MISS UNIVERSE VISITS USF CAMPUS

Miss Universe, Linda Bement of Salt Lake City, chats with some of USF's coeds during a brief visit to the campus last week. Left to right: Joan Farnum, Marlene Hennis, Miss Universe, and Carol Martin.

Final Exam Schedule

Final Examinations—Spring 1961

It is the policy of the University of South Florida that there shall be final examinations for all courses. The following schedule will govern the date, time and place for final examinations for the Spring Semester, 1961. Students should bring their student identification card with them to all final examinations.

Finals for ALL sections of Physical Education, Developmental Reading and for ALL sections of Music will be scheduled by those departments, and students will be notified of the time and place of the examinations.

Exam Schedule: Non-Basic College Courses

IMPORTANT! Functional Foreign Language students will report to the appropriate station in language laboratory (C1081) for oral part of Final Exam at some time between the hours of 8:30 a.m. to 4:30 p.m. on Wednesday, June 7, or 9 a.m. to 1 p.m. on Thursday, June 8. Failure to report during these hours will mean a failing grade in that portion of the examination.

May Has Big Social Calendar

May will be another busy month for social clubs and social events at USF.

USF's first formal dance, "Spring Fantasia in an Oriental Garden" was held Saturday in the Ballroom of the University Center. It was a gala affair, which the University Center dance committee hopes will become an annual spring tradition. Two \$25 scholarships are being supplied by the Fides Girl Social Club as their service project.

"Springtime, USF," a fashion show sponsored by the Glamorous Club was held here at USF on May 1.

As their service projects the Delphis worked on beautifying the Library Patio, and also took part in the cancer drive in this area.

The Epelta Boys Social Club have chosen their colors. They are to be black and white.

The Tri-SIS Win Field Day will be presented with an engraved plaque for their outstanding performance in the Field Day held here at the University on April 22. The Tri-SIS placed first in the Women's Division.

The Paideia are sporting their clubs new sweatshirts. The sweatshirts are black and bear the club name in white across the front.

The Aretes will be host for the "Chevalier Formal to be held at Silver Lake Country Club on May 12. Invitations have been extended to 40 USF students, faculty, and guests.

The first to establish such a tradition, the Aretes plan to make "their" spring formal an annual event.

Three From USF Attend Conference

Dr. Frank H. Spain, registrar, and Cecil C. Brooks, director of admission, represented the USF at the 47th annual meeting of the American Association of Collegiate Registrars and Admissions at Miami Beach.

Dr. John S. Allen, USF president, was among the major speakers at the conference.

CAMPUS ROUNDUP

Iowa's San Dee Sends Her Picture

By CAROL MARTIN
UNIVERSITY OF SOUTH FLORIDA—In reply to student requests Miss San Dee Pasker of Monticello, Ia., who dropped USF students a note a few weeks ago asking for information about the South Florida campus, sent her picture. Miss Pasker, who plans on registering for next fall, is quite enthused and would like to correspond with students on the details of student life and the "wonders" of campus life. Again, Miss Pasker's address: 102 N. Main St., Monticello, Iowa.

University of Miami—All 24 UM fraternities have voted to stop first-semester freshmen from rushing and pledging. The self-imposed restriction, to go into effect next spring, will put an end to the traditional big rush and pledge season every fall.

Florida Southern College—Tommie Sue Montgomery is one of 18 college students in the country selected to participate

The University Symphony Orchestra, University Concert Band, and University Choirs, will present a concert preview Wednesday in the Teaching Auditorium-Theatre, at 2 p.m. This program will include a light music selection from each organization which will be included in their respective programs for the month of May.

Alpheus Koon, artistic director of Tampa Civic Ballet, will be the speaker at a comprehensive discussion in the Teaching Auditorium-Theatre at 11 a.m. and 8:30 p.m. on Thursday, May 11. He will discuss how a composition in the medium of classical ballet is accomplished; an explanation to the layman in simple, non-technical and understandable language some of the fundamentals of an art that is to many remote and incomprehensible.

The University Symphony Orchestra, under the direction of Edward Preodor, will present its last concert for this semester, May 16, in the Teaching Auditorium-Theatre. Cynthia Wentz will play the Mozart "Piano Concerto in A Major" accompanied by the orchestra. The orchestra will present a program of symphonic music which will include Beethoven's "First Symphony; the Overture to the Secret Marriage" by Cimarosa; and the Bach "Brandenburg Concerto" for solo flute, trumpet, oboe, violin and string orchestra. This program will be presented at 8:30 p.m.

