

Mid-Life Conference To Deal With Career Changes

A public workshop--"Mid-Career: A New Work Perspective"--for persons who are considering mid-career changes themselves, or who work with individuals affected by mid-life changes, will be held Mar. 9 at the Holiday Inn Central in downtown Tampa.

Co-sponsored by USF and the Greater Tampa Chamber of Commerce, the workshop will be from 10 a.m.-2 p.m. The \$7.50 fee includes lunch. Reservations may be made through today calling Vern Dean, Greater Tampa Chamber of Commerce, 228-7777.

Dr. Alan Entine, visiting professor in aging studies at USF and assistant academic vice president, State University of New York at Stony Brook, will be the featured speaker. A reaction panel of members of the Tampa business community will include Scott Christopher, executive director, Greater Tampa Chamber of Commerce; Fred Learey, retired president, General Telephone Co.; Dick Maurer, chairman, Merchants Assoc. of Greater Tampa, Inc.; and Mrs. Clewis Howell, a USF mature student and local community leader.

The Mar. 9 workshop will focus on mid-career assessment and re-direction. Dr. Entine is expected to discuss the broad parameters of mid-life--how it affects both personal and job-related situations in many ways, ranging from technological advances and premature retirement to illness, divorce and job loss.

'Limits to Growth' is Lecture Topic

"Limits to Growth: Fact or Fancy" will be the topic of a foremost authority on the depletion of America's natural resources and the implications of this, at a free public lecture at 2 p.m. today in PHY 141. Dr. James F. Bell, former president of Mobile International Corp. and former director of the petrochemical division of Mobile Oil Corp., is described as "neither an environmentalist nor a businessman." He is in the Bay area visiting his son, Dr. James A. Bell, assistant professor of philosophy.

SGP Photography Exhibit Mar. 8-19

More than 150 black and white and color photographs by USF students, staff and faculty will be on display Mar. 8-19 during the 16th annual All-University Photography Contest and Exhibit sponsored by Student Government Productions.

The exhibit will be from 8 a.m.-5 p.m. weekdays in the University Center Gallery (CTR 108).

Judges will award first, second, third and three honorable mentions (ribbons and prizes) in both black and white and color categories.

Judging, which takes place today, will be handled by Fred Parrish, associate professor of photo-journalism, University of Florida; David Yager, visiting lecturer, photography, USF art department, and Lewis Harris, assistant professor of fine arts, University of Tampa.

The conference is the second of three mid-life conferences being sponsored this spring by USF. The first, in February, was oriented toward counselors. The workshop is designed for the public, particularly the business community. A third conference, "Mid-Life Work and Learning Options," set for Apr. 21-23, will be for persons in policy making positions who may effect change and understanding about mid-life.

For more details, contact Lee Leavengood, USF advisor to mature students, ext. 2076.

Regents Vote Fee Increase Beginning Fall Quarter '76

The Board of Regents in Pensacola last Monday moved to increase student fees beginning next fall but at rates lower than recommended by the BOR staff. The increases followed closer the recommendations by the Council of Presidents last week.

Pending approval by the State Board of Education (Cabinet) and possible review by the Legislature, here is the fee schedule for Florida resident students next fall:

Lower Division, \$15, up \$1 per hour; Upper Division, \$16.50, up \$1.50; Graduate \$22, up \$2, plus \$2 more for thesis and dissertation credit.

Extra fees for non-resident students will remain at \$23 per hour for lower division courses but will go from \$32 to \$35 for upper level and from \$37 to \$40 for graduate courses.

Following the recommendation by the Council of Presidents, the BOR agreed to a lower fee schedule for Quarter IV, starting the summer of 1977. Lower level courses will be \$9 per quarter hour and \$10.50 for upper level courses for state residents. Graduate courses will remain at the \$22 figure adopted Monday.

Cost for medical students at USF next fall will go to \$439 per quarter for Florida residents and to \$1,007 for out-of-state students. Currently, these fees are \$338 and \$775, respectively.

During the discussion on fees at Sunday's meeting of the BOR Finance Committee, Chancellor E.T. York pointed out that staff recommendations were in line with the Board's policy to bring student fees up to 30% of educational cost over a three-year period.

