, and was bought by W. G. Meier at \$17.50 per 100 pounds. In the

the entries were for cigar leaf, and the specimens offered were indicative that planters are disposed to continue their efforts to increase the luxury of a "good cigar," and in time will leave little to be desired on the part of those who regard a cigar as an indispensable companion. The premiums amounted to \$150. The judges named were as follows: P. Schanzbacher, Chas. Mayer, Mr. Huehlein, M. Leopold, F. A. Gildermeister (Bremen), H. O. Bullock, Mr. Beisehaus, A. Sachs, T. Glover, White & Co., of the Boone house, and were sold as follows: Robinson & Coleman, 1 hhd. at \$29 per 100 lbs.; Robinson & Coleman, 1 hhd. at \$28 per 100 lbs.; Robinson & Coleman, 1 hhd. at \$28 per 100 lbs.; E. Holbrook, 1 hhd. at \$34.50. The

was still another sweepstake, and was open for competition to the entire State of Kentucky, and the premiums were for the first and second best three hds. of tobacco of its class. The following judges were announced, viz.: Messrs. G. Vaughan, S. McPherson, John Brumback, J. G. Hansborough, Wm. Newman, I. R. Aubrey, L. H. Roberts, J. M. Hart, W. S. Machrae, B. P. Claypool, James B. Turnley, E. M. Draine, I. H. Duncan, M. Ottinger, N. Long (Russellville), Tom Mastaine, and J. W. Booth (St. Louis). The premiums were as follows: The first premium was taken by Messrs. Alstner, Snoddy & Smith, of Hart County, and the three hds., Nos. 4,495, 4,496, 4,497, were entered by Messrs. Glover, White & Co., of the Boone house, and sold as follows: R. L. Lewis, 1 hhd. at \$39; R. L. Lewis, 1 hhd. at \$37; E. Holbrook, 1 hhd. at \$35.50. The second premium was awarded to Wilson, Yancy & Co., of Barren County, and the three hds., Nos. 3,732, 3,715, 3,761, were entered by Messrs. Ronald, Bro. & Co., of the Ninth-street house, and sold as follows: Rejected, 1 hhd. at \$18 per 100 lbs.; rejected, 1 hhd. at \$14.50 per 100 lbs.; Robinson & Coleman, 1 hhd. at \$23.50 per 100 lbs. The

was to enable Old Virginia, or any other State except Kentucky, to win fresh laurels by the exhibition of their samples. The first premium, \$100, was given by Geo. W. Weeks & Co., and the second, \$50, by the trade. The judges in this class were Messrs. J. S. Willett, Robert Dunlop, Jr., E. S. Read, D. W. Bragg, A. P. George, Lloyd Haynes, B. Musselman (Cincinnati), J. W. Hopkins, W. T. Luckadoe, W. A. Bragg, A. S. George, B. H. Lewis, J. R. Peltz (St. Louis). The premiums were awarded as follows: The first premium was awarded to Messrs. P. & E. D. Christian, of Richmond, Va., and the hhd., No. 4,462, was entered by Messrs. Glover, White & Co., of the Boone house, and was sold to R. L. Lewis at \$65 per 100 lbs. The second premium was awarded to W. P. Burrell, of Richmond, Va., and the hhd., No. 6,541, was entered by Messrs. Spratt & Co., of the Pickett House, and sold to R. L. Lewis, at \$44 per 100 lbs. The

was for the handsomest bright hhd. of leaf. The judges were Messrs. Gen. Basil Duke, Maj. Ben Berry, Maj. T. Hawkins, J. Cabel Breckenridge, Wm. Lancaster, Dr. Field (Adair Co.), Col. John Morris, Col. A. K. Long, J. L. Helm, J. T. Berry, John Matthews, W. B. Collins. The judges awarded the premium to B. M. Parish, Esq., of Hart County, and the hhd., No. 3,753, was entered by Messrs. Ronald, Bro. & Co., of the Ninth-street house, and was sold to Robinson & Coleman at \$16.50 per 100 pounds. The awards were on the whole highly approved and received with excellent grace by those who obtained them, as also by the disappointed competitors.