A panel discussion entitled "Career Opportunities in Radio" will be presented in S-100, Thursday, May 25, at 11 a.m.

The University Choir and the University Community Chorus will join together to present a program of choral music which will include part of the Bach cantata, "God Is My King," sung in German; Schubert's "Mass in G Major," and other choral compositions. The band and specific instruments from the orchestra will assist in some of the selections. The concert will be at 4 p.m. May 28 in the Teaching Auditorium-Theatre.

The public is invited to attend these events with no admission charge.

The catalogue for the fall term will be ready in June, according to the office of evaluation services and institutional research. The catalogue, which is now being prepared, will list courses to be available to students through the entire four year program.

Some courses listed in the catalogue on the junior and senior levels of study are only in the planning stages, and may or may not be given. The questionable junior courses will be designated by a single asterisk and those courses on the senior level in the same category will also be designated.

Experience is not necessary to be on the staff. However, the student must maintain a 2.0 average. Selection of the staff will be subject to the approval of the Editorial Board and faculty advisor.

Staff positions will be appointed before the end of this semester. Incoming freshmen will be permitted to join the staff, however, sophomores are expected to hold key positions.

Applications for membership will be available until May 12, 1961, at the University Center Information Desk. An organizational meeting will be held after May 12 for all applicants.

Participating were some 70 students from Chipola, Gulf Coast, Manatee, Orlando, St. John's River, St. Petersburg and Palm Beach Junior Colleges.

University of Miami—Dr. Fabien Seitzky, UM Symphony conductor, was signed recently to direct seven performances of the opera "Carmen" in the Verona (Italy) Arena this summer.

University of Florida—Because UF's present constitution does not accurately reflect the operation of the school, the document is undergoing an extensive revision program. The new revision, now nearing completion, will enlarge the roll of the senate in the university's operations.

Harvard—Students at this ivy-walled institution went on strike last week because there will be no sheepskin for future graduates. In the future officials say the diplomas will be on just a "good grade of paper."

One student made the suggestion each student acquire a lamb and raise it to sheepskin by graduation, then prepare it for the printing presses, meanwhile holding down the coat for the school. From the officials, "No comment."

Palm Beach Junior College—The Alpha chapter of Phi Rho Psi, a national honorary speech and forensic society at PBJC, hosted the First Annual Invitational State Junior College Tournament on April 28-29.

Florida State University—The UF has been awarded two Rockefeller Foundation Grants amounting to \$193,000 for study in the fields of history and political science.

University of Miami—How communities and schools can cooperate in improving school health programs will be the subject of a four-week workshop for school health coordinators beginning at the University June 19. Similar programs will be offered at the

University of Florida, Florida State University and Bethune Cookman College.

The Calvin W. Campbell Memorial Scholarship of \$1,000 is to be awarded to a graduating sophomore by the First Federal Savings and Loan of West Palm Beach in memory of its founder.

Florida Southern College—Final exams have been set for May 20-27, the office of academic affairs, followed by the graduation services for 215 seniors on May 29 at the First Methodist Church in Lakeland.

Gordon Keller—Five members of the senior class, who are now working in the emergency room, will soon spend one month at Tampa's Tuberculosis Sanatorium.

Florida State University—Many Tampons have been elected to offices in the FSU fraternities and sororities, many of which are now in the process of rushing and pledging new members.

EDITORIALS

Spring Is Here

The spring semester comes but once a year to the university campus. Now that's logical!

The young man's fancy turns to love where the young lady's fancy has been all year round. And all around the campus the students burst with exuberance between classes and sleep to the lullaby tones of a professor's lecture.

What a gay time of year for a college student. There is always something to do that is more interesting than one's studies. For example, going to the beach.

Optometrists love spring. I'll bet the sales of glasses doubles this time of the year. In addition to needing sun glasses, there are always the students who feel that they must combine their sunbathing and studying. The result is usually a brown, intelligent student with weak eyes. Most students, however, realize the danger of mixing sun and studies; so they don't study.

God's gift to woman, the college male, blossoms out in Bermuda shorts come springtime. The coeds silently look at the knobby kneed specimens and say a prayer of forgiveness for their thoughts toward the administration. But, nevertheless, they humbly attend classes clad in the full regalia of the sweet old fashioned girls, and the good Dean of Student Affairs and his staff's "gestapo" smile a big smile of victory.—R. K. P.

Now Is the Time

We as students at the University of South Florida have been granted the privilege of writing our own constitution. The Steering Committee has written a proposed constitution. Every student has the privilege to suggest changes before it goes up for a vote.

The Steering Committee held an open meeting last Tuesday so that students could raise objections. Less than 50 people attended.

