#### ERRATA FOR 1995

- 1) It was reported that NBS-Hawaii Field Station (N04) banded 11 Kauai Akialoa, these should have been reported as Kauai Akepa.

Western Bird Banding Association thanks Chris Otahal and others at the Coyote Creek Riparian Station for compiling this Annual Report. We also thank all reporting banders whose data enabled us to present this overall view of the banding of 434 species in 1996 in the WBBA area which includes Hawaii and Mexico as well as the western parts of the continental United States and Canada.