Margaret Mead Speaks in Gym Tonight

Anthropologist Margaret Mead speaks tonight at 8:30 in the Gym and tomorrow morning at 10 in the Library.

Saturday's address will come at the official dedication of the \$8 million USF Library.

Both of Dr. Mead's talks are free and open to the public.

Following the dedication ceremony, tours of the Library will take place. President Cecil Mackey will host an open reception at 11 a.m. in the Special Collections Section.

ANNOUNCEMENTS

*Women's Educational Equity Program: Mar. 17, 1976 is the mailing deadline for proposals to compete for the \$6.2 million appropriated under this program. The first round of funding is limited to the three programs under the General Category, which includes: 1) training modules and sexism in education; 2) programs for educational leadership; and 3) program development related to career options for women. A preapplication format of no more than 10 pages, outlining the major features of the proposed program, is required for the screening phase. Applicants selected from the first screening will be requested to submit a final proposal in early May 1976. 25 to 40 proposals will be funded for between \$50,000 and \$200,000. However, it is expected that 5,000 applications will be submitted. Because of the heavy competition and limited funds, consortia arrangements have the greatest chance of being funded. The Small Grants Program has projected a deadline for sometime in April, 1976. Additional information is available in the Division of Sponsored Research, LET 107, ext. 2897.

*The Preparation Course for the Medical College Admission Test will be held at USF through Apr. 20. Further information is available from Continuing Education, ext. 2403, or Jorge Garcia, ext. 2853.
 *American Cancer Society-Florida Division has established Mar. 20, 1976, as the next deadline for receipt of proposals for support of cancer oriented research. Guidelines and application forms are available in the Division of Sponsored Research, LET 107, ext. 2897.
 *NSF-Urban Technology Research: The National Science Foundation, Division of Advanced Productivity Research and Technology, intends to provide approximately \$2 million to support applied research in the field of urban technology. Urban technology is defined as the application of scientific or technological methodology to the problems of local government. Research proposals must be addressed to one of five service categories: 1) Solid Waste Management, 2) Urban Water Resources, 3) Fire Protection, 4) Urban Recreation, and 5) Financial Management. A number of 12-15 month awards requiring between 1/2 and 5 man-years of effort each are planned under this program. Proposals must be received at NSF by Mar. 29, 1976. Additional information is available in the Division of Sponsored Research - LET 107, ext. 2897.

*Through the cooperation of the College of Business, accounting dept. faculty and students, the Personnel Office has coordinated the 1976 Income Tax Assistance Program for all staff and students whose 1975 income did not exceed \$12,000. This service will be available by appointment through Mar. 12. Appointments may be made by calling Personnel Training, ext. 2438.

*In an effort to provide the opportunity for employees to acquire shorthand skills, a class in ABC Stenoscrypt Shorthand will be offered Qtr. III. Participating staff members should have shorthand skill level of 80-100 wpm after this course. The course will be offered at no cost to the employee, as part of the USF Training Program, and will be offered Mon.-Fri., 8-9 a.m. Interested staff members should contact Personnel Training & Development, ext. 2438.

*NATO Advanced Study Institutes: The Division of Sponsored Research has received the list of 35 NATO Advanced Study Institutes to be held in Europe in 1976. Approximately 90 advanced graduate and post-doctoral students and junior-level faculty will receive travel grants to attend the institutes. This year subjects covered by these institutes include astronomy, chemistry, computer science, engineering, geology, life science, mathematics, physics and psychology. Additional information concerning these institutes are available in the Division of Sponsored Research.

*Florida Sea Grant Proposals: The Florida Sea Grant Program Office has announced Mar. 19, 1976, as the deadline for receipt of new project preproposals and renewal project letters of intent. New projects will begin January 1977. Preproposals are brief project descriptions designed to assist in evaluating ideas and concepts for Sea Grant support. Florida Sea Grant has assigned priority to activity in environmental studies contributing to coastal planning; engineering design and construction; economic, recreational, and legal studies of resource utilization; marine products development; technical training, and public information. Guidelines, pre-application forms, and a more detailed statement of priorities are available in the Division of Sponsored Research.
