1	31	And this is how the sincere screams of the noble ones - from the various levels of Arab and Islamic societies	44	America and the Western civilization... are like a disease
2	31	...a limited number of pure hearts	44	... rid our ummah and the whole world from the symptoms of this disease
3	35	The elite of this ummah	44	In our efforts, God willing, will be the cure
4	35	...who understand both their religion and the contemporary world.	68	But we know, with certitude, that God will inevitably grant victory to His religion and His party and that the glad tidings of our victory - with which we will open Rome - will come to fruition.
5	64	An ummah that has slept for too long	720	For we and our Afghani brothers have defeated the Soviet Union , and it was the leader of the Eastern camp
6	64	...has abandoned war for too long	720	I believe that our followers and whoever lives long enough from us, along with whoever God chooses from His servants, will defeat America, the leader of the new Western-Crusader camp
7	64	...has delved into worldly pleasure for too long	1504	The crisis of Western Intellectual thought.
8	64	...in whose hearts the attachment of the world...	1505	... fleeing from God
9	64	and fear of death have seeped in both its lay person and its elect,	1505	...stage of deterioration and degeneration, and then substitution
10	64	...and its religious scholars have spent too much time at the tables of its sultans.	1506	The crises of a spiritual void
11	67	The jihadists are the exemplars of Islam in today's world...	1506	... alcohol indulgences

12	67	...they are the elite	1506	...drug addictions

13	68	And let the cowards who stay behind hear this...	1506	...neural and psychological disorders
14	79	...the ones who invite to jihad against the enemies of God and against the apostates and hypocrites are even fewer, and have become the strangest of strangers. <i>[alludes to an arabic phrase where strangers are praised for persisiting upon righteousness when others have gone astray]</i>	1506	...identity crises and rebellion
15	87	...the divinely-aided group of this age.	1506	...crime
16	88	As for he who combines the pen with the sword, and fighting with religious knowledge...	1506	...sexual promiscuity & STDs
17	88	...among the heads of this divinely-aided group and its leaders, its banners, its scholars, and the mujahids that call to it.	1506	...suicide
18	88	And their rank will even supersede the ones who have gone before them.	1507	...the deterioration and collapse of the Communist East
19	91	The loss of real faith in the hearts of the majority of Muslims.	1508	I glimpse the withering away of both the Western and Eastern branches of this civilization...
20	96	The corruption of the pristine creed of monotheism among most Muslims	1508	Yet I am positive, and God knows best, that...its ultimate demise is not too far away,
21	96	the proliferation of prohibited religious innovation	1509	there are verses in our Holy Book that calm the self and inform us that Islam will step forward and save all of humanity, God willing.
22	96	and their abandonment of the Sunna	1509	[A]s for the prophecies, we know that the Muslim ummah will spread across the earth.

23	627	Muslim hypocrites	1514	The charm of the Western civilization no longer deceives the eyes or tempts the hearts.
24	627	...Jihadi elite

25	720	...a distinct Jihadi generation		
26	720	...unique both in its philosophy and its methodology		
27	720	Apart from the fact that their pristine creed and methodology made them exceptional		
28	720	were even more distinguished because their will was derived from a conviction that God was on their side		
29	720	...and that they could bring down superpowers.		
30	835	...the so-called reformers		
31	835	...the deluded scholars		
32	835	...who abandon jihad		
33	901	As for the jihadist-fighting creed in the leaders of the 'Islamic revival'...		
34	901	...it has produced for us the likes of the Satan of scholars (Abdel Mohsen al-'Abeekan)		
35	901	the bloated Imam of the sanctuary, the obese 'Rabbi' (Abdul Rahman al-Sudeis)		
36	901	the Shaykh of Al-Azhar , who gives us Tantawiyat [a sarcastic play on his last name, that an Arab would easily grasp]		

37	902	Yet the state of the Jihadist-fighting creed in the jihadist movement after September 11th, 2001, fills one with optimism and expectations of great good		
38	909	The creed of... the saved group...