Now is the time to criticize the constitution, not six months from now, when it will be too late to change the clause you don't like. If you want the policies of the university to be set up by a few people, then they will be. But never say that as a member of the charter class, you never had a chance to voice your opinions and offer suggestions for the constitution.—W. P.

Problems, Problems

Whether or not students know it this campus has a major problem. The problem? Over organization.

The students are faced with the danger of losing some, or all of the special events programs. The main competition against these programs are club meetings.

In order to support your university you must support its functions, and to support its functions is to attend its special events.

This problem is a student problem, that is until it gets so bad that it must be taken care of by the administration.—S. W.

Foreign Spanish Film Open to All Students

The Foreign Language Club and the Spanish Literature Club are sponsoring a film showing of "Don Quixote de La Mancha," which will be shown Tuesday, May 9, in the Theater Auditorium.

Times of showing will be at 4:15 and 8 p.m. While the film is required entertainment for all students, the general public are invited.

The film's story is of the famed knight who with his faithful squire set out to right the wrongs of the world.

LOVE THAT ENDURES

The art in building monuments is the ability to convey your thoughts of love and esteem to marble or granite—the most lasting material available to man. It should portray the thoughts of the purchaser and the virtues of the one in whose memory it was erected.

THE ROUTE OF COURTEOUS SERVICE

Swim Fest Tops Events This Month

The All-USF Swimming Fest, sponsored by a committee of the Women's Sports Coordinating Board, has been set for Saturday, May 20, at Temple Terrace Pool.

Miss Sunny Fernandez, intramural coordinator and advisor to the group, made the announcement before final arrangements had been made with "T" officials, but the odds were in her favor, she said.

Any independent team may enter the meet, and no deadline for registration has been set. Application blanks are available in the physical education office.

"If," it says here, "the activities will get under way at 9 a.m., and will continue until about 1 p.m. There are a total of 13 events, plus a wide array of novelty stunts for students, faculty and staff members to enter.

There are six events each for men and women, and one co-ed event. Each participant may enter 3 swimming events, which must include one relay, and the fancy diving. There is no limit on entries in the novelty events. Each club is limited to 2 entries per event.

Final preparations will be made today at the 1 p.m. meeting of the WSCB, and awards will be one of the topics discussed.

Women's events include the following: 25 yd. free style, 25 yd. breast stroke, 25 yd. back stroke, 100 yd. free style relay, 75 yd. medley relay, and 25 yd. dog paddle.

Men's events are: 50 yd. free style, 100 yd. free style relay, 25 yd. breast stroke, 25 yd. back stroke, 75 yd. medley relay, and 25 yd. dog paddle.

Jenkins Wins in Archery

USF student David Jenkins scored 169 points to win top honors in the Archery Tournament, held April 27. James Longfellow finished a strong second with 160 points.

Richard D. Hunter, intramural and tourney coordinator, announced the winners, and told of the possibility of an archery club originating from the meet.

He also announced plans for next year's tourney.

Students wanting to learn the art of softball officiating are urged to attend the physical education majors meeting, Wednesday, May 10 at 7:30 p.m., in UC 257. Potential majors or minors in physical education, health, and recreation of athletic coaching are urged to attend the meeting, which will feature guest speaker Marcie Perez, director of the City of Tampa's Trailer Park Gym.

After reading the invitation Dr. Allen said: "It is very laudable, but I don't believe they are going about it the right way." During the discussion, between Dr. Allen and James H. Woodroffe, chairman of the Steering Committee, it was pointed out that the legislature doesn't take kindly to students' lobbying. Also, the legislature is aware that USF is receiving a new class each year, therefore, needing more classrooms, dormitories and physical education facilities.

After discussing several courses of action the final decision was for the Steering Committee to write to the Hillsborough area representatives thanking them for what has been done and offer to do anything that the delegation thinks would help in obtaining the much needed money.

USF Rejects U. of F. Lobby Invitation

An invitation to join University of Florida students in lobbying the legislature for more money for higher education has been rejected by the Steering Committee and Dr. John S. Allen, USF president.

The invitation was sent by Bruce Bullock, the new student body president of U. of F.

After reading the invitation Dr. Allen said: "It is very laudable, but I don't believe they are going about it the right way." During the discussion, between Dr. Allen and James H. Woodroffe, chairman of the Steering Committee, it was pointed out that the legislature doesn't take kindly to students' lobbying. Also, the legislature is aware that USF is receiving a new class each year, therefore, needing more classrooms, dormitories and physical education facilities.

