Rough-legged Hawk. 877-70071. Banded as L-U by David P. Mindell at Georgetown, on Kuskokwim River, AK on 22 June 1981. Found dead (partly decomposed) at Spirit River, AB on 1 June 1984. (D.P.M. notes that this record "indicates travel on the eastern side of the Rocky Mountains at a considerably far northern latitude by a Rough-leg reared in far western Alaska - relatively little is known about their migration routes.")

Golden Eagle. 599-29112. Banded and released as AHY-U by Kathryn A. Ingram near Apache Junction, AZ on 29 December 1978, following rehabilitation from head injuries (including permanent loss of sight in left eye) caused by collision with vehicle at Globe, AZ on 7 October 1978. Found stunned after colliding with fence about 64 km S of release site on 12 January 1982; released again in healthy condition at original site on 24 January 1982. (This record shows that a one-eyed eagle, provided during rehabilitation with opportunities to learn to compensate for its handicap, was able to survive in the wild for over 3 years. K.A.I. suggests that one-eyed birds therefore should not be considered nonreleasable.)

Golden Eagle. 629-07966. Banded by Sam Crowe in central TX on 7 January 1982. Retrapped as sub-adult female by Carter Niemeyer at Dillon, MT on 7 May 1983.
