Journal of Cave and Karst Studies

Volume 69 Number 1 April 2007

CONTENTS

<b>Editorial</b>	1
Sixty Five and Still Going Strong <i>Journal of Cave and Karst Studies</i> <i>Malcolm S. Field</i>	
<b>Article</b>	3
Cave Geology and Speleogenesis Over the Past 65 Years: Role of the National Speleological Society in Advancing the Science <i>Arthur N. Palmer</i>	
<b>Article</b>	13
A Brief History of Karst Hydrogeology: Contributions of the NSS <i>William B. White</i>	
<b>Article</b>	27
Cave Archaeology and the NSS: 1941–2006 <i>George Crothers, P. Willey, and Patty Jo Watson</i>	
<b>Article</b>	35
Cave Mineralogy and the NSS: Past, Present, Future <i>Carol A. Hill and Paolo Forti</i>	
<b>Article</b>	46
The Importance of Cave Exploration to Scientific Research <i>Patricia Kambesis</i>	
<b>Article</b>	59
Development of the Carbonate Island Karst Model <i>Joan R. Mylroie and John E. Mylroie</i>	
<b>Article</b>	76
Cave Sediments and Paleoclimate <i>William B. White</i>	
<b>Article</b>	94
Ground-Water Residence Times in Unconfined Carbonate Aquifers <i>Stephen R.H. Worthington</i>	
<b>Article</b>	103
Pseudokarst in the 21st Century <i>William R. Halliday</i>	
<b>Article</b>	114
The Biology and Ecology of North American Cave Crickets <i>Kathleen H. Lavoie, Kurt L. Helf, and Thomas L. Poulson</i>	
<b>Article</b>	135
Zoogeography and Biodiversity of Missouri Caves and Karst <i>William R. Elliott</i>	
<b>Article</b>	163
Geomicrobiology in Cave Environments: Past, Current and Future Perspectives <i>Hazel A. Barton and Diana E. Northup</i>	
<b>Article</b>	179
Subterranean Biogeography: What Have We Learned From Molecular Techniques? <i>Megan L. Porter</i>	
<b>Article</b>	187
Observations on the Biodiversity of Sulfidic Karst Habitats <i>Annette Summers Engel</i>	
<b>Article</b>	207
Risks to Cavers and Cave Workers From Exposures to Low-Level Ionizing $\alpha$ Radiation From $^{222}\text{Rn}$ Decay in Caves <i>Malcolm S. Field</i>	
<b>Article</b>	229
The Reflection of Karst in the Online Mirror: A Survey Within Scientific Databases, 1960–2005 <i>Lee J. Florea, Beth Fratesi, and Todd Chavez</i>

## GUIDE TO AUTHORS

The *Journal of Cave and Karst Studies* is a multidisciplinary journal devoted to cave and karst research. The *Journal* is seeking original, unpublished manuscripts concerning the scientific study of caves or other karst features. Authors do not need to be members of the National Speleological Society but preference is given to manuscripts of importance to North American speleology.

LANGUAGES: The *Journal of Cave and Karst Studies* uses American-style English as its standard language and spelling style, with the exception of allowing a second abstract in another language when room allows. In the case of proper names, the *Journal* tries to accommodate other spellings and punctuation styles. In cases where the Editor-in-Chief finds it appropriate to use non-English words outside of proper names (generally where no equivalent English word exists), the *Journal* italicizes them. However, the common abbreviations i.e., e.g., et al., and etc. should appear in roman text. Authors are encouraged to write for our combined professional and amateur readerships.

CONTENT: Each paper will contain a title with the authors' names and addresses, an abstract, and the text of the paper, including a summary or conclusions section. Acknowledgments and references follow the text.

ABSTRACTS: An abstract stating the essential points and results must accompany all articles. An abstract is a summary, not a promise of what topics are covered in the paper.

STYLE: The *Journal* consults The Chicago Manual of Style on most general style issues.

REFERENCES: In the text, references to previously published work should be followed by the relevant author's name and date (and page number, when appropriate) in brackets. All cited references are alphabetical at the end of the manuscript with senior author's last name first, followed by date of publication, title, publisher, volume, and page numbers. Geological Society of America format should be used (see <http://www.geosociety.org/pubs/geoguid5.htm>). Please do not abbreviate periodical titles. Web references are acceptable when deemed appropriate. The references should follow the style of: Author (or publisher), year, Webpage title: Publisher (if a specific author is available), full URL (e.g., <http://www.usgs.gov/citguide.html>) and state when the web site was accessed in brackets; for example [accessed July 16, 2002]. If there is a specific author given, use their name and list the responsible organization as publisher. Because of the ephemeral nature of websites, please provide the specific date. Citations within the text should read: (Author, Year).

