\*ERRATA! In the 1985 report the high individual for Evening Grosbeak should have been Robert Altman, A9. My apologies!  
The 33 Peregrine Falcons reported by SFBBD (S31) were actually American Kestrels. This places Alberta F & W (A8) third high bander for Peregrines with 17.  
Hawaiian Islands NWR reported 609 Red-footed Boobies banded in 1985. Five year summary totals have been adjusted.

# Summary report of individual banders
