TAURUS

April 20- May 15 These individuals are kind, fearless
of power of mind and body and shrewd. They
have very keen insight and are usually
highly emotional and on occasion--
dangerous!! Taurus governs the neck region.
However in matters of romance Taurians
are often stubborn obstinate beyond
reason and some Taurus makes
dominate all in the household.

Point to Ponder

"While civilization has
been improving our
houses it has not
equally improved the
men who are to
inhabit them!"
