After looking at many different family histories trying to decide whether or not they came in to our county or surrounding areas, I have come to plead to anyone writing a family history to please, please, create an index with at least the names mentioned in your book and if at all possible an index of states and counties. Trying to check all the pages in a 600 page document with tons of family group sheets to see if there is any mention of a particular county is nearly impossible. I did come across one or 2 that did index, along with the names, cities where family members lived.

I urge every genealogist I encounter who even hints at compiling a family history to index it. The larger the volume, the less useful it is without an index. Most divide their lines into chapters about one ancestral couple, but even that is not helpful if you don't already know which son or daughter your line comes from.

I think asking for a geographical index is probably too much for the majority of compilers to handle. Many will put the main state or county in the title. Most will include the main counties of origin in a preface or opening explanatory chapter. If I have the opportunity to speak or e-mail with the donor, I ask for the main geographic areas included and note it for cataloging.

I know some family tree programs will produce an index, but not every user knows how to do it. There are also indexing programs that allow the user to type in given name, surname and page number, and will compile the info into an alphabetized index, but I don't know the program names.

Our genealogy room is too small for the amount of material we have. Some of it has  
to go. I began by withdrawing bound periodicals from other states. They were not  
being used and if someone really needed one of them, most were available through  
ILL or in the larger libraries which are nearby. Now I am considering the cabinets  
of microfilm. I am thinking of withdrawing all microfilm which is not Texas  
related. This would include the tons of census records from other states. With the  
availability of the records online, larger libraries and a regional archive center  
nearby, are there any reasons why I should keep them? And if I do decide to  
withdraw them, what can I do with them? I also have duplicates of census rolls for  
Texas and a local paper. However, we not only have all of the newspaper rolls, but  
the Texas State Library  
ilson, Donald L" <dlwilson at pwcgov.org>

You want to remember that the format of the census on microfilm is different than the census records you can search online. Some people ( not many , but some) do not trust the search results they get from the online censuses and want to page through the microfilm themselves.

Susan is so right. In fact one of IGRA projects is now to index and add to our database collection, all the family trees at the National Library of Israel. Over 150. This seems like the way to make know the existence of copies of the family trees. Also some new ones published on the Internet have agreed for us to put the index in our collection. So in addition to indexing this of putting a pdf list on the Internet if you don't have a database to add it to. It will also be PR for your libraries.

In the months preceding the conference, NGS will publish submitted information about research facilities to assist attendees traveling to the conference. This is a great opportunity to share with conference attendees why they should visit your facility or become a member of your organization because:

- one or more attendees may have ancestors in your area

If you submit your facility's information, NGS will share it on their blog. We would be happy to include a photograph of your building as well. Hello,

Thanks in advance to all you helpful people out there. About ten days ago a man came in looking for records on his ancestor who was born in 1870 in Stara Ropa, Ukraine. I looked around and found the website for the Archives of the Ukraine and advised him to contact them, as well as message boards offered on the topic and social media. He came back in yesterday and said that he did make contact, but no one answered him. I told him that it could be a while to a response. He has been thinking about hiring someone.

I looked around more and found a website: Ukrainian Genealogical Research Bureau<<http://www.ukrgenealogy.com/index.html>> - which looks promising, but the fees could cost him around \$1000 for this one person.

So my question is has anyone had any experience with Ukrainian genealogical research and could share their experience. I would appreciate any advice.

There are excellent records in Ukraine. That is the good news. Now to find someone to help, that is the challenge. Are they Jewish, Eastern rite Catholic or Eastern Orthodox, are they ethnic Ukrainians or are they Germans from Russia? Are they part of the Czech migration who are usually regular straight up Roman Catholic or some variant of protestant.

The first place to start would be by looking at articles in Dorot and Avotanyu, both wonder Jewish genealogy publications. if you are involved in Eastern European research both of these publications have articles that will assist us all. The other organization that may be of value would be the Foundation for East European Family History Studies.

Good luck with this researcher and let us all know how it all works out.

For those who may be looking at adding to their own library's genealogical collections, the following two articles may be of some interest. (I meant to share these last year, but I think that they are still of value.)

Thanks, Drew! I don't see LJ regularly any more so happy to know of these, and to, more importantly, actually see them.

Recently, I've been approached by two patrons with requests for assistance with Lithuanian research. This is a new area of research for me, and I would appreciate any suggestions of sources, websites, or other information. One patron is searching for Jewish ancestors, and the other is searching for Christians.

This may seem overly simplistic, but I had a patron who knew that her family were Lithuanian. We found them in various censuses by putting a approximate age, and county of birth = Lithuania. Needless to say the names were often spelled incorrectly. But the patrons could also try

<http://feefhs.org/links/lithuania.html>;  
[https://familysearch.org/wiki/en/Lithuania\\_Genealogy](https://familysearch.org/wiki/en/Lithuania_Genealogy);  
<http://www.cyndislist.com/baltic/>; and  
<http://www.rootsweb.ancestry.com/~ltuwgw/>., and

just to start.

Locally to me, various Jewish organizations have great help groups. They might try that, also.

Hi Kathleen,

For your Jewish patron there are Special Interest Groups(SIGS) within JewishGen for different Jewish ethnicities, Galicians, Russian, Hungarians, etc that could assist your patron. There is a Jewish Genealogical Society in Hartford (also in Boston)and of course in NYC that could help a great deal. There are annual conventions as well. This year's convention is in Seattle I believe. I depends if the person is just beginning or farther along in the process.

Hope this helps.

For Galician Jews, there is a wonderful website at <http://search.geshergalicia.org/>. (I've just embarked on Ukrainian/Polish Jewish genealogy myself.) For Lithuanian Jews, try LITvakSIG at <https://www.litvaksig.org/>.

The book \*Printed Sources: A Guide to Published Genealogical Records \*edited by Kory Meyerink although WAY out of date has some excellent information on

researching folks from different countries.  
Also as I recall at least one edition of \*The Source \*has a chapter on  
Jewish Genealogy - sorry I cannot remember which one.

IGRA was among those recognized on April 6, 2016 during the Herlitz  
Day seminar in Tel Aviv.

The certificate we received states:

The Israel Genealogy Research Association is awarded a Certificate of Appreciation by the Association of Israeli Archivists.

IGRA [Israel Genealogy Research Association] leads and contributes greatly to the accessibility of genealogical information in Archives and in building databases with its volunteers and making them available on their website.

IGRA maintains an open website with databases, research resources, articles and recorded lectures in order to assist those in Israel and abroad with their family research and in finding information about their relatives.

This work is done in cooperation with Archives throughout Israel and abroad. We are pleased that many are members of the Association of Israeli Archivists.

Message-ID: <305E1FBA110846E0BE32D9DCD90E2BAD@EndUserPC>

The strength of the dollar against European currencies in recent months means that this is a very good time to purchase genealogical books from Europe (an effective price drop of 10% in the last six months alone).

Have you had readers wanting to trace their ancestry back to European Royals or Noblemen?

Then you may need books in this series, which traces every European Royal Dynasty and hundreds of noble ones, showing thousands of U.S. citizens and residents descended from them.

This series of books, published in England, about royal genealogy could provide the answers.

They are offering an additional 20% discount for U.S. Libraries.

This is a good time to start or complete your collection of this key source.

#### THE ROYAL HOUSES OF EUROPE

This series of 33 volumes covers all the European Royal Dynasties and their descendants. They provide a full royal genealogy laid out in inter-connecting royal family trees of the Royal Houses of Europe. The books cover the reigning monarchies of Europe, the great Imperial Dynasties and the former monarchies of Europe. They

include the British Royal House, now the House of Windsor, descended from Queen Victoria, and the British dynasties of Stuart, Hanover and Saxe-Coburg-Gotha. The dynasties of Hohenzollern, Romanov, Habsburg, Bonaparte and Bourbon have separate books on each, together with the Monarchies of Scandinavia, the Benelux, Liechtenstein, Iberia, Monaco, Italy and the Balkans, and the former German Kingdoms, and Grand Duchies. In all cases the full descent is shown, extending to related noble and commoner families, in Britain, across Europe, and in the U.S.A, Canada, Australia and Latin America. They are an essential source of information for genealogists providing details right down to the present day. All books have ISBN numbers.

In particular, they are a source of detailed information on German Royal and Noble dynasties.

The relevant 10 German/Austrian volumes are:

The HOHENZOLLERN Dynasty of PRUSSIA - 2 volumes

The HABSBURG Dynasty of AUSTRIA-HUNGARY

The BALKAN and ITALIAN MONARCHIES: In respect of the Habsburg Dynasty in Tuscany and Modena.

A four and a half hour crash course on how to trace your roots back to Africa given by noted African-American culinary historian and genealogist Michael Twitty using all the tools currently available. The guiding light for Michael's journey has been the elusive African American genealogical dream?to trace the family story back to the African continent. Why? Because we want closure from the wounds of our past, we want to feel more whole, we want to be able to pass something on to the next generation and we want our American story to be complete. We have DNA companies but there is more to it than that we can connect documentation with DNA with other tools to try to figure out the puzzle. Figuring out that puzzle can be daunting for many.

He was inspired by the story of Alex Haley and many others. As stories began to gather of successful links made back to Africa along with the ever developing science of DNA, Michael began to put together the pieces of a body of knowledge unique to African American genealogy. Most Black genealogy books can only tell you how to get back to the last two generations born in slavery using the census. For some scaling the wall may be possible, for others, it will be almost impossible to surmount. His course is meant to help make a personal, scholarly sound and meaningful connection back to African roots no matter where you fall on the genealogical spectrum.

Further details about what Tracing Your Roots Back to Africa: A Primer Course follows:

Hour One: The Old Country: Understanding Historical West and Central Africa in the African American Context

We will:

Put African countries, cultures and histories in context as they relate to African Americans  
Review how ethnicity, trade, enslavement and migration work in

determining a fluid and flexible understanding of identity in historic West and Central Africa  
Identify the key regions sourced by the Trans-Atlantic Slave Trade and how those areas relate to specific points in the New World  
Clear up myths and misconceptions and misnomers in the relaying of information about the slave trade, African ethnic groups and how genealogical connections are established.

Hour Two: A New World: Understanding how they became Americans

We will:

Re-examine how enslaved people were bought, selected, distributed in North America and how their skills, knowledge, abilities and cultural backgrounds affected their dispersal.  
Begin to apply our own individual family histories to the information by tracing the lines of the trade in relationship to our family trees.  
Look at pitfalls and challenges we have in connecting the coasts and tracing the movement of enslaved Africans and their acculturation.  
Investigate naming patterns and processes by which enslaved Africans reaffirmed their identities and what elements they passed down or were able to retain.

Hour Three: Cast Studies: Stories and Clues to Linking Africa with America through oral history and written documentation.

We will:

Overview examples of families that have been successful in tracing their family stories across the ocean for clues, tips, hints and connections.  
Review documents for hints of connections to Africa, especially searching for ways in which African identities or connections were noted, detailed or remarked upon.  
Survey the scholarly literature for other clues like language, vocabulary, foodways, occupations and cultural patterns that persisted in families from generation to generation and use medical data in our search.  
Document the African connections and carryovers in our own family trees.  
Discuss ways to make the narrative concrete, consistent and clear as we write family histories and retell our history at reunions.

Hour Four : DNA evidence: Understanding how it works for African Americans

We will:

Discuss the blessings and pitfalls of using DNA as a source material in our research.  
Understand how DNA evidence works in contemporary genealogy and what our results really mean.  
Learn to distinguish between DNA companies and what they offer for the genealogical researcher.  
Discuss how to get the most out of DNA as a tool for making the leap back to our African origins without overreaching too much.  
Affirm the importance of consistency and integrity in our work

Hi All,

I hate to impose upon you all, but if anyone has the book listed above (also detailed below) and can do a quick look-up for me I would be most grateful. If I could get a scan of the page I would be even more grateful. I have put out some institutional feelers, but not heard back, and patron getting restless. Patron also doing a program for me in the near future. Also, one of my favorites though, of course, I treat all my patrons the same. :)

Thanks for any consideration!

As to research on Jewish genealogy I hope you are aware of JewishGen

<http://jewishgen.org> Registration is required but it is free. There are a collection of SIGs including one for Lithuania and there are various discussion groups. The website for the LitvakSIG has over 1,000,000 records, and other relevant information. There is also the website for JRI-Poland Jewish Record Indexing of Poland that has over 4 million records. Remember that the borders in Eastern Europe often changed with the end of each war. They tell the story of the man who lived in three different countries during his life though he stayed in the same town.

Message-ID: <571B6469.9060000@rhus.com>

I have a patron who is trying to find his parents' marriage. From their divorce papers he has obtained an exact date in 1940, but the place was only Panama. He knows his mother lived in Colon and was a Roman Catholic; his father was a U. S. soldier stationed in the Canal Zone.

He's seen what's in FamilySearch.

Can anyone recommend a source on how to find these records in Colon? I've given him an address for the diocesan office and the information on the State Department page, but would appreciate any more specific advice. He believes they had a church marriage, but doesn't know for sure.

This is the second patron I've had with family in Panama that I've been unable to help. Very frustrating!

Thank you.

Familysearch has Panamanian Catholic Church records to 1950, you might try them. Also wouldn't he the soldier have to register his marriage with the Army in the Canal Zone?

Yes, thank you. I've given him that but until he got an exact date for the marriage and not just a five year span, I didn't know how worthwhile it would be. It took a couple of trips to the local courthouse and talking to different people before they could even find the divorce record!

I found this article in Prologue from 2007 but am wondering if the info is still current.

<http://www.archives.gov/publications/prologue/2007/fall/panama.html>

"In Record Group 185, Records of the Panama Canal Zone, the National Archives has only Panama Canal Zone marriage certificates through 1979. For a copy of a pre-1979 marriage license, write to Civilian Records, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001."

I'm also suggesting that he check and see if any of his father's military records survived the 1973 fire.

Yes, the information in that Prologue article is still accurate. Here is the entry in NARA's online Catalog for the pre-1979 marriage licenses:

<https://catalog.archives.gov/id/7694692> <<https://catalog.archives.gov/id/7694692>>.

Your patron should send an email to archives2reference at nara.gov

<<mailto:archives2reference@nara.gov>> with the name(s) of the person(s), the date of marriage, and of course his own name, mailing address, email address, and phone number. If my colleagues at Archives 2 need more information from him, they will contact him.

Subject: [Genealib] Fairfax County VA Harper's Monthly issues to trade

Message-ID: <CAA5Zxu9\_hWEWcvDw6ttT63o9+AqE07f1oYrNJLcMYaediDz0ug@mail.gmail.com>

The Virginia Room received an unusual donation of many volumes of \*Harper's New Monthly Magazine\*. The dates covered range from 1850 to 1880, but do not cover every year. The Excel spreadsheet lists by volume number and includes the dates covered in each volume. You will notice that some volumes are missing. This is not a typo.

The volumes are dusty, and all have foxing on the pages. Some of the volumes have loose boards, and some boards have been scotch taped. They are not in great condition.

As usual, email our volunteer, Fran, at work ( [Frances.Millhouser at fairfaxcounty.gov](mailto:Frances.Millhouser@fairfaxcounty.gov)) or home ([bfm1010 at cox.net](mailto:bfm1010@cox.net)) with your requests.