SUBMISSION: Effective July 2007, all manuscripts are to be submitted via AllenTrack, a web-based system for online submission. The web address is <http://jcks.allentrack2.net>. Instructions are provided at that address. At your first visit, you will be prompted to establish a login and password, after which you will enter information about your manuscript (e.g., authors and addresses, manuscript title, abstract, etc.). You will then enter your manuscript, tables, and figure files separately or all together as part of the manuscript. Manuscript files can be uploaded as DOC, WPD, RTF, TXT, or LaTeX. A DOC template with additional manuscript specifications may be downloaded. (Note: LaTeX files should not

use any unusual style files; a LaTeX template and BiBTeX file for the *Journal* may be downloaded or obtained from the Editor-in-Chief.) Table files can be uploaded as DOC, WPD, RTF, TXT, or LaTeX files and figure files can be uploaded as TIFF, EPS, AI, or CDR files. Alternatively, authors may submit manuscripts as PDF or HTML files, but if the manuscript is accepted for publication, the manuscript will need to be submitted as one of the accepted file types listed above. Manuscripts must be typed, double spaced, and single-sided. Manuscripts should be no longer than 10,000 words plus tables and figures, but exceptions are permitted on a case-by-case basis. Authors of accepted papers exceeding this limit may have to pay a current page charge for the extra pages unless decided otherwise by the Editor-in-Chief. Extensive supporting data will be placed on the *Journal's* website with a paper copy placed in the NSS archives and library. The data that are used within a paper must be made available. Authors may be required to provide supporting data in a fundamental format, such as ASCII for text data or comma-delimited ASCII for tabular data.

DISCUSSIONS: Critical discussions of papers previously published in the *Journal* are welcome. Authors will be given an opportunity to reply. Discussions and replies must be limited to a maximum of 1000 words and discussions will be subject to review before publication. Discussions must be within 6 months after the original article appears.

MEASUREMENTS: All measurements will be in Systeme Internationale (metric) except when quoting historical references. Other units will be allowed where necessary if placed in parentheses and following the SI units.

FIGURES: Figures and lettering must be neat and legible. Figure captions should be on a separate sheet of paper and not within the figure. Figures should be numbered in sequence and referred to in the text by inserting (Fig. x). Most figures will be reduced, hence the lettering should be large. Photographs must be sharp and high contrast. Color will generally only be printed at author's expense.

TABLES: See <http://www.caves.org/pub/journal/PDF/Tables.pdf> to get guidelines for table layout.

COPYRIGHT AND AUTHOR'S RESPONSIBILITIES: It is the author's responsibility to clear any copyright or acknowledgement matters concerning text, tables, or figures used. Authors should also ensure adequate attention to sensitive or legal issues such as land owner and land manager concerns or policies.

PROCESS: All submitted manuscripts are sent out to at least two experts in the field. Reviewed manuscripts are then returned to the author for consideration of the referees' remarks and revision, where appropriate. Revised manuscripts are returned to the appropriate Associate Editor who then recommends acceptance or rejection. The Editor-in-Chief makes final decisions regarding publication. Upon acceptance, the senior author will be sent one set of PDF proofs for review. Examine the current issue for more information of the format used.

ELECTRONIC FILES: The *Journal* is printed at high resolution. Illustrations must be a minimum of 300 dpi for acceptance.

The *Journal of Cave and Karst Studies* (ISSN 1090-6924, CPM Number #40065056) is a multi-disciplinary, refereed journal published three times a year by the National Speleological Society, 2813 Cave Avenue, Huntsville, Alabama 35810-4431 USA; Phone (256) 852-1300; Fax (256) 851-9241, email: [nss@caves.org](mailto:nss@caves.org); World Wide Web: <http://www.caves.org/pub/journal/>. The annual subscription fee is \$23 US, \$44 US for 2 years, and \$65 US for 3 years. Check the *Journal* website for international rates. Back issues and cumulative indices are available from the NSS office. POSTMASTER: send address changes to the *Journal of Cave and Karst Studies*, 2813 Cave Avenue, Huntsville, Alabama 35810-4431 USA.

The *Journal of Cave and Karst Studies* is covered by the following ISI Thomson Services Science Citation Index Expanded, ISI Alerting Services, and Current Contents/Physical, Chemical, and Earth Sciences.
