No.	Pg	<i>Reflected in Muslim Ummah</i>
1	5	To believing men and sincere youth.... [and they] ask and what can any one of us do in the face of this onslaught from the Crusaders and Jews and their supporters from the apostates and the hypocrites among us?
2	5	A comprehensive and complete plan of action that helps them get rid of the chains and destitution of sadness and grief
3	5	and the heavy burden of helplessness and laziness and the woes of oppression
4	40	If we compare this situation with the size of the jihadist bands muslims created in both their ancient and recent history we would find that the present condition of the ummah begs for defeat . But there are signs of hopefulness in segments of the ummah, which require efforts to bear their fruits and transform them into a powerful "global Islamic resistance"(pg 10)
5	67	the goal was to awaken the drugged and sleeping ummah that has been absent from the field of confrontation, and to set it face to face with this obligation.
6	115	For the Islamic ummah is powerless and without volition before its leaders, and its leaders are in turn powerless and without volition before the ummah's enemies
