You've decided to write an article in your "spare time." With 10 years of data you estimate a three month effort to compile the numbers and calculate the statistics. With another month to draw the graphs and write the article, it might be published this year.

At the Coyote Creek Riparian Station in California, Mike Rigney makes a decision to write an article. Two days later his data is turned into useful information and graphics. He writes an article in less than a month.

The Coyote Creek Riparian Station was the first banding station in the United States to install "The Bander." Using the incredibly powerful CROSSTAB and TALLY commands on his banding database, Mike is able to compile data and statistics in a matter of minutes.

"The Bander" is an R:base program developed by BC Software in co-operation with Dr. Richard Mewaldt and Michael Rigney of the Coyote Creek Riparian Station. Due to the massive amount of data accumulated over 25 years of banding, Dr. Mewaldt visualized a computer program that would:

- require little or no training to use,
- allow simple and fast data entry,
- verify data validity on entry,
- produce Bird Banding Laboratory Report information,
- provide mathematical and analytical functions,
- support reliable archival storage of all data, and
- print useful summary reports.

BC Software and the Coyote Creek Riparian Station are proud to present the answer to every banding station's data needs, "The Bander."

System Requirements:

Software: PC or MS-DOS 3.1 or higher

R:Base System V or

R:Base for DOS

Hardware: IBM PC, XT, AT and compatibles

20 MB Hard Disk

640K bytes memory

printer (optional)

Rose Wing Measure: 15cm, 30cm, & 60cm **rigid tempered steel rules.** "Bend-of-wing" fixture secured at right angles to the end of the rule. The fixture is "off-set" to permit accurate tail measurements.

Price: 15cm rule is \$10.50 ppd. Insurance
30cm rule is \$21.50 ppd. Optional,
60cm rule is \$44.50 insured and ppd. Add 70¢

Please indicate the species or project with which the measure will be employed.

Checks must accompany order.

Order from: Chris. N. Rose, 98 Lopez Road, Cedar Grove, NJ 07009. Allow at least five weeks for shipment.

Leg Gauge: For proper determination of band sizes. Accurately-machined slots correspond to inside diameter of all band sizes from 1 thru 9. The easy-to-use gauge allows pre-selection of correct band, thus eliminating the difficult job of removing improper-fitting bands. Made of durable plastic, 2½" × 5½", with engraved lettering. Price: \$6.00 ppd. in U.S.A.

Order from: Len Soucy, 1390 White Bridge Road, Millington, NJ 07946.

Custom Potter Traps: Special or Regular. Any Cell Combination. Cell size - 7"×7"×7".

Vinyl-clad: (All weather) - (Carefree) - (Longlife) \$16.50 per cell.

Galvanized: \$13.50 per cell. (Postpaid) East of Mississippi.

Special Custom Potter Traps Available: 6" Cell - 8" Cell - 10" Cell.

Sparrow Trap: (Fly-in) or Wharton Ground Trap (walk-in) Continuous - selective - multi-catch - multi-entrance. (Vinyl-clad or Galvanized).

NEW — (Kit Form) All Purpose Ground Trap: (Walk-in) - (Figure-eight) Light - Mobile Continuous - Multi-catch - Multi-entrance. Ideal for backyard banding and field research.

NEW — (Folding) Single Cell Potter Trap: Designed by my friend Walter K. Bigger. (Profit to Bird Club of his choice).

Bird-Bucket: (Holding and gathering) Plastic (sterile) - Holds 25 to 30 Sparrow size birds in comfort and safety. (Color and style vary).

Suet Feeders: Large (\$11.50) Small (\$6.50).

Institutions: Purchase orders welcome.
