1	28	The Americans and Europeans, and their <b>plotting</b> - in the last two centuries - <b>to weaken the Muslim people's faith</b>	27	Likewise the Islamic awakening is enduring an intellectual decline as a result of <b>the efforts of hypocrites</b> among the ulama and the defeatists within its leadership
2	29	The modern crusader-Jewish, American-led campaign against the Arab and Islamic world has clearly announced its goals: <b>total elimination of the civilizational, religious, political, economic, social, and cultural existence of Muslims</b>	30	The American attack today depends - and we must accept this agonizing reality - on <b>complete cooperation from the overwhelming majority of the current Arab rulers..</b>
3	29	<b>Transforming the political map of the middle east and the arab-islamic world</b> , that is transforming the ruling systems and reconstructing, replacing or forming them anew.	30	It is a disaster that <b>many Islamic ulama as well as party and organizational leaders have begun to sell the notion of prostration and our inability to wage war.</b>
4	29	<b>Redrawing the map of certain countries</b> by encouraging fractiousness as well as localized religious, ethnic, and political strife.	30	<b>The enemy media has convinced them</b> to sell the idea of peaceful coexistence, inter-civilisational exchange and peaceful dialogue and mutual understanding with colonizers who devastate us day and night with smart bombs and rockets
5	29	<b>Destroying cultural identity based resistance movements and reconstituting the social fabric</b> by removing the religious intellectual and moral foundations of the region and re-shaping them on the basis of western thought specifically american-zionist thought.	30	They <b>use tanks to implement programs for social religious, and cultural transformation</b> , for replacing the Islamic ideology, and fragmenting the Arab and Muslim identity.

6	29	<b>Hegemony over the sources of wealth</b> in the region particularly oil and gas, minerals resources and other agricultural and livestock resources <b>so as to pump them through the arteries of the invaders and the zionist entity implanted in the heart of the region.</b>	30	<b>They plan programs for reshaping our societies that include intellectual and cultural elements, educational changes, and media programs they hope will reshape everything,</b> including the Friday sermon in the pulpits of Muslim mosques, including the two Sanctuary mosques, Al-Azhar, and any mosque of similar influence in every Muslim country, city, town and village.
7	29	<b>Transforming the region into a market for liquidating imperialist products</b> vis so-called partnership and free trade agreements in the Middle East.	30	<b>At the hands of our countrymen,</b> who have names like our own , who wear our clothes and speak our tongue, <b>services are offered to the colonizer</b> to assassinate the ummah, defeat the religion, kill our sons, and wipe out all elements of civilization.
8	29	Numerous media sources have revealed that <b>America, with Britain and Israel behind her</b> (along with all of the NATO and European nations rotating in America's orbit), <b>has sought to use all its military, strategic, economic and media might to realize these objectives.</b>	30	<b>These collaborating groups are not confined to intellectual movements, nor to specific ethnic or religious groups. Within this vile column</b> are those who claim a variety of identities, beginning with so-called Islamism and continuing with every color of secularist and political group in our lands.
9	30	It can be said that this " <b>third crusader campaign</b> " is a <b>malicious continuation of the two campaigns that preceded it</b> -the first during the eleventh and twelfth christian centuries and the second spanning from the seventeenth century until the middle of the twentieth century.	50	<b>The official religious establishment</b> and a large portion of the ulama and their religious institutions are unflinchingly <b>poised to become a part of the new world order.</b>
10	35	Likewise, writing, protesting and other works of civil resistance are works that are permissible under the " <b>False democracy</b> " of colonialism can be used by our supporters...	50	<b>More clearly, they (religious establishments) are poised to join the enemy,</b> having officially chosen to go along with their infidel governments that function within the new crusader-jewish campaign.

11	101	The <b>illegal appropriation of Muslims' wealth and their primary riches</b>	99	As for the political parties that are called "Islamic", <b>their political programs are built on a mixture of Islamic and western democratic foundations mixed with some religious foundations to call them "islamic programs" and "islamic parties."</b>
12	102	The <b>fortunes are being stolen from their very source</b> because they are extracted by foreign companies that supervise extraction, marketing, and trade and that manage the international banks where the returns come to rest. This completes the cycle of robbery from beginning to end.	127	And here we stand at the end of 2004, watching as <b>Arab and Islamic intelligence services work side by side with American CIA and FBI officers</b> , combating the terrorism of Islam and Muslims, from Syria to Egypt to Morocco to Algeria, to Tunisia to Sudan to the Arabian peninsula.
13	103	The <b>robbery begins with contracts made with the treacherous government</b> and extends to falsifying the amount of oil extracted.	127	<b>...everyone is in America's service today</b>
14	103	<b>...our resources are stolen by limiting the price of oil and marketing it worldwide at the cheapest of prices.</b>	128	What a pity that the ulama of the Muslims has remained silent and cowering . Even from the pulpits of Friday prayer at the al-Haram mosque in Mecca <b>the sultan's hypocritical ulama condemn jihad and the mujahideen, defend their rulers, and call for protecting the blood of the unbelieving invaders.</b>
15	103	Then comes the <b>last stage of stealing, when our country's share of the profits is transferred to Western banks</b> to turn into electronic numbers and zeros in the accounts they run their economy with	137	The Muslim governments today are infidel and apostate, <b>for they have substituted God's sharia and ruled according to laws that are not His.</b>
16	103	<b>...do not permit our governments to withdraw from it except in limited and calculated amounts.</b>	137	<b>They have also allied with God's enemies and as a result have betrayed God, His messenger, and the believers.</b>

19	118	America and its European NATO allies are beginning the twenty first century and the third millennium <b>with plans that consider Islam and Muslims the strategic and historical next standing enemy.</b>		
20	118	<b>Thus its policies will be built upon the assumption of inherent incompatibility between Western Christian civilization and the Muslim and Islamic civilization.</b>		
21	119	<b>...the American propaganda that what all what the world is going through now is a result of the September events.</b>		
22		Like I said, we are now witnessing an <b>opportunistic American-Jewish carefully programmed media campaign</b>		
23		<b>...that blows the events of September out of proportion, in order to justify its invasion to the rest of the world</b>		
24	122	All of this through its <b>opportunistic utilization of the term 'terror'</b> and the campaign to fight it.		
25	123	this is a <b>Crusade with occupation goals</b> , and it is led by America, Britain, and Israel		
26	123	<b>they are aided by all NATO's European countries, Russia and America's allies</b>		

27	124	The expansion of the NATO, and the raising of crusader slogans... <b>clearly indicates their crusading objectives.</b>

28	124	It is striking that <b>the European Union is revealing a Christian identity, by refusing Turkey's membership in spite of its attempt to join for many years.</b>		
29	321	<b>The 'Outer Invasion' of the Islamic World</b>		
30	358	The reader will see that what we are living today...is nothing other than the <b>repetition of what happened in the last two centuries.</b>		
31	530	<b>Bush</b> and his key administration officials <b>are now preparing everyone for their next step: Syria, or maybe Iran, and he is hinting at dividing Saudi Arabia and taking Egypt over.</b>		
32	531-532	<b>The Muslim struggle with the 'Room' [The west] throughout Islamic history.</b>		
33	555	The Americans'... <b>plans for reforming its educational and religious programs</b>		
34	555	... are nothing other than the <b>(foolish) repeated implementation of the European colonial program in the eighteenth and nineteenth centuries.</b>		
35	1098-1100	<b>Crusader-Zionist Western plans to eradicate..on the intellectual and cultural , political, economic, societal, educational, military and security levels.</b>