The number of representatives of the trade from other cities was large, but from the crowded state of the hall we were able to obtain only a partial list. From St. Louis we had Messrs. Adolphus Meier, Jno. W. Booth, J. R. Peltz, P. Keller, — Nesbitt, and Captain J. B. Archer. Cincinnati was represented by Messrs. Joseph Powers, Henry Ratterman, W. G. Morris, Samuel Crighton, J. P. Garvey, John Johnson, Jr., J. P. A. Gore, John Powers, and Alexander Mack. From Clarksville, Tenn., Messrs. Clark (of the firm of W. H. Clark & Bros.), Adolphus Meier, B. K. Gold, and E. Withers. The representatives from New York, the metropolis of the continent, were Messrs. T. H. Vetterlein, D. L. Wallace (of Sawyer, Wallace & Co.), and G. W. Falenstein. The representatives of Old Virginia all hailed from Richmond. They were Messrs. W. B. Bragg, J. P. George, E. S. Read, Brian Bragg, C. B. Hunt, and Wm. Bridges. From across the sea, gentlemen were in attendance, and expressed themselves as highly delighted with the occasion. London was represented by W. Bird, Esq. (of the firm of John Stewart, Oxley & Co.). From Glasgow, Scotland, Mr. A. W. Faulds presented his credentials and was a welcome guest. From Bremen also we had the pleasure of meeting gentlemen largely engaged in the trade, and John W. Gildemeister (of the firm of Gildemeister & Reiss), and Julius Migault (of the firm of Migault & Rutger), most effectually represented their far-off land. From the land of Tell we were introduced to Mr. A. Vauthier, of Grancion, Switzerland. The beautiful Southern metropolis, New Orleans, was a represented by Mr. Blackmore, Colonel Lewis, Colonel Clifton Dancy, and R. T. Torian. Toledo, Ohio, was elegantly represented by J. T. Isherwood, Esq., and Chicago by Mr. Mial Mason. These gentlemen contributed largely to the interest of the day. But these were not all. Many gentlemen were in attendance whose names we found it quite out of the question to obtain. From every section of Kentucky the tobacco interest was largely represented: the city of Paducah by T. T. Settle, Geo.

Burgess, Chas. Moequot, John White, Frankfort by Burch Musselman; and Covington, Ky., by Messrs. A. J. Whippis, — Warrington, Samuel Crighton, and Major Withers.

Planters were out in force, and from the moment the first hhd. was sampled until the last hhd. was sold, evidenced the most unflinching interest, giving assurance that when the next Fair is held they will respond not only by their presence, but by still richer displays of progress in the cultivation of the renowned Indian plant. The

was fully up to the magnitude of the occasion—it was all that could have been desired. It was in elegant taste, superbly bountiful, and fully met every requirement, and satisfied every demand. This was expected by all who know the energy and good taste of

MR. GRANDSON SPRATT, of the far-famed Pickett warehouse, who had this important feature of the Fair in charge. Fully one thousand guests surrounded the sumptuous board, and the edibles and viands were such as did honor to the trade, and added fresh laurels to the firm of Messrs. Carvin & Co., of Walker's Exchange, who furnished and presided at the festive banquet.

The entries for the Pickett amounted to 552 hds. Messrs. Spratt & Co., proprietors, entered 239 hds., and took ten premiums, as follows: 2d class, first premium, \$250; 2d class, third premium, \$50; 3d class, first premium, \$250; 3d class, third premium, \$50; 4th class, first premium, \$100; 5th class, first premium, \$100; 6th class, second premium, \$50; 9th class, first premium, \$150; 10th class, second premium, \$150; 13th class, second premium, \$50; total, \$1,200.

THE NINTH-STREET HOUSE, Messrs. Ronald, Bro. & Co., proprietors, entered 89 hds., and took seven premiums, as follows: 5th class, first premium, \$250; 5th class, third premium, \$50; 6th class, second premium, \$100; 10th class, first premium, \$300; 10th class, third premium, \$100; 12th class, second premium, \$50; 14th class, first premium, \$100; total, \$950.

THE FARMERS' HOUSE, Messrs. Page, Ronald & Co., entered 34 hds., and took two premiums, as follows: 5th class, second premium, \$100; 6th class, third premium, \$50; total, \$150.

THE LOUISVILLE TRADE, The sales of the premium tobacco was very spirited, and occupied about three hours. The excitement was just sufficient to make the bidding pleasantly lively. The general resident buyers, proprietors of factories, and manufacturing establishments, were out in force, and as a matter of reference for your large number of readers, we will give you the following list, which will still further serve to demonstrate the importance of Louisville as a leaf tobacco market:
