BELL "AIRACOBRA" P-39

The Airacobra or "Flying Cannon" is one of the most deadly fighters in the world. It has a speed of over 440 m.p.h. and armament of one cannon and six machine guns (4 in the nose and one in each wing). The cannon is located in the nose and fires thru the propeller hub. The engine is behind the pilot. This plane is used on all fronts, especially against the Japs. It is very manuverable. It is recognized by tapered wings, sharp streamlined nose, high cockpit-cannopy, and air-scoop behind pilot.

The Temple Terrace Church School will be held this Sunday at the School House. Mr. J. Lawrence Perry will teach the adult class.