After discussing several courses of action the final decision was for the Steering Committee to write to the Hillsborough area representatives thanking them for what has been done and offer to do anything that the delegation thinks would help in obtaining the much needed money.

Fellowship Group To Be Formed

A Unitarian fellowship is being formed at the University of South Florida for those faculty, students, and staff who are interested in discussing the intellectual aspects of liberal religion.

Gid E. Nelson, assistant professor of biology, is in charge of organizing the group, whose ultimate goal is regular Sunday morning meetings.

Persons interested are invited to attend the meeting at 1 p.m. today in UC-201.

Campus Crusade For Christ

Some University of South Florida students had the chance last week of hearing the Florida representative of the Campus Crusade for Christ, Jon Braun, speak at the home of O. H. Maxwell.

Jon, who lives in Miami, met several USF students in Fort Lauderdale during spring vacation, and they invited him to come to the campus and discuss the Crusade for Christ with their friends.

Jon held an informal discussion and presented a 15-minute recorded argument by Dr. J. Edwin Orr, against the possibility that the universe was created by chance.

Jon also spoke about a booklet which he presented to the group. The booklet was entitled "Ten Basic Steps Toward Christian Maturity."

The Campus Crusade for Christ is a student movement in which the goal is to present the claims of Jesus Christ. This program was started at UCLA in 1951.

Thousands of students have heard the Gospel through this program.

SOME SAY

Sports Policy In Confused State

By CAMPUS EDITION STAFF WRITER

Recent dissolution of the baseball club has stirred up more controversy and confusion among members of the campus community.

The informal schedule of the group of former high school stars was dropped, following a ruling from the administration barring certain competitors.

Dr. Howard Johnson, dean of student affairs, had an active part in the action taken. In a recent interview he said, "We did not make a change in our policy. The basic decision was made early in the year. We did not want to play any other school team in any sport."

"The present stand is one of clarity. We did not want the baseball club playing in competition with any team representing an educational institution, and which was engaged in regular conference play. If the general public would mistake an event for being intercollegiate, this too would be eliminated."

An Informal Schedule?

The administration was charged by many people as deliberately trying to eliminate all possible competition. According to Johnson, this was not the case. "All possibilities have

not been explored. If the junior colleges would have been on an informal schedule, the club could have played them. The big concern is that these activities are not to be mistaken as being official."

Although a recent ruling states the university will not compete in intercollegiate athletics for at least four years, Johnson contradicted it by stating the probability of entering these sports long before the first class graduates.

Let's Keep a Good Name

Johnson attempted to explain the concern over a hasty start. "A bad athletic program, regardless of how good it actually is, will give a school a bad reputation. We don't even have the coaching facilities. Any attempt at an early start will necessarily meet with considerable difficulty."

Dr. Gil Hertz, director of physical education, was interviewed recently in regard to an article about a crew team, which appeared in a local newspaper last week.

A former crew coach had supposedly investigated the possibility of creating a crew club at USF. He stated he had access to necessary facilities and would offer his time to coaching the team. He was turned down by the university.

Here's Hertz' Story

"This is not entirely true," Hertz said. "This is, as he stated, an ideal location for a club of this sort. We have been interested since the beginning of school in getting some sort of organization going. But one essential element is missing. The element of student interest. The most elaborate and complete facilities possible would be useless without the men to use them."

"We have made several announcements in the past on this topic, stating our interest in beginning such a project. In each case we have had negative results from the student body."

The question on policy will be brought up again, and soon. A student group interested in the problem at USF is planning to take the discussion on athletics to the University Senate late this month. The discussion will be in a question form, asking for a clarification of the school's stand on the matter.

Let's Get Together

In the opinion of the average confused and distraught student, this is highly needed. This may be the appropriate place to inject a bit of suggestive material. The real way to lick the problem, and it is one, is to bring together all parties involved, and come to a common decision. The administration, physical education director, and instructors each have separate goals.

USF Rejects U. of F. Lobby Invitation

An invitation to join University of Florida students in lobbying the legislature for more money for higher education has been rejected by the Steering Committee and Dr. John S. Allen, USF president.

The invitation was sent by Bruce Bullock, the new student body president of U. of F.

After reading the invitation Dr. Allen said: "It is very laudable, but I don't believe they are going about it the right way." During the discussion, between Dr. Allen and James H. Woodroffe, chairman of the Steering Committee, it was pointed out that the legislature doesn't take kindly to students' lobbying. Also, the legislature is aware that USF is receiving a new class each year, therefore, needing more classrooms, dormitories and physical education facilities.

After discussing several courses of action the final decision was for the Steering Committee to write to the Hillsborough area representatives thanking them for what has been done and offer to do anything that the delegation thinks would help in obtaining the much needed money.

