Dear Pinellas County Legislator!

Enclosed you will find an invitation to a "Legislative Social" from 6 to 8 P.M. on Wednesday, April 8th, sponsored by the USF Alumni Association and hosted by President John Lott Brown. If possible, I hope to be able to attend myself and look forward to meeting you there.

Briefly, let me take this occasion to tell you how proud we at the St. Petersburg Campus are of our newly completed library and instructional building. Architecturally handsome, they make an inspiring environment for study and learning. Without your help and support, we know none of it would have been possible. We are all deeply grateful.

We do ask that you continue your good work and firm support for our Student Services Building. This much-needed facility containing a student cafeteria, book store, art room, additional classrooms, student dressing rooms, and faculty offices is absolutely essential for our students' educational experience and only completes Phase I of our campus construction.

For my part, I pledge to work, to the very limits of ^{my} role as campus director, to ensure that this USF regional campus ^{will} continue to grow as a credible and creditable academic entity that serves this community and responds to the real needs of Pinellas County residents, who ask no more than fair access and equal opportunity to quality higher education in the arts, professions, ^{sciences,} and humanities.

Again, our thanks and appreciation.

John Hinz
Director, St. Petersburg Campus
