A Message From the Regional Chancellor

The USF St. Petersburg community is deeply saddened by the shooting incident that took place last night on the Florida State University campus. Our hearts go out to the students, their families and our colleagues. The safety of our campus community is always a first priority. University Police Chief David Hendry will be increasing safety measures and the presence of law enforcement on campus over the next several days.

Many of us have family and friends at FSU. We encourage you to take advantage of counseling available at the USFSP Wellness Center should you need support. You may reach the Wellness Center at [727-873-4422](tel:727-873-4422).

Sophia Wisniewska, Ph.D.
Regional Chancellor