Fellowship Group To Be Formed

A Unitarian fellowship is being formed at the University of South Florida for those faculty, students, and staff who are interested in discussing the intellectual aspects of liberal religion.

Gid E. Nelson, assistant professor of biology, is in charge of organizing the group, whose ultimate goal is regular Sunday morning meetings.

Persons interested are invited to attend the meeting at 1 p.m. today in UC-201.

Campus Crusade For Christ

Some University of South Florida students had the chance last week of hearing the Florida representative of the Campus Crusade for Christ, Jon Braun, speak at the home of O. H. Maxwell.

Jon, who lives in Miami, met several USF students in Fort Lauderdale during spring vacation, and they invited him to come to the campus and discuss the Crusade for Christ with their friends.

Jon held an informal discussion and presented a 15-minute recorded argument by Dr. J. Edwin Orr, against the possibility that the universe was created by chance.

Jon also spoke about a booklet which he presented to the group. The booklet was entitled "Ten Basic Steps Toward Christian Maturity."

The Campus Crusade for Christ is a student movement in which the goal is to present the claims of Jesus Christ. This program was started at UCLA in 1951.

Thousands of students have heard the Gospel through this program.

Literary Club Makes Plans For Magazine

A new organization on campus, formed by a group interested in creative writing, is the Literary Club. The express purpose of the club is to stimulate the interest in creative composition in the literary field, and to give students a means whereby they can express their feelings. This means of expression in the future will be a magazine published by the club, in which students, faculty, and staff can make public their ideas.

For financial reasons the magazine cannot become a reality immediately. In the meantime, the club plans to scout around and find all the literary talent at the university, and possibly sponsor lectures here by various Florida authors.

Students interested in joining the Literary Club may submit a short original composition (poem, essay, short story, etc.) to Ron Murfin, chairman. The composition will be read before the club and the author will be voted in by the members on the merits of his work.

Dr. Sy Kahn, assistant professor of English, is the formal advisor for the club, but other faculty members will be asked to offer their advice from time to time.

Charter members are Sheila Sanford, Pat Boole, Yvonne Bentley, Jim Lee, Jeff Wright, Gary Vitte, Chris Storer, Jim Boole, Dick Studebaker, Henry Fernandez, Mike Shick, Bobbie Hansen, Ron Murfin is chairman; Wing Preodor, secretary-treasurer, and Jim Hackney, parliamentarian-sergeant at arms.

Softball League Standings

All-Stars	5-0	Enotas	2-3
Faculty	4-1	Arete	2-3
Revolvers	2-3	Epelta	0-5

RESULT OF MAY 2 GAMES

All-Stars over Enotas, 8-2.
Arete over Epelta, 13-4.
Faculty over Revolvers, 3-2.

Game Schedule for Tomorrow, May 9, at 4:15

Arete vs. Enotas.
Faculty vs. All-Stars.
Epelta vs. Revolvers.

New Way Found To Stop Hair Loss, Grow More Hair

HOUSTON, Texas—For years "they said it couldn't be done." But now a Texas firm of laboratory consultants has developed a treatment that is not only stopping hair loss... but is really growing hair!

They don't even ask you to take their word for it. If your symptoms indicate that the treatment will help you, they invite you to try it for 32 days, at their risk, and see for yourself!

Naturally, they would not offer this no-risk trial unless the treatment worked. This is all the more remarkable in the light of the fact that the great majority of cases of excessive hair fall and baldness are the beginning and more fully developed stages of male pattern baldness and cannot be helped. But how can any man or woman be sure what is actually causing their hair loss? Even if baldness may seem to "run in your family," this is certainly no proof of the cause of YOUR hair loss.

Actually, there are 18 scalp disorders that can cause hair loss. No matter which one is the cause of your hair loss, if you wait until you are slick bald and your hair roots are dead, you are beyond help. If you still have hair (or at least some fuzz) on top of your head, and would like to stop your hair loss and grow more hair... now is the time to act.

Loesch Laboratory Consultants will supply you with treatment for 32 days, at their risk, if they believe the treatment will help you. Just send them information to help them analyze your problem. This information should include how long your hair has been thinning, and whether or not you now have or ever have had any of the following conditions: Do you have dandruff? Is it dry or oily? whether your scalp erupts in pimples or other irritations, does your forehead become oily or greasy? does your scalp itch and how often? and any other information you feel might be helpful. All letters will be answered promptly. Send the above information, and your name and address to Loesch Laboratory Consultants, Box 66001, Houston 6, Texas.
