Avi-Nets USA

Have a
great season afield!

Avi-Net USA Features: Double tethering, top and bottom, keeps webbing in place. Super-strong braided trammels resist sagging and trammel rolling. Stay-tight knots keep trammels even. Easy-to-use, easy-to-change, snag-free, rot-proof nylon loops. Baggy resin-free webbing means maximum catching power. Nylon or polyester.
Assembled with care and infinite patience by Marj and Don.

New Products: Bausch & Lomb magnifiers. When the sun gets low in the sky, our battery-powered lighted magnifier makes it easy to read the smallest band numbers.

MacBand

Software for **Macintosh** computers to store, view, and summarize banding data, **including schedules acceptable to the Banding Lab**. MacBand v. 2.3 is distributed on a single high density disk and comes with a "User Manual" and tutorial. It provides banders with a convenient means of computerized entry of data, with fewer errors than committed with manual logging of data. A dual system of data entry—a "band card" as well as a "record card"—increases security of the data. There is provision for entry of aging and sexing keys and of summary information on the banding and status of individual species at your station. You customize the program for automatic entry of species codes, age and sex codes, and location, region, and coordinates of one to four banding locations. Recommended band size can be available for all species at your station. Data are easily accessed and viewed upon command. The program runs within HyperCard, which must be installed on your hard disk. **To order, send a check for \$50. to Wesley E. Lanyon, P.O. Box 531, Keene Valley, NY 12943 (518) 576-9714 (May thru Oct), or R.R.2, Box 219, Louisa VA 23093 (703) 967-0691 (Nov. thru April).**

AFO Mist Net Sales
Manomet Observatory
P.O. Box 1770
Manomet, MA USA 02345

Our black, tethered, nylon nets are the best grade we can obtain in Japan. We carry 6 and 12m styles, in a variety of mesh sizes. All our thread weights are 70 denier or higher, for maximum durability and less tangle of birds. Contact us for further details and price list.

100% of AFO mist net profits are spent on activities of the Association of Field Ornithologists, including publication of the 'Journal of Field Ornithology,' and annual research grants to amateurs and students via Bergstrom Awards. Your purchase of mist nets through AFO makes a lasting contribution to the ornithological community.

North American Bird Banding Charts:

The Charts are alphabetized lists of birds banded in North America with the band size, species code, alpha code and AOU#. A must for bird banders. Developed By Andy P. Damalas, MS Wildlife Biol., Pres. Cyprus Conservation Crusade, Inc. and Damalas Enterprises, Inc.

Four pages printed on 80 lb. 8-1/2" x 11" cover stock and each page comes in a sheet protector that can be inserted in a binder. Price: \$10.00 plus \$2.00 shipping. An errata sheet with corrections of species code numbers and band size changes for certain species will be included with the bird banding charts. Please send a S.A.S.E. and ask for the errata sheet if you do not already have one.

Check must accompany order.
