A fresh egg sinks in water and lies on its side. If it stands on end it's getting old. If it floats get rid of it!

Food burned and baked on pans and dishes will rub off with a little effort if a sprinkling of baking soda is added to the soak water.

HELP,
WE NEED BODIES.

Imaginative, creative entities.

People willing to devote minimal time composing articles for CROW'S NEST. We offer sundry areas of participation: features, commentary, reviews, news, interpretation.

We need you to translate these abstractions into realities.

If you don't want to write, why not share your ideas?

Artists: how about submitting a cartoon or two to spice up our format (or lend us your mental vibrations?)

IF YOU WOULD LIKE TO HELP, please stop by the Student Activities Office and leave your name with NEST personnel. If no one is there, slip your name and phone number under the door and we'll contact you.

~HEY, YOU!~
