# Staff Input Forum shows the commitment of USFSP employees to the institution

Posted January 17, 2014 at 5:31 pm by [vision2020](#)

On Wednesday morning, over 75 members of the USFSP Staff met at the University Student Center to participate in the Vision 20/20 strategic planning process. I really have to commend the participants who took time from their day for this important effort. Everyone truly demonstrated their interest and investment in the future of USFSP.

It was exciting to watch as staff members identified important university issues and then hosted conversations where others joined with them to discuss possible solutions. The groups discussed a wide range of questions. Who is USFSP? What do we want to be in the future? How do we manage “smart” growth? How do we meet the needs of our employees and our campus? And how do we optimize partnerships for the future? These were just a few of the intriguing questions they discussed.

As we convened the meeting, everyone had a chance to share their most important thoughts from those conversations, which gave us all a chance to hear the wide range of issues that were raised. I want to commend the USFSP staff members who were able to participate. Please continue to monitor the progress of the strategic planning process at the [Vision 2020 webpage](#).
