MEMORANDUM

APRIL 8, 1980

TO: John Hinz
FROM: James B. Heck *Jim*
SUBJECT: St. Petersburg Campus Dedication

John, Joe Busta has suggested that we form a "campus dedication committee" to plan and handle plans for the dedication of the new St. Petersburg Campus facilities. It seems reasonable to include students, faculty, staff, and community leaders from St. Petersburg as well as a representative from Joe's staff in University Relations. We might want to plan some special seminars focusing on program areas represented on the campus.

Let's talk about this at your convenience. After you have had an opportunity to review it with some of your staff, we can put together a committee that can do a first rate job.

I have one of the original ground-breaking shovels. It would be interesting to have it chrome-plated and refinished for appropriate mounting in the new building. I look forward to hearing from you shortly so that we may proceed with this matter.

Thanks very much.

JBH/hg

W. Busta
