News, Notes, Comments

**Hummingbird Research Group
2007 Conference
16 - 19 Aug 2007
Sierra Vista, Arizona**

The fifth biennial conference of the Hummingbird Research Group will take place in southeastern Arizona 16-19 Aug 2007, hosted by the Southeastern Arizona Bird Observatory. The conference will be held at the Arizona Folklore Preserve, located in world-famous Ramsey Canyon near Sierra Vista, Arizona. Conference activities will begin on the afternoon of 16 Aug and conclude at noon on 19 Aug. The conference is open to all researchers, banders, and banding volunteers interested in field studies of hummingbirds. Activities will include presentations on recent and ongoing projects, demonstrations of banding equipment and techniques, panel discussions, and banding sessions at a variety of locations. Registration fee (TBA) will include some meals. Questions and proposals for presentations, demonstrations, and topics for panel discussions may be submitted to Tom Wood at banding@sabo.org or 520-432-1388.

MOLT MANUSCRIPT REVISED FIGURES

In Kenneth Burton's manuscript, "Molts, Plumages, and Age Classes of Passerines and "Near-Passerines": A Bander's Overview" (*NABB* 31:175-193), Figures 3 and 6 contained errors in the widths of some molt bars. We apologize for these errors. Corrected figures follow on the next page.
